Story of New Deal:

Evening American To Print President's Own Notes, Comment

History by Man Who Made It Revealed In Public Papers; First Article In Notable Series March 23

EXCLUSIVE!

The Boston Evening American today arranged for exclusive publication of President Roosevelt's own story of the New Deal, a series of articles selected from notes and comments written by the President for his forthcoming books, "The Public Papers and Addresses of Franklin D. Roosevelt."

This will mark the first advance publication in newspapers of any writings of President Roosevelt since his inauguration.

The Boston Evening American has obtained rights to the President's series from United Feature Syndicate, which is distributing it to newspapers throughout the world.

The series will comprise thirty articles. In Boston, they will be published only in the Boston Evening American daily beginning Wednesday, March 23, and concluding Wednesday, April 27.

Five Years' History Covered

The articles, correlated to the official papers, constitute a history of the New Deal by the man who made it. They cover the period from his first election as President up to 1937.

In them the President discusses every vital point of government—business, big and little; farming, foreign policy, unemployment, monopoly, securities regulation, power, money, neutrality, holding companies, the budget, conservation.

He furthermore tells of his famous pre-inaugural meetings with President Hoover, of the "Hundred Days," of the bank holiday, of the shelving of the gold standard. He remarks upon crime and the Lindbergh law, upon a Supreme Court reversal, upon the NRA, TVA, AAA and kindred agencies. He adds many brief notes revealing the human side of the President and the Presidency.

Series to Be Absolutely New

What President Roosevelt has written will give a clear, readable record of his administration and provide an essential background to understanding what it is doing.

The articles which the Boston Evening American will publish are exclusive to newspapers. Other material, likewise taken from the President's forthcoming books and due to appear in a national magazine, does not duplicate the newspaper series in any part. Not one sentence ever has appeared in print before or will appear until the Boston Evening American publishes it. It will be absolutely and entirely new.

The books from which the articles are taken are in five volumes to be issued by a New York publisher. The five volumes will appear late in April, upon the conclusion of the newspaper series.

Two Billion Flood Plan Offered

WASHINGTON, March 10 (AP)—Total outlays of $2,111,001,000 on federal and non-federal projects were recommended by the National Resources Committee today in a report sent to Congress by President Roosevelt.

The President, in his letter of transmittal described the report as a "comprehensive national plan for the conservation and development of our water resources."

The report recommended use of $881,082,000 on primarily federal projects and $1,230,000,000 on non-federal developments in which local communities would share in the cost.

"I recommend careful study of these documents by the Congress," the President said, "because they present a frame of reference for legislative programs affecting water conservation, and because they illustrate an approach to the systematic husbandry of our natural resources on a democratic, regional basis."

The report proposed a six-year construction and investigation program for the utilization and conservation of the nation's water resources and a unified policy of water control and development.

The President said the proposals recommended by the resources committee were based upon finding of 43 joint state-federal basin committees composed of more than 300 local state and federal officials.

"The proposals in the report," he said, "provided a guide for authorizations of surveys and construction of irrigation flood control, navigation, rural water supply, wild life conservation, beach erosion control, hydro-electric power, and other water projects.

"Because it was necessary to confine the program to projects that are primarily for water control and use, many related land-use projects are not included."

School Repair Budget Cut

A $208,000 saving in upkeep and repair expense for Boston schools has been agreed upon by the school committee and James J. Mahar, superintendent of school house construction, the Boston Evening American learned from a reliable source today.

The school committee, it is stated, will budget only $800,000 for the upkeep and repair of school buildings this year, compared with $1,008,000 last year.

Reports were that the school committee, through other drastic cuts, is striving for a total saving of $800,000. School officials, however, today denied this. An $800,000 saving, they said, would be "impossible without salary cuts." They denied that any salary cuts are contemplated.

Other sources, however, suggested playground activities may be

Lodge Aids N. E. Fight On Pact

In a desperate attempt to save New England industry, public officials and foremost manufacturers today rallied forces to fight trade pacts with Great Britain at the United States tariff commission hearing at Washington Tuesday.

An army was quickly forming to stage the greatest invasion of Washington by New Englanders and sternly protest agreements which would allow cheap textiles, shoes and tools to be imported from England, underselling locally made products.

From Massachusetts industrial centers and manufacturing cities of the other neighbor states came the cry:

"Textiles must be saved!"

LODGE LEADS ATTACK

Senator Henry Cabot Lodge, Jr., in Washington, was the forefront of the attack on disastrous reciprocal treaties.

Senator Lodge, in a long-distance telephone statement to the Boston American, said he will "put every effort forward" to prevent President Roosevelt from signing the Czechoslovakian treaty, approval of which gave the signal yesterday for closing shoe factories in Haverhill and other Massachusetts cities.

DEWEY JOINS U. S. IN PROBE OF WHITNEY FAILURE

NEW YORK, March 10 (AP)—The criminal division of the United States attorney's office and District Attorney Thomas E. Dewey today both entered the investigation of the collapse of Richard Whitney and Company, leading Wall Street brokerage firm, headed by Richard Whitney, five times president of the New York Stock Exchange.

Dewey, famous as a rackets prosecutor, informed Assistant State Attorney General Ambrose V. McCall, conducting a public hearing today that he would be glad to assist in any criminal aspects of the case that might arise. McCall said he immediately accepted the offer.

Gregory of Noonan, chief of the Federal prosecutor's criminal division, said he had been instructed by Brien McMahon, Assistant United States Attorney-General in Washington, to begin an investigation of the case with a view to presentation before the federal grand jury with the co-operation of Bankruptcy Referee Irwin

NEW TURMOIL IN EUROPE

VIENNA—Hitler sends his "vote boss" to Vienna as Nazis and anti-Nazis feverishly prepare for Chancellor Schuschnigg's surprise plebiscite Sunday on maintaining Austria independent of Germany; 11 hurt in riots. Talk of civil war spreads.

H. R. KNICKERBOCKER, famous European correspondent, analyzes daring defiance of Europe's "biggest dictator"—Hitler—by "littlest dictator"—Schuschnigg.

PARIS—Former Premier Leon Blum undertakes formation of new cabinet following resignation of Chautemps ministry in face of falling franc, after deputies refuse to grant him decree powers over finances and defense.

LONDON—Crowds boo German Foreign Minister von Ribbentrop as he opens "peace talks" with British Foreign Secretary Halifax. Halifax warns any interference with Austrian vote will be considered "hostile act."

BULLETIN

VIENNA, March 10 (INS)—Dr. Arthur Seyss-Inquart, pro-Nazi minister of the interior, has presented his resignation to Chancellor Schuschnigg, it is learned on reliable authority.

LONDON, March 10 (INS)—Great Britain today informed Germany that any interference with Chancellor Kurt Schuschnigg's "independence" plebiscite in Austria Sunday will be regarded as a hostile act.

International News Service learned this information was conveyed by Foreign Secretary Viscount Halifax to Joachim von Ribbentrop, German foreign minister.

Von Ribbentrop was told that Britain is determined the Austrian people shall be permitted absolute freedom of action in casting their votes.

Diplomatic circles said Schuschnigg's plebiscite announcement came as a great surprise to von Ribbentrop, who is expected to leave for Berlin immediately after a formal luncheon with Prime Minister Chamberlain tomorrow, making the trip by air.

Hitler Aide In Austria

VIENNA, March 10—Recovering from the shock of Chancellor Kurt Schuschnigg's plebiscite challenge to Nazi aspirations, Reichs-Fuehrer Adolf Hitler took a direct hand today in preparations for Sunday's vote on the question of Austrian independence.

Hitler sent a special envoy, Under-Secretary of State Wilhelm Keppler, to Vienna, as increasingly serious disorders between Austrian Nazis and followers of Schuschnigg kept Vienna in turmoil throughout the day. Troops were held ready as dozens were injured in riots.

Talk of civil war was heard in Graz and other cities.

Keppler went immediately to the office of Dr. Alfred Seyss-Inquart, the Nazi sympathizer, who is Schuschnigg's minister of the interior.

After they had been in conference several hours, it was learned Nazis in Austria will make clear their attitude in the forthcoming plebiscite

to prevent this sacrifice of Massachusetts through reciprocal treaties," Lodge stated.

"These treaties, now being formulated, should have Senate ratification. I am proud I have led the fight demanding the Senate's approval of such vitally important agreements.

"My entire resources are at the disposal of Massachusetts public officials, textile manufacturers, Chamber of Commerce representatives and industrial leaders who may come to Washington Tuesday to voice their opposition to the Great Britain pact."

That Senator David I. Walsh will join Senator Lodge in the battle to protect Massachusetts industries was indicated in Lodge's statement that he has the "assurance of the senior senator of his interest in the forthcoming matter before the tariff commission."

LABOR JOINS FIGHT

In Washington Francis J. Gorman, president of the United Textile Workers, CIO affiliate, declared his union would oppose tariff concessions to any nation "because of the extremely dangerous condition of the textile industry."

"No concessions should be made at least until the British Parliament passes a 40-hour week act," Gorman stated.

"Labor in this country has fought hard to obtain the present standards," he said. "We are now demanding federal regulation of wages and hours to improve substandard conditions and injurious trade treaties must not be allowed."

MAYORS BACK MARCH

Meanwhile, mayors of three great Massachusetts textile centers, New Bedford, Fall River and Lawrence, pushed efforts to invade Washington at "full strength" to protect cotton and wool manufacturing, "the backbone of New England."

Mayor Alexander C. Murray of Fall River, told the Boston American that he will personally lead a delegation from that city to Washington, to protest the British reciprocal treaty.

"The time has come when we in the Bay State must fight for our rights," Mayor Murray asserted. "The future of our city and state depends on the strength of this agitation.

"If the Tariff Commission carries on toward textiles in the same attitude as it did toward the shoe industry, it will mean death to Fall River."

DELEGATIONS NAMED

Today Mayor Murray named a committee of Chamber of Commerce officials, anufacturers, union representatives and Fall River merchants to appear at the Washington hearing with him next Tuesday.

The Fall River Manufacturing Association also will send representatives headed by Lou Morley, secretary.

Governor Charles F. Hurley will send a committee formed of state legislature members and led by James T. Moriarty, state commissioner of labor and industries.

Mayor Walter A. Griffin of Lawrence will personally head a delegation of 40 business men from the Merrimack Valley. Bankers, automobile dealers, grocery store owners and union leaders will form the powerful group from northeastern Massachusetts, where the future of textiles is described as "hanging in the balance."

CAPITAL HEADQUARTERS

Senators Lodge and Walsh will work in conjunction with the Massachusetts groups in Washington, and, following Lodge's blast against the reciprocal trade proposals, it appeared his office would be headquuarters for the Bay State delegation.

While textiles are threatened primarily, the proposed agreement would add to the damage which the Czechoslovakian pact has caused New England's shoe industry, officials said. Other types of manufacturing, such as fine tools, bicycles, auto parts and similar products, are likewise endangered.

Resentful over the Czchoslovakian shoe treaty, in which the State Department was described as having "sold New England down the river," shoe manufacturers outlined attacks on the plan to import low-priced shoes from the United Kingdom.

Secretary James H. Stone of the New England Shoe and Leather Association promised that shoe manufacturers and attorneys will attend the Tuesday hearing "in full force."

"All information and data in regard to the shoe industry in New England, especially the manufacturing of men's shoes, will be in the hands of our attorneys and officials who will give stiff battle to curb importation of any quantity of English made shoes," he said, adding:

"It is my hope that the tariff commission will give a little more consideration to New England and those representing the shoe trade at the forthcoming hearing than what was given at the Czechoslovakia trade treaty hearing."

SENATOR WALSH STAND

In the face of tremendous opposition voiced by New England shoe manufacturers, union officials, city executives and business men, Senator David I. Walsh today issued the following statement of his position to the Boston American:

"Facts about differences of production costs in women's and misses' shoes between Czechoslovakia and this country were ascertained by the Tariff Commission pursuant to a resolution passed by the Senate at my insistance last August.

"The commission insisted that importation of foreign shoes to the amount of one and a quarter per cent of domestic production is a most important step in protecting the American shoe industry as a whole from foreign competition.

"This limitation assures the industry that imports will not increase beyond this percentage."

HAVERHILL TO FIGHT

In Haverhill today, Frank J. Spofford, chairman of the Republican city committee, sent a letter to William J. Maguire, chairman of the Democratic city committee, urging that party differences be set aside and that the two committees unite "to fight for Haverhill in this hour of direst need."

The executive committee of the Republican city committee in Haverhill, already has passed a resolution urging Congress to act to protect home industries.

Michael F. Lynch, supervisor of the Boot & Shoe Workers' Union in Haverhill, issued a statement urging city and industrial leaders to support a bill, now before the Legislature, which would compel all foreign-made goods to be planly marked as to the country of their origin.

The Case for a White Canada

Editorial Reprinted From the Vancouver Sun

Without heat and without racial bias, the citizens of this province must follow up the task of removing from the shoulders of British Columbia the tremendous economic burden of Japanese immigration.

We can well understand the reluctance of Premier MacKenzie King to frame an exclusion bill that in his estimation might add to the load of embarrassment carried by the British empire in the Orient.

In Mr. King's mind the diplomatic phase of the problem looms large; the economic phase in British Columbia is to him comparatively insignificant.

The prime minister is a stranger in British Columbia. His visits to this coast have been for election purposes and for election purposes only. Together with many of his eastern colleagues he is acquiring something of the viewpoint of the eminent premier of Quebec who never in his lifetime ventured west of Toronto.

That is why Mr. King and the House of Commons, crowded with Eastern members, are able to shrug their shoulders and pass off the case for a white Canada so lightly.

It is not that they do not care. They simply do not know.

We would like to tell Mr. King, with all respect for his high position, that his apparent indifference to the Japanese menace in British Columbia is endangering the economic life of all Canada.

What the Japanese invasion has done to our fishing industry in British Columbia, what it has done to our small merchants and what it has done to our white fruit growers will be repeated within 25 years in every corner of this Dominion if something is not done now to check the influx of these people.

The Japanese birth rate is high. Every encouragement is being offered by the Japanese government to make it higher. No wonder the crowded hordes of Japan covet the fruitful acres of British Columbia and will inevitably covet the equally fruitful acres of Eastern Canada.

The Pacific American states have passed stringent laws covering the entry and conduct of Orientals.

Is it to be said that Canada lacks the courage of her neighbors to the south?

Australia has diligently and persistently held to the ideal of a white population.

Has her attitude ever embarrassed the empire's foreign relationships?

Has it ever reacted against her trade?

The fact is that Australia's gains in the Oriental market have been greater in the past five years than those of almost any other country.

We do not believe that any Canadian, cognizant of the facts, will believe for one minute that Japanese exclusion would have any effect whatsoever on our foreign relations.

We believe with thousands of other Canadians that the Japanese situation in British Columbia far transcends in importance any incident of foreign policy.

Premier King has made a grave mistake in adopting the attitude that he has done.

It should be the business of British Columbia people and British Columbia institutions to make him see it.

Deal Hints Nazi, Italian Trade Agreements

Believe British Pact Will Break Europe Economic Walls

WASHINGTON, March 10 (INS)—Administration sources today hinted the approaching Anglo-American reciprocal trade agreement may constitute the first act of an international drama climaxed by the economic appeasement of Germany and Italy.

Officials indicated the impact of the agreement between the United States and the United Kingdom may jar the two totalitarian states out of their "economic isolation" and induce them to join the reciprocity program Secretary of State Hull hopes eventually will blanket the world.

In fear the British agreement may shear away tariff walls protecting American industry, delegations of congressmen, manufacturers, distributors and labor leaders prepared to fight "give-away" concessions to Britain at public hearings beginning Monday.

Rep. Edith Nourse Rogers, (R.) of Massachusetts, said today she had been seeking without result an audience with President Roosevelt for a congressional delegation to protest concessions "ruining" New England industries.

She declared New England woolen, cutlery and hardware producers were "up in arms" over reports of intended tariff slashes on competing British items.

Officials pointed out all British rate reductions to the United States will be extended by Britain to Germany and Italy as well, the British having most favored nation treaties with those countries.

Likewise, all American concessions granted Britain will be extended by the United States to Italy, under the commercial modus vivendi of December last, establishing the most favored nation principle.

Thus, officials explained, Italy will receive a secondary benefit from both the American and British tariff reductions which, they hope, may whet its appetite for more. Germany will benefit only from British concessions, the United States having placed the Nazi government on its trade "blacklist."

curtailed as a part of the school committee's economy program, and teachers may see an actual shrinkage in their pay envelopes through a curtailment of various "extras" for which they have been paid in past years.

In economizing on upkeep and repairs, it is stated, only "necessary" expenditures will be approved. There will be no general cleaning and redecorating of school buildings and class-rooms as in the past, and even window-washing is to be more infrequent.

GIVES MAYOR AID

In all of this, political observers pointed out today, Mayor Tobin, himself a former member of the school committee, apparently is much more fortunate than Mayor Mansfield, his predecessor.

Mayor Mansfield was at loggerheads with the school committee, demanding economies which the committee insisted were impossible or impractical. The present attitude of the committee, it was pointed out, is an apparent righ-about-face, the committee now cooperating with the mayor's office in its economy program.

STUDIES TAX RATE

Mayor Tobin's 1938 budget is expected to go to the City Council on ro about April 1. The mayor is struggling, it was declared today, to hold the tax rate at its last year's figure—$38.

Maor problem is an expected increase in welfare costs that may be anywhere from $500,000 to $2,000,000. To offset this, it is understood, teh mayor hopes to borrow some $7,000,000. Mayor Mansfield's borrowing for this purpose last year amounted $5,000,000.

Also confronting Mayor Tobin is an increase of $1,000,000 in routine expenditures. Major items here are the new surgical building at City Hospital, and increases in fire and police department personnel.

Likewise, under this heading, there is an item of $350,000 for snow removal. Mayor Mansfield had no snow to remove last year.

General Johnson Says:

NEW TRADE FOE IN

Arnold Leads Radicals

By HUGH S. JOHNSON

WASHINGTON, March 10—Senator Norris has nominated Mr. Robert Jackson for President. Mr. Jackson is a business-baiter. The senator also hates business and especially the utility business. He is the father of the great Tennessee Valley Authority plan to create a federally-controlled province out of the pieces and powers of several states and to have the federal government go into business there. He wants to start similar proceedings in six other provinces comprising all the states.

HUGH JOHNSON

That all this is done under the pious fraud that it is for navigation and national defense doesn't bother him. He concedes it.

That there are a good many other frauds in the TVA accounting on the yardstick theory is becoming quite apparent plus also a stinking mess within the Authority itself.

It at least calls for investigation but Senator Norris doesn't want an investigation. He wants the administration-controlled anti-business Federal Trade Commission to whitewash the TVA and shellac its critics.

Mr. Jackson goes onward and upward from his job as chief official business-baiter, but his place is promptly taken by a far more rabid enemy of business and the profits and capitalist system—Professor Thurman W. Arnold. The professor is brilliant and candid. No one can read his two books, "The Folklore of Capitalism" and "The Symbols of Government" and deny that. But he is not in step with the more radical of administration advisers—he's way ahead of them.

• • •

It is a little difficult to know exactly what he proposes because he writes in professorial smart-Aleckese. Everything that everybody ever thought of before Arnold was just a sort of boozy confusion among symbols, slogans and ancient fetiches—such as profits, property rights in corporations and governmental competition with private initiative.

He appears to want all corporations to become "an integral part of government." They aren't to have any such property rights as individuals. The old idea that what made this country economically was the profit-motives among increasing millions of Americans, is just misguided mumbo-jumbo of the capitalist system.

• • •

He says its engagingly, indefinitely and amusingly, but it's all the stuff of which the Third New Deal was made—no balanced budget, anti-business, anti-profits, share-our-wealth, production for use and not for profits, and a personalized government of most of our economic as well as our political empire from Washington.

These ideas and these men remain in the saddle. Any encouragement that business may have thought it saw in recent developments should have been banished by the selection of Professor Arnold. Those who believe religiously that the one way out of this depression is sufficiently to restore confidence that the vast idle pools of frightened private capital will dare to go to work, feel that this appointment, of itself, is a new setback among many similar influences that are pressing the country back into the new wallow of the nine-year depression.

This is not because of the men themselves. Senator Norris is regarded with affection by all who know him. Mr. Jackson is obviously a brilliant and engaging man. I have never met Professor Arnold, but it is plain from reading his book that he is a real somebody. But it is these ideas, now exclusively on top in the President's surroundings, which are almost singly and directly responsible for the present stagnation of investment—which is just another way of saying, **"for the present sufferings of millions of the jobless and the anxiety and fear of more millions among other classes."**

It doesn't do any good to say there is nothing to be afraid of. The fear is there just the same, and it is that fear alone that keeps business bad. What is most needed to restore prosperity is not a lot of new laws or changes in old ones. It is an administrative house-cleaning of radical fanatics. But—no hope. It is still recruiting them.

Mary Pickford Writes:

All Six Kennedys Sail as Diplomats

Famous Actress, Turned Reporter, Finds Family Gay, Thrilled

(Editor's note: Mary Pickford, famous film star, in her new role as reporter for the New York Journal-American, a Hearst newspaper, covered the departure of Mrs. Joseph Kennedy, wife of the U. S. Ambassador to the Court of St. James, and five of Mrs. Kennedy's nine children. Her story follows.)

By MARY PICKFORD

NEW YORK, March 10 (INS)—Uncle Sam thought he was sending one diplomat to England when he appointed Joseph P. Kennedy ambassador to Great Britain. But I saw six Kennedy diplomats depart on the S. S. Washington. I know, because I interviewed them about foreign affairs.

I was in the midst of a vast sailing crowd—in the midst of sailing confusion, with newsreels grinding and camera bulbs flashing but this time I was not the center of interest. The tables were turned. For the first time it was I who was asking questions of reporters.

"Has Mrs. Kennedy come aboard? Has anyone seen Kathleen, Patricia, Bobby, Jean or Ted Kennedy?" I asked the oldtimers.

You see, I am a news reporter on the staff of the New York Journal and American for this week and I did not care to be "scooped."

BOBBY LIKES ENGLAND

I found Bobby first. Bobby is 12. He was about to take off in a parachute with his pal, Francis Degnan, who had come to wish him bon voyage.

"How do you think you will like England?" I asked, notebook in hand.

"Well," said Bobby, "I've been so excited about it, I couldn't sleep last night. I know I'm going to like it. England is a great country. In fact, I would like to take my friend along. Do you know how I can raise $300 for his passage?"

Jean is 10. She announced:

"I am looking forward to playing with Princess Elizabeth. I know she will be lovely."

Kathleen was in her cabin entertaining friends. She is an 18-year-old diplomat, who has visited England before.

"What are the things you like about England and what are the things you dislike?" I asked.

READY FOR ROYALTY

Her brother, Joe, who came from Harvard to see her off, laughingly cautioned:

"You don't want to say you dislike anything about England," but the pretty Boston debutante didn't require a word of warning.

"I really didn't find a thing I didn't like," she said. "I loved living there. I'm looking forward to being presented at court. That will be thrilling!"

"Was it true that the king had asked to see all the Kennedys?" I wanted to know.

"Oh, yes," teased Joe, who is the very image of his famous dad. "I'll bet he wants to see Kathleen."

"No," laughed Kathleen, "I'll bet the queen wants to see Joe."

TYPICALLY AMERICAN

We were sitting on a couch, Kathleen and Joe and Bobby and I, and I could not help thinking what a typical American family they were. A typical American family plus, because most American families do not include nine children. Anyone would feel proud of them as representatives.

Mr. Kennedy was in the motion picture industry for a short period and left a blaze of glory and good will behind him. And what is Hollywood's loss is Washington's gain.

Ted is the youngest "diplomat"—six years old, freckle-faced and shy. Bobby told him:

"Do not tell her how we battle. Remember, you are an ambassador's son."

It was Ted who held up the newsreel pictures. He rushed off on urgent business.

"Where were you?" they asked.

The freckle-faced diplomat smiled but did not answer.

MRS. KENNEDY DELIGHTED

And so they posed together, proud Mrs. Kennedy and part of her brood while fellow passengers marvelled at her chic and youthfulness and her large, handsome family. She looked not much older than her daughters.

"We're all honored and delighted and thrilled about going to England," she told me.

Did she think that the problems of rearing a family would interfere with her important duties as "first lady" of the diplomatic circle?

"I'll know more about that in six months," she said. "I think things will adjust themselves. We'll be just natural, as we've always been."

There is really more to this story, only I've lost some of my notes. They were asking for autographs and I used by reporter's notebook. I know my city editor will never approve of that.

Townsend's Plea In High Court

WASHINGTON, March 10 (AP)—Dr. Francis E. Townsend, old age pension advocate, appealed to the Supreme Court today in an effort to escape a 30-day jail sentence imposed for contempt of a special House of Representatives committee investigating his plan to pay elderly persons $200 a month pensions. The United States district court, which tried him on the contempt charge, ordered him to pay a $100 fine and serve the jail term. The United States court of appeals for the District of Columbia affirmed his conviction.

Gov. Quinn in Clash With Socialite on Tax

PROVIDENCE, March 10—Governor Robert E. Quinn today revealed at a press conference that Maude E. Weaver, prominent Newport society woman, had written him that Rhode Island "already has the name of being one of the worst states in the country."

The governor explained that her letter was in protest to his proposed income tax bill, introduced in the General Assembly today.

"If people like Maude Weaver want to move out to avaid income taxes," the governor replied to a reporter's question, "the state should say good riddance."

Informed of Governor Quinn's statement, Miss Weaver told the Boston Evening American, laughingly:

"Move out? Why, we've lived heer all our life. My forefathers settled in Rhode Island way back in 1700. And I don't intend to move out now."

REVEALS LETTERS

She added that she may have something more to say later.

Governor Quinn revealed the contents of letters exchanged between Miss Weaver and himself. Her letter follows:

"I am absolutely opposed to any increase in expenditures or taxes for the state. I believe it already has the name of being one of the worst states in the country. Why make it the worst?"

"The gavel rule that is being used is most dishonest and illegal."

Governor Quinn's reply stated:

"I believe in strict economy and will not advocate the imposing of any tax which is not absolutely necessary."

"BEST IN CONTRY"

"I was astounded to have you express the opinion that Rhode Island is one of the worst states in the country. In my opinion it is the best in the country and I intend to do everything to keep it so."

The governor's tax bill is aimed to raise $3,000,000 additional revenue from a two to a five per cent personal income tax.

It would exempt persons up to $2500 and married persons up to $4000, allow $400 for dependents, and tax net incomes up to $10,000 two per cent. The next $5000 would be taxed three per cent, the next $5000 four per cent and net incomes of more than $20,000 would be taxed the maximum rate of 25 per cent.

Shoe Samples' Thief Gets Wrong Cases

When Harold Hoffman, a shoe salesman, LEFT his car parked in front of his home on Campbell avenue, Revere, last night, he LEFT three cases of sample shoes in the machine.

When he came out today the three cases were gone.

Shortly after Hoffman reported the theft to Revere police, however, Lieutenant Thomas O'Hara and Inspector Larry Duggan, in a cruising car, found the three cases LEFT on the sidewalk on Maiden street.

"I kind of thought maybe they'd be found," said Hoffman. "You see, they contain 130 men's and women's shoes, all for the LEFT foot. That thief, whoever he was, certainly got LEFT."

Set $10,000 Bail In $2218 Holdup

Three men were held in $10,000 each for the grand jury in municipal court today in connection with the recent $2218 Essex street, downtown, holdup.

According to police, they were arrested on information furnished by two girl night club entertainers, Jean Bizal and Annette Schriber, both of Union Park street, South End.

The three men were Morris Goubert, 28, of Frederick terrace, Dorchester; Angelo Riccordi, 24, of Sheaf street, North End, and Sidney Jacobs, 30, of Balfour street, Dorchester. They waived reading of the complaint before Judge Joseph L. Riley.

Riccordi was charged with armed robbery and conspiracy to rob with Goubert and Jacobs.

The Dorchester pair were charged with being accessories before the fact of robbery and conspiracy to rob.

Sergeant Donald Fitzpatrick, who with Sergeants John Harndon and Harvey Yates, captured the trio, testified that Riccordi was one of the two holdup men. He said the other two were connected with the robbery an dthat part of the holdup money was found in Goubert's home.

Present in court were the two girl witnesses and Jack Avidon, one of the payroll messenger victims, also a waitress. Police said the two girls had been detained over night as material witnesses to protect them from intimidation.

Kane Holds Off Signing City Payroll

Threat Is Carried Out as Council Fails to Pass His Budget

Carrying out his threat, Mayor William E. Kane of Woburn refused today to sign payrolls for 107 city employes in various branches, but the workers took the payless payday calmly.

he mayor had threatened to refuse his signature to payrolls if the city council failed to pass his recommended budget of slightly more than $1,000,000, a reduction of $109,000 over a year ago.

The council refused when the mayor failed to submit to them 15 copies of a break-down sheet, showing the items in the proposed budget. They claimed the $1,000,000 sum would not meet 1938 expenses.

Mayor Kane proffered one copy of the break-down sheet, showing the itemized list but the councillors demanded one copy for each member for study.

Although he refused to sign the payroll for 107 employes, he did sign payrolls for Public Works Department employes and WPA administrators, as well as voucher fasr cash payments due welfare recipients.

Next week, however, the semi-monthly pay of school teachers comes due and tey wehre faced today with the prospect of joining the payless workers.

Cheops' Old Quarry Dug Up in Egypt

Find Pharaoh's Name On Granite Slab Near River Nile

CAIRO, Egypt, March 10 (AP)—Diorite quarries worked when the Pharaoh Cheops made Egyptian multitudes build the Great Pyramid, between 5000 and 6000 years ago, have been found.

The Egyptian Antiquities Department announced today that the workings, about a quarter of a mile long, were discovered last month under sands that had buried them since 1700 B. C.

They were found in an unsurveyed part of the desert near the Sudan frontier by an expedition led by two Britons, G. W. Murray and R. Englebach.

A black granite "stela," or stone slab, was found at the scene with a cartouche of Cheops—an insignia containing his name—and the name of the locality, "Hunting Ground of Cheops." A heavy copper chisel also was discovered.

Diorite is a hard, pale blue stone which early Pharoahs used for heavy statues.

Despite the quarries' distance from the Nile, the explorers found no trace of a well, although they uncovered the remains of many workmen's huts.

An ancient 60-mile road, marked by large cairns and hundreds of centuries-old hoofmarks, led to the river.

Authorities said the quarry work must have cost thousands of lives. They deduced that the Cheops cartouche meant he held sway over Lower Nubia.

Cheops, the pyramid builder, drafted all Egyptian labor and even sacrificed the honor of his daughter for the building of his great monument.

Egyptian laborers worked in relays of 100,000 for three months each on it.

Plebescite Seen As Daring Stroke

Indicates Bold Defiance of Hitler by Schuschnigg, Knickerbocker Says

By H. R. KNICKERBOCKER
International News Service Staff Correspondent
Copyright, 1938

PARIS, March 10—The smallest dictator of Europe has challenged the biggest.

Chancellor Schuschnigg, master of tiny Austria, has thrown down the glove to Chancellor Hitler, leader of the most powerful state on the Continent.

For the first time in the history of dictatorships, one dictator is using that despised political instrument, the ballot, the vote, the voice of the people, to defy another dictator.

This makes Schuschnigg's proclamation of a plebiscite for the Austrian people Sunday the most significant victory for the democratic principles since the dictators rose to condemn it.

England and France are openly jubilant. Rome is secretly delighted. Austria is flaming with excitement and all Europe except Berlin applauds the audacious summons of the Austrian chancellor, calling his people to declare at the polls whether they prefer to remain independent or unite with the Nazi German Reich.

"INDEPENDENT" STATUS

For that is the real sense of the plebiscite, despite its clever wording.

The question put to the Austrian people is:

"Are you in favor of a free and German, independent and social, Christian and united Austria, for peace and work and equal rights for all those pledged to the people of the fatherland?"

To this question every Austrian except the Nazis could answer "yes." But the significant word therein is "independent."

Nobody wishing anschluss—meaning amalgamation with Germany—could vote "yes." All Catholics could do so on account of the word "Christian." All workers, even Socialists, could do so because of the words "equal rights."

Upon this calculation Schuschnigg bases his expectation of victory, reckoning upon a not less than 60, possibly 70 per cent affirmative vote.

SEE DUCE'S HAND

Schuschnigg's decision fell like a thunderbolt among the Nazis in both Germany and Austria.

Some profess to see a fine Italian hand behind this apparently masterly move. It is not true that Mussolini actively approved the Berchtesgaden "agreement." On the contrary, he was compelled to suffer it in painful silence.

Yet no one who knows the superior mind and will of Mussolini could believe he would do nothing about it. Thus some observers were led to surmise he helped Schuschnigg devise the present plan, which is as simple as daylight, yet astonished Europe.

On the other hand, there is not an iota of positive evidence to support this surmise, which, were it true, would be the most important aspect of the Austrian plebiscite, because it would put the famous Rome-Berlin axis in a new perspective.

The most reliable sources say Austrian Interior Minister Arthur Seyss-Inquart, Hitler's man-Friday in the Vienna government, knew nothing about the Schuschnigg torpedo until the chancellor at a Cabinet meeting laid the plebiscite plan on the table as an accomplished fact.

This will be the first time since 1932, when the late Chancellor Engelbert Dollfuss established his dictatorship, that the Austrian people have had a chance to express themselves on any question.

Dollfuss, on the advice of Mussolini, suppressed the Socialists. A short while later he himself fell, murdered by Nazis.

The country ever since has lived on the verge of civil war and until now nobody dared envisage the possibility of an election of any kind.

Schuschnigg has ruled by force. It is popularly believed the country was divided into 40 per cent Nazis, 40 per cent Socialists and 20 per cent pro-government.

The Berchtesgaden meeting of Schuschnigg and Hitler, however, changed everything. The Nazi threat was so terrifying that Schuschnigg's first move after meeting Hitler was to make friends with the Socialists.

He has now staked his last card on the most dramatic move Europe has seen in a long time. If he wins, as seems most probable, he will, however, have gained only a breathing space, perhaps of a few months.

In the long run nothing can check the overpowering pressure of Nazi Germany for "anschlus" except intervention of a third power.

Impudent Attempt, Say Nazis

BERLIN, March 10 (AP)—Nazi leaders today characterized Chancellor Kurt Schuschnigg's call for an Austrian plebiscite as an "impudent" attempt at an anti-Nazi coup d'etat.

A source close to the government said the Austrian vote would be a plebiscite "without ballots, where everybody could cast as many votes as they have identification papers or friends in the Fatherland front."

"It is all the more a joke, because the voting will be public," Nazis said.

Red Army Chief Raid Victim

LONDON, March 10 (INS)—Marshal Vasily Bluecher, commander-in-chief of the Far Eastern Red army and Russia's most famous general, was the object of an unexpected raid by Soviet secret police, the London Daily Express said today in a dispatch from Warsaw.

The Ogpu, without notice, marched into Bluecher's headquarters at Chabarovsk, last week, the newspaper said. His offices were searched and all of his papers and documents examined. But he was not molested personally.

The raid on Bluecher's headquarters, the Express said, has caused speculation as to whether the marshal may be arrested next and become a victim of a future blood "purge."

At yesterday's council meeting the matter of the alleged assault on Dr. Williams was postponed for further consideration until Kelly returns to Boston from Florida.

Britons Shake Fists Under Nazi's Nose

Von Ribbentrop Stirs Anger in London Peace Parley

LONDON, March 10 (AP)—Unfriendly demonstrations today greeted Joachim von Ribbentrop, Germany's foreign minister, both before and after a conference in which he and Britain's foreign secretary canvassed the whole field of Anglo-German relations.

A crowd of 500 demonstrators tried to break strong police cordons as Von Ribbentrop left the foreign office after more than two hours with Viscount Halifax, new director of British foreign policy.

Cries of "Get out, Ribbentrop!" and "Release Niemoeller and Thaelmann!" were shouted at the German diplomat—referring to the Rev. Martin Niemoeller, held in a German concentration camp, and Ernest Thaelmann, German Communist leader, held without trial since 1933.

GREETED WITH FISTS

Von Ribbentrop came to London yesterday, ostensibly to take formal leave of his old post as ambassador to Britain, but his visit had been expected to mark opening of Anglo-German conversations in search of European appeasement.

During his talk with Lord Halifax, the crowd outside swelled from the 30 who had greet von Ribbentrop on his arrival with clenched fist salutes (the Communist gesture) almost under his nose.

But the police acted swiftly. Forces were tripled at the Horse Guards Parade, in Downing street and in the foreign office courtyard. Mounted, foot and plainclothes police mingled with the crowds.

Austria's surprise plebiscite, set for Sunday, was believed mentioned during the talk, which, however, was understood to have centered on Germany's demand for colonies and British press treatment of German problems.

ROME PARLEY HALTS

Italian-British negotiations in Rome paralleling those with Germany and eventually to be expanded to include France in a four-power peace understanding, were halted today by a meeting of Italy's Fascist Grand Council.

The council gave attention to the conversations between Foreign Minister Count Ciano and the British ambassador, Lord Perth, however, and to the Austrian situation, in which Italy is vitally interested.

Fear Red Clash At Fore River

Fearing possible trouble, police today watched the distribution of anti-Communistic literature to 4200 men as they reported for work at the Fore River shipyards in Quincy.

The management of the plant, apparently aware of the distribution by a group of young men, notified authorities yesterday that they expected trouble from Communist sympathizers, police revealed.

The distributed pamphlets contained a reprint of an article which appeared in a national magazine in December, 1936, and exposed Communistic activities in this country.

According to employes, the articles were aimed at certain union activities in the plant.

The men distributing the articles said they did not know "who is behind it," adding that they were paid $1 for their work.

Talk of Civil War Spreads as Nazis Battle "Freedomists"

after receipt of instructions from Keppler, who is acting under Hitler's direct orders.

The Fuehrer chose Keppler for the visit to Vienna, as he has him in mind for new German ambassador to Austria, succeeding Franz von Papen. In this connection, it was learned here Hitler plans to name another member of the state secretariat, Hans-Georg von Mackensen, as ambassador to Rome.

Nazis, angered by Schuschnigg's sudden call for a vote on his policy of Austrian independence, clashed in both Graz and Vienna with members of the Fatherland Front, the chancellor's party, throughout the day.

TALK OF CIVIL WAR

In Graz, capital of Styria and hotbed of Austrian's Nazis, the dread words "civil war" passed menacingly from mouth to mouth when grim-faced Nazis and Fatherland Front members toured the city in trucks armed with clubs, poles and other weapons.

Seventeen were injured in Graz street clashes; 12 more were hurt thre by clubs of police breaking up demonstrations. Vienna counted at least 11 hurt.

At dusk 5000 shouting, excited men and women thronged Vienna's main arteries, almost stopping traffic. Reinforced police squads were unable to cope with the crowds. Truckload after truckload of police were rushed to the scene.

In Linz, Nazis hoisted a huge swastika flag to the top of the city hall.

NAZIS MAP DRIVE

Nazis in Graz held a mass meetin gbefore the city hall, yelling "Get rid of Schpschnigg! Heil Hitler!" until police dispersed them.

Troops moved through the streets of Graz. Three companies were seen entering Vienna, although the purpose of their coming could not be learned.

Graz Nazi leaders said they were only awaiting orders before starting a campaign such as Austria had never known.

In Vienna, the cries of "Heil Schuschnigg!" and "Heil Hitler!" swelled throughout the day above the usual roar of traffic.

Millions of leaflets were distributed today throughout Austria by a fleet of government airplanes, calling upon all eligible voters to vote for Austrian independence.

"This is the Austrian prayer," the leaflets read: "Oh, Lord, permit us to live as free men in a free country."

Official estimates stated 4,250,000 persons will be eligible to cast their ballots in the plebiscite Saturday and Sunday. Of these, 2,200,000 are women.

The government issued an order prohibiting sale of liquor from Saturday noon until Monday morning. All propagandizing will be barred over a radius of 150 feet around polling stations to prevent disorders.

In street fights in Vienna, 11 men were injured and 23 were arrested or detained as Nazis and the Fatherland Front campaigned.

The entire police force was called out on an emergency basis that will continue through Sunday.

HITLER BACKER BEATEN

The two main army garrisons at Vienna were held in readiness with motors of troop lorries constantly running.

Old, sedate, friendly, easy-going Vienna had become a tense, worried, shouting, demonstrating city, whose population was gripped by a tension almost unknown here since the World War.

Blood flowed in Kaerntnerstrasse, the main shopping street, for the first time since Nazis and Fatherland Front began struggling for the upper hand when Front members set upon an ardent Nazi who answered a shout of "Heil Schuschnigg!" with "Heil Hitler!".

The Nazi was pummeled into unconsciousness before police intervened.

Police for the most part confined their efforts to keeping the two factions apart and curbing too demonstrative "Heil Hitler!" cries.

Trucks cruised about the city carrying loudspeakers blaring plebiscite slogans like "With Schuschnigg for a free German Austria!" or "Are you for Austrian independence? Yes or no? Yes! Yes! Yes!"

PLANS HELD SECRET

Informed persons said plans for announcing the referendum were worked out in the greatest secrecy by the chancellor, Burgomaster Richard Schmitz of Vienna and Guido Zernatto, Secretary of State.

The announcement was a bombshell to many foreign diplomats. Franz von Papen, the German ambassador, had advance word of it while vacationing at Kitzbuehl and hurriedly returned to Vienna to try to dissuade Schuschnigg.

Nazi envoys were dispatched to Berlin for instructions. Diplomats wondered whether some foreign power had given Schuschnigg assurances of support and possible help. France was named in such conjectures.

BERLIN, March 10 (AP)—A dispatch from Vienna to Field Marshal Hermann Wilhelm Goering's newspaper, the Essener National Zeitung, reported today that Joseph Leopold, Austrian Nazi leader, had been made a member of Reichsfuehrer Hitler's personal staff.

"The Fuehrer desires Capt. Leopold, as one of the most faithful and best experts on Austrian questions, to be in his immediate vicinity during the ensuing month, when events of historic importance will transpire," the dispatch said.

(Leopold was reported Jan. 27 to be under Austrian surveillance at his home in Krems. He was arrested in Vienna, and released under that condition two weeks before Austrian Chancellor Schuschnigg and Hitler met at Berchtesgaden.)

Blum Again in Saddle In New French Crisis

Continued from First Page

lows, Chautemps and his "Popular Front" coalition resigned this morning, when the Socialists refused to vote him emergency financial powers.

Blum, who headed the first leftist concentration government that France ever had, immediately went about the difficult work of linking up his ministers.

"President LeBrun asked me to form a cabinet," said Blum as he emerged from the Elysee Palace after a day of feverish conferences.

"I am resolved to carry through to the very end the task confided to me.

"I shall strive to constitute a government which the circumstances necessitate—which will be a stable, durable, powerful government, capable of rallying all the forces of democracy."

First he summoned Jules Joanneney, president of the left democratic group and a former minister.

Edouard Herriot, head of the strong Radical Socialist party, who had first been considered for the premiership today, then talked with Blum. They were followed by Chautemps and Edouard Daladier, also a former premier, who is now charged with the task of coordinating French defense.

COMMUNISTS BARRED

Like the Chautemps cabinet, it was regarded as a practical certainty that the Blum government would contain no Communists.

After delivering a "swan song" statement before the Chamber of Deputies, Chautemps and his colleagues went to the Elysee Palace and handed their resignations to President Albert Lebrun.

Even before Chautemps left the chamber, the franc slid to a new low of 31.84 to the dollar.

There was every indication the entire governmental complexion of the nation may be chaged as a result of Chautemps' resignation.

The manner in which Chautemps carried out his resignation astonished the Chamber.

He made a speech which appeared to be a final plea for support of his demands for virtually dictatorial powers to carry out the nation's rearmament program and deal with the financial crisis. Members thought Chautemps was asking for a vote of confidence.

But when he finished speaking, he gestured to his ministers sitting on the government bench. They followed him out of the Chamber and proceeded immediately to the Elysee Palace.

Despite the fact that the franc was slipping quickly even as he spoke, Chautemps warmly defended the nation's financial position. Chautemps said the French treasury was not in urgent need. He declared:

"If I go, my successor will find several billions in the Bank of France.

"Does anyone doubt the national defense loan will be anything but a great success?"

This was a reference to the special $750,000,000 rearmament budget for the coming year.

"It is false," Chautemps continued, "and I will not permit it to be said that this government, if it goes, has been forced to go as a result of recent events . . . The government was able easily to withstand the pressure of the exchange.

"The problem before the government is not new.

"It cannot continue to borrow thirty-eight to forty billion francs a year."

Soviet 'Traitors' May Hear Doom Tomorrow

Trial Is Delayed by the Prosecutor; 21 Due For Shot in Back

MOSCOW, March 10 (AP)—The court recessed today while Prosecutor Andrei Y. Vichinsky write his speech summing up conspiracy and murder charges against 21 defendants in Moscow's greatest treason trial, as a basis for a demand for their deaths by shooting.

He expected to be ready with his outline by Friday noon.

For material, Vishinsky had all the elements of a dozen dime-novel thrillers—alleged medical murders of a famous author and eminent politicians for love and political advancement, the plotting of a palace revolution, strange poisons, and international spy intrigues involving confessed agents for Great Britain, Poland, Germany and Japan.

"SHOT IN THE BACK"

Vishinsky's demand for **"The highest form of social punishment"**—a shot in the back of the head—was expected to last an entire day.

Then would be handed to the court the fate of the defendants, many of them once the chief figures in Soviet Russia, now all charged with being enemies of Joseph Stalin, secretary of the central committee of the Communist party and key figure of the government.

Evidence was concluded yesterday at a closed session at which, a communique indicated, a sex motive was injected into the trial.

DEATH BY HIS ORDER

The communique said Genrikh Yagoda, formerly head of the NKVD (secret police), admitted ordering homicidal medical treatment for Maxim Pechkoff, son of Maxim Gorky, the writer, for "personal aims."

Although the announcement did not refer to Yagoda's love interest in Pechkoff's actress wife, it was interpreted as referring to that.

Yagoda the man who wanted to be a "Russian Hitler," previously had admitted "full guilt" in ordering medical treatment deliberately designed to cause the deaths of three other men, Gorky, V. V. Kuibisheff, former chief of the five-year plan, and Yvacheslaff Menzhinsky, Yagoda's predecessor as police head.

Stalin Gets Truth In Secret Tribunal

Yagoda Testifies on Assassination of Kiroff in Moscow Sensation

By ISAAC DON LEVINE
AUTHOR OF "STALIN"
Special to the Boston Evening American

NEW YORK, March 10—Stalin's decision **to hold a secret** session of the Moscow Tribunal, **for the purpose of hearing** Yagoda's testimony as to the assassination **of Kiroff, is by all** odds the overshadowing sensation **from the Soviet capital.**

After naming and involving in open hearings nearly all the major powers of Europe, after holding a series of public trials of eminent Bolsheviks on charges of having plotted the assassination of Kiroff, after executing at least 2000 men and women, all Communists, for the murder of Kiroff in the last 39 months, Stalin orders a secret session to take Yagoda's depositions in the Kiroff case!

Kiroff was shot by Nikolaiev on December 1, 1934. That night Stalin and Yagoda, his would-be enemy, rushed together by special train to the scene of the crime, Leningrad.

If Yagoda had all along plotted the death of his master, Stalin, if the Kiroff assassination was a step in that direction on the part of Yagoda, what an opportunity he missed when he was with Stalin on that historic ride.

CONTRADICT SELVES

The official Soviet "evidence" on the Kiroff affair now runs into tens of thousands of printed pages, in which one volume gives the lie to the other, in which one set of "confessed" assassins utterly refutes the next set of victims. The Kiroff case has been the symbol for the block on which Stalin chops off the heads of his political opponents.

And now the world is treated to a secret session WHERE THE TRUTH WILL BE TOLD about the Kiroff murder! The open sessions of the Moscow trials are reserved for frame-up charges and confessions only. The facts are aired behind closed doors.

Yet the facts which Yagoda asked to present in secrecy are no longer a closed book to us. Just as a band of perjurers and counterfeiters will talk themselves into disclosing the truth against their wishes, so the mountain of "evidence" which Stalin and his henchmen have put into the mouths of their Kiroff witnesses in the past three years leads to the truth, which sums up as follows:

CONCOCTED PLOT

Yagoda concocted the "plot" to assassinate Kiroff as a plant against a group of dissident Communists. Yagoda did this in his line of duty to Stalin. It was a routine job, such as the Ogpu practices whenever it is out to frame designated people. Yagoda's plan was not to kill Kiroff, but in the nick of time to "save" him from his assassins by uncovering the "conspiracy" and getting credit for Stalinist vigilance.

Exactly the same thing happened that transpired in Kiev in 1911 when in the presence of the Czar, at the Grand Opera House, Prime Minister Stolypin was assassinated by an agent of the Okhrana, Bogrov, a former revolutionist, put there by the chief of the Okhrana to protect the Czar and his entourage.

The chief of the Ogpu, Yagoda, also miscalculated. He entrusted the manufacture of the plot to a man who drew into it an Ogpu agent, Nikolaiev. It finished hundreds of commissars, it is finishing Yagoda, and it may still prove the finish of Stalin, just as the shot which killed Rasputin proved the finish of the Czar.

RACE TO DEATH

Will Yagoda tell his judges in the secret session that he had carried knowledge and approval of Stalin himself? Will he implicate Stalin in the Kiroff assassination? The chances are that they know all the facts, and their knowledge marks them as the next victims of Stalin's vengeance. But can he root out all those who know the truth?

It is a race between Stalin and the ghost of Kiroff, and the secret session is but a breathing spell in Stalin's death march.

Seattle Vote Puts End to Terrorism

Law and Order Candidates Hailed After Victory at Polls

Special to the Boston Evening American

SEATTLE, Wash., March 10—Seattle today hailed the completion of its "revolution against revolution." From newsboy to banker, the city acclaimed its law and order candidates who swept on from triumphs at the primaries two weeks ago to a smashing victory Tuesday.

Typical of general comment was that of Josiah Collins, former state senator and civic leader. Collins said:

"This election marks the end of a reign of labor terrorism that has disgraced this city for the past few years and brought it harmful notoriety throughout the nation.

"It means that the people are returning to the enjoyment of law and order and a sane administration of their city.

"Both busines and labor will now be protected in the enjoyment of their lawful rights. The people roused themselves and put an end to labor terrorism and Seattle is now a safe city in which to do business."

LANGLIE IS VICTOR

Leading the law and order administration into the city hall is Mayor-Elect Arthur B. Langlie, who defeated Victor A. Meyers, lieutenant-governer of Washington, by more than 30,000 votes in the election Tuesday.

Langlie ran without commitments and entanglements, but with the active support of many substantial citizens.

Meyers was the candidate of both the Committee for Industrial Organization and the radical Washington Commonwealth Federation.

Running mates with Meyers in the election under the banner of the Washington Commonwealth Federation were James T. Sullivan and Michael B. Smith, candidates for the council. They ran fifth and sixtr in a field of six candidates.

DORE BEATEN

Langlie's defeat of Meyers completed a task undertaken by the citizens of Seattle at the primary election when Mayor John F. Dore, American Federation of Labor candidate, was also on the ballot.

The voters disposed of Dore in short order. He ran a poor third in an election that broke all records for number of votes cast despite the active support of Dave Beck, all-powerful head of the Teamsters' Union in the northwest.

were workers at the polls, but the kere workers at the polls, but the citizens of Seattle voter for Langlie.

The campaign that followed was an anti-climax. Seattle marked time for the required two weeks before it could deal with Meyers.

Meyers confessed he had no hope of election in the face of the unprecedented rise of the voters against conditions that have put Seattle on the front pages of the nation's press for the past few years.

At the Rainer Club and other places where business men and executives gather for luncheon, there was more confidence and enthusiasm today than there had been for years.

PROGRESS IS SEEN

Everywhere, in clubs, cafes, restaurants and corner cigar stands, business men and union card carriers felt that Seattle had broken the barrier—and that progress was straight ahead. The tension of fear from intimidation and violence had been broken.

Citizens, rich and poor, proud and humble, know that they broke the last barrier—that all of them, for months and even for years, had been thinking the same thing but that this is the first time they have gone to the polls and collectively put the same thoughts into action.

No thoughtful citizen, of the many interviewed, believes that the election of Langlie as mayor solves all the problems of Seattle.

The important thing is, according to the consensus of opinion, that Seattle is thinking as a unit—that it is headed in the right direction and that the vote is the voice of the great majority.

SEEK END OF TERRORISM

That voice—expressed at the polls—means that the great majority of Seattle citizens—wants law enforcement, and an end brought to terrorism and "pressure."

One of the defeats, given little credence in the national analysis of the situation, is that of John C. Stevenson for port commissioner.

There are many citizens here who contend that Prosecutor B. Gray Warner never would have been prosecutor had it not been for Stevenson's influence and support.

Mayor-elect Langlie says he will enforce the law.

TO SUPPORT LANGLIE

A spokesman for the city council says its members will support Mayor-Elect Langlie in enforcing that law.

The chief of police of this city, appointed for five year term, only can be removed from office by a two-third vote of the council

If the mayor-elect insists upon law enforcement, and if the council says it will back up the mayor's efforts, that means that the chief of police must do the same thing or face ouster by the council.

Also it means local interpretators say, that the prosecutor, reading the election returns as an ultimatum of the people, and seeing his close supporter, John Stevenson, go down to defeat as port commissioner, will be more sympathetic toward following through arrests to conviction of beef squads and trouble makers

Seattle has had a field day.

It has told the world, and it has told law enforcement agencies—that it wants the law enforced, and enforced honestly and without favor

ARTHUR B. LANGLIE
Will Make Seattle Safe

Citizens Hail Civic Victory In Seattle

Special to the Boston Evening American

SEATTLE, Wash., March 10—Comment by civic leaders and others on Tuesday's election, in which the law and order candidates won a smashing victory, was made as follows:

Raymond R. Frazier, banker and civic leader:

"Tuesday's election in Seattle simply means that Seattle citizens have again donned their thinking caps. What has happened here happens sooner or later in every American city grown tired of aimlessness in city government. Seattle, big for her age, logical experimental ground for isms and demagogues, has proven she has plenty of character and courage left."

END OF TERRORISM

Josiah Collings, former state senator and retired Seattle businessman:

"This election marks the end of a reign of labor terrorism that has disgraced this city for the past few years and brought it harmful notoriety throughout the nation. It means that the people are returning to the enjoyment of law and order, and a sane administration of their city.

"Both business and labor will now be protected in the enjoyment of their lawful rights. The people roused themselves and put an end to labor terrorism, and Seattle is now a safe city in which to do business."

Hans Ever, Seattle newsboy who sent Mayor-elect Langlie a big bouquet of roses with the following card:

"Congratulations on your overwhelming victory for good, clean, honest government."

Mrs. Neil Haig, president of the State Parent Teacher Association:

"I am happy at the outcome. The citizens wanted more action and less talking. A civic housecleaning long has been needed."

Capture Malden Youth in Chase

Anthony Mikulsky, 25, of Webster place, Malden, freed as a victim of mistaken identity after his conviction in a holdup trial three months ago, was arrested by Malden police today charged with breaking into a gas station.

His capture followed a chase over fences and through factory yards. He allegedly gained entrance into the Eastern avenue, Malden, filling station of William H. Brown, his next door neighbor, by breaking a window. Police charge he had smashed a cigarette machine before they arrived.

Judge Hears Curley's Plea To Reopen Case Today

Counsel for former Governor Curley and Dr. Joseph Santosuosso today prepared further testimony in their battle to reopen the case in which the pair were ordered by Judge Frederick W. Fosdick to repay the city of Boston a total of $55,000.

Arguments in the reopening motion were begun before Judge Fosdick yesterday in Superior Court and were scheduled to be resumed this afternoon at 3 o'clock.

Curley and Santosuosso were ordered to return to the city about $35,000 and $25,000 respectively, allegedly received by them in the settling of the suit brought by the General Equipment Company.

Six witnesses were sworn in yesterday and Attorneys Wendell P. Murray, for Curley, and Frank L. Simpson, for Santosuosso, declared they will present evidence warranting the re-opening of the case.

Judge Fosdick had first announced the hearings would be held until 10 or 11 at night, but after protests by defense counsel agreed to hold the sessions from 3 in the afternoon until 5:30 or 6 in the evening.

Capone Put Back On Jail Routine

SAN FRANCISCO, March 10 (AP)—The San Francisco Examiner said today Al Capone, one-time Chicago gang chief, who a month ago was placed in Alcatraz Prison hospital because he was "mentally ill," has been returned to the prison yard. Curb Water Flow In 2 Buildings

City authorities today planned to curb the water supply in at least two large downtown office buildings in the drive to collect back water bills.

At the same time, money continued to pour in from the many residential districts, with collections of $102,090 so far this month. Officials said cutting water to a mere trickle had worked so well in outlying districts that it has been decided to treat owners of large buildings in the same manner.

Franco Gets Helm In Rebels' Cabinet

Provisional Government Guarantees Stability of Nationalist Spain

Marquise Nena Belmonte, member of Spain's noblest houses and former resident of New York city, is writing behind-the-scenes descriptions of the Spanish civil war for International News Service. In today's dispatch she relates how the Nationalists have already set up a provisional government, composed of men assigned to work for stability in Spain.

By MARQUISE NENA BELMONTE

(Copyright, 1938, by International News Service)

BURGOS, March 10—The Nationalists have set up a provisional government as a guarantee of stability in Nationalist Spain.

The cabinet, picked to rule with Generalissimo Franco, has been chosen from the united Falange Espanola De Las J. O. N. S. and the Communion Tradicionalista, the two outstanding national Spanish political parties whose merger in April, 1937, gathered the leaders of Nationalist Spain under a single banner.

This single party is known as the Falange Espanola Tradicionalista y De Las J. O. N. S.

General Franco, president of the cabinet, also holds the supreme command of all armed forces on land, sea and air because of his knowledge of military matters and success at the battle-fronts.

The vice-president of the cabinet and minister of state, General Jordana, is not new to Nationalist Spain, since, as president of the Junta Tecnica, he has commanded considerable attention during the year and a half of the civil war.

ONE MEMBER NEW

A member of the Cabinet, practically new to the political life of the country, is Don Ramon Serrano Suner, minister of the interior, and a brother-in-law of General Franco.

He is young and aggressive. His acts and decisions will undoubtedly affect in a large way the trend of the interior politics of Spain.

General Martinez Anido, minister of the public order, is well-known because of his record as vice-president of General Primo De Rivera's dictatorship. His job is to preserve absolute order and peace behind the lines in the new Spain. His is a personality, most feared by enemies of the Nationalist cause and most beloved by all his supporters.

The minister of national defence gathers in all of the armed forces of the nation—army navy and air. It is General Fidel Davila, who holds this post, for which he is fitted by his former record as a soldier, and his successful leadership in the conquest of the north during the war.

FAITH IN CUESTA

Raimundo Fernandez Cuesta, minister of agriculture, is one of the new men to emerge from this war. Spaniards have a great deal of faith and confidence in him. Young, one of the original supporters and members under the Republican regime, one of the Falange Espanola De Las J.O.N.S., Cuesta was a prisoner of Valencia's government until only a few months ago.

He was exchanged and ever since his arrival to Nationalist Spain, he has been most active in the political and social development of the new state.

Count De Rodezno, minister of justice, aristocratic, supporter of Spain's oldest traditions, is considered a representative of the pro-monarchists. Don Antonio Suances, minister of industry and commerce, is a naval engineer with a brilliant record.

Plans 2nd Bill To Fill Gap in Tax Revenue

Ways Group Chairman Asserts 34 to 45 Million Needed

WASHINGTON, March 10 (AP)—Chairman Doughton (D.) of North Carolina, of the House Ways and Means committee, suggested today that Congress might be asked to enact a second revenue bill to make up the estimated $30,000,000 to $45,000,000 pared from the prospective yield of the tax revision measure by removal of a levy on closely held corporations.

He said that was his own idea and did not necessarily represent the views of his committee.

He added that he had not received from the Treasury any suggestions fo radditional revenue and had not asked for any, although he had discussed the revenue situation with Secretary Morgenthau this morning.

DRAFTS PROPOSALS

Earlier Morgenthau told reporters the Treasury was preparing alternate revenue-raising proposals for Doughton's guidance, should the latter desire them.

Doughton said if the House persisted in its refusal to approve a tax on closely held corporations the tax bill might be sent to the Senate, and another revenue measure brought in later.

"Personally," he said, "I feel we should have a little more time to consider additional revenue. It is not a wise or proper way to legislate by attempting to raise millions of dollars on the floor of the House."

FIRST BIG DEFEAT

The fight against the deleted clause was led by Rep. McCormack (D), Massachusetts. In explaining the House action McCormack said:

"The House rejected it because it considered the tax discriminatory, punitive and directed against small and medium-sized business."

The rejection of the clause was the first major defeat the administration has met during the present Congress. It was eliminated by a 180 to 124 vote in a startling rebellion of bi-partisan groups.

The action slashed the annual tax burden on corporations about $50,000,000 a year.

The tax was estimated to apply to 300 to 600 corporations. It levied a 20 per cent penalty on undistributed profits of these corporations in addition to the proposed 16-20 per cent normal tax.

The measure, as it stands, retains all the other penalty taxes.

Ickes Charges Power 'Plot'

WASHINGTON, March 10 (AP)—Secretary of the Interior Ickes made public a letter today in which he charged Wendell L. Willkie, president of Commonwealth Southern Corporation, with asking the Public Works Administration to "conspire" with him to hold up a $150,000,000 PWA-municipal power project in the Tennessee valley.

Ickes' letter, addressed to Mayor Watkins Overton, Memphis, was in reply to a telegram from the mayor asking whether PWA would recommend relay in construction of electric distribution systems.

The mayor noted that Willkie, in provisionally accepting an invitation from Director David E. Lilienthal to meet TVA officials in Chattanooga on March 15, said he would cooperate only if the PWA-municipal power program was brought to a "standstill" in the meantime.

Ickes assured Overton PWA would carry out its contract for $61,225,544 of loans and $38,412,408 of grants made on 61 projects in 23 states, unless the municipalities themselves wished to delay their projects.

Ickes said in the letter that Willkie had failed to defeat TVA developments, and was now asking the government to act in bad faith with the cities.

Senator Sees Peril in Bill

Wheeler Assails 'Reorganization'

Warns Nation of Rule By 'Clerks and Professors' Under New Deal's Plan

(Special to Boston Evening American)

WASHINGTON, March 10—Senator Burton K. Wheeler (D.) Montana, vigorously assailed the administration's government reorganization bill in a speech appearing in today's issue of the Congressional Record.

He scored the bill as one which usurps the power of Congress, assures no promise of added efficiency or greater economy in governmental operations and which aims to scrap the nation's 50-year-old civil service system.

He said:

"The bill purports to deal with the subject of reorganization of the executive branch of the government. That there is real need for reorganization of the executive branch is generally recognized by everyone interested in public affairs.

"I do not intend to discuss in detail the program of reorganization contemplated by the bill, because, with the exception of certain proposals to concentrate in the executive greater and broader powers, I do not find that there is before the Senate for consideration any real program of reorganization.

Declares Bill Fails to Promise Economy or Increased Efficiency

"I do not find, either, that through the enactment of the bill any saving in government spending or in the administrative cost of government is in prospect. It is significant also to note that those sponsoring the bill do not promise economy.

"I would not be disturbed, by the lack of assurance as to economy, if I could find in the bill the promise of a higher standard of efficiency. That seems also to be missing.

"In answer to resolutions adopted by the Senate, calling for the comptroller general to report on what could be saved by reorganization of the government purchasing and warehousing activities it was reported that something like $50,000,000 could be saved in that field, and $41,000,000 a year saved through reorganization of federal accounting and disbursing functions.

"Those reports were required to be made to the President, as well as to the Senate, and it would seem to me that the information they contained, being available to both the President and the Senate, could have been used to lay before the Senate definite proposals to curtail, abolish, or regroup activities in which the government is now engaged.

"Just why the Senate should be asked to relinquish its constitutional right of absolute control over the finances of the government by lessening the effectiveness of the general accounting office is not clear to me.

"Under the Constitution the power to create the functions and establishments of the government is vested exclusively in the Congress.

"I believe most emphatically that the provisions of the bill proposing to invest in the chief executive the authority and power to reorganize the agencies and functions of the government should be amended, as I have proposed, to make possible a proper discharge of the responsibility incumbent upon the Congress.

Regards Measure as a Reflection On Ability of Members in Congress

"If I had a say about it, I would appoint a joint committee of the Congress of the United States for the sole purpose of studying this question and of restoring to Congress its proper functions.

"If we concede that there is not sufficient ability in the Congress of the United States to initiate reorganization in the first place, then, I am willing to turn over to the President and say to him 'send your recommendations here.'

"And if he sends his recommendations here, so far as I am concerned, if they are within the bounds of reason, I will fight to eliminate unnecessary bureaus just as hard and just as earnestly as will any other senator upon the floor."

"Who is going to do that?

"It is going to be charged, of course, that those who do not go along with this program and turn over to the President of the United States the power to reorganize and shuffle governmental bureaus around, or abolish them, in any way he sees fit, are against the President.

"The President of the United States cannot possibly sit down and determine what should be done with these various departments, nor can he determine which ones should be abolished and which ones retained.

"It is a physical impossibility for him to do it. So who is going to do it? Some professor or some clerk in the department is going to do it.

"They are going to be the boys who will do the work, and they are going to say to my people in Montana, 'we are going to abolish the Bureau of Indian Affairs,' or 'we are going to abolish the Reclamation Bureau,' or 'we are going to put the Reclamation Bureau in some other department.'

"Although they have never set foot on an Indian reservation in their lives, and have never seen an Indian, except in a moving picture in New York city, they are going to sit down in some office in Washington, prepare reports and tell the people in Montana what they ought to have and what they ought not to have.

Measure Grants President Right To Abolish 99 Per Cent of Bureaus

"I now will take up the bill, analyze it and see where it leads to. It begins by providing—

" 'The President shall investigate the organization of the various agencies of the government and determine what changes are necessary to accomplish any of the following purposes:

" '(A)—To reduce expenditures to the fullest extent consistent with the efficient operation of the government.'

"Now while the bill contains four other provisions, if the President finds that any one of these objectives can so be attained, he can then abolish any single department of the government.

"He can abolish 99 per cent of the bureaus set up in the Department of Agriculture.

"If the bill were enacted into law, I take it the President could not abolish the Department of Agriculture, but he could abolish the forestry service. I may be mistaken, and if so, I should like to be corrected.

"My reason for stating there was nothing to lead me to believe there would be any economy were the statements which I understand the senator from South Carolina (Byrnes) has made on the floor of the Senate to the effect that no economies could be promised as a result of reorganization.

"There is a great deal of overlapping, and there are many duplications in the various departments. I was struck by that fact in the investigation of the Bureau of Indian Affairs, in the investigation into the attorney-general's department, and in the investigation of other departments at various times.

"What I want to impress upon the Senate is that, while I agree that consolidations should be effected and while I have introduced resolutions for the purpose of trying to bring about consolidations no proposals have ever been sent to the Congress of the United States to accomplish that purpose.

Deal 'Marxian' Policy Assailed by Dr. Pound

In a bitter attack upon the present administration in Washington Dr. Roscoe Pound, former dean at Harvard Law School, charged today that some persons were expounding the Marxian doctrines of a disappearance oflaw and the substitution of the rule of administrative order.

"There are some members of the present administration in Washington who have a persistent' and flagrant disregard of the Constitution and legal limitations," the former dean declared.

SPEAKS TO WOMEN

Dean Pound made his attack upon this administration during the course of an address before the Women's Republican Club of Massachusetts.

"We now have a condition of government such as never before, in which any member of the cabinet is free to express an opinoin opposite to that of another, or the chief.

"If the chief pleases one interest, a cabinet member's speech will please another and all interests can be held together by an efficacy of creating impressions," he said.

WANT TO GET AHEAD

"He said many able professors were approving and taking part in the new order because they felt they should be in step with the 'fashionable thinking of the times' and if they went a little ahead they considered it so much the better.

"He declared academic thinking since the war had become one of confusion, skepticism and bewilderment and was now off balance."

House TVA Funds Asked Despite Morgan Row

Single Boss Proposed For Project After Senate Debate

WASHINGTON, March 10 (INS)—Despite internal dissension in its directorate, the administration today decided Congress should vote the TVA funds to begin construction immediately on the huge $119,000,000 Gilbertsville, Ky., dam.

House leaders were asked to seek reconsideration of a $2,613,000 TVA appropriation to launch construction—a Senate-approved item in the $1,400,000,000 independent offices supply bill, which the lower chamber had previously rejected.

The decision immediately raised the prospect of a general airing of the TVA situation on the House floor, as opponents of the Gilbertsville project warned leaders they would have a "bitter fight" on their hands if the chamber is asked to reverse itself.

ITEM TO BE PUSHED

Nevertheless Chairman Woodrum, of the House Appropriations subcommittee on independent establishments, announced that when the conference report on the Senate bill is laid before the House today or tomorrow, he will move that the members approve the Gilbertsville item.

His announcement at once brought this warnng from another Democratic member of the subcommittee, Rep. Johnson of West Virginia:

"The House must not be put in the position of indicting itself by placing more funds in the hands of the TVA directors, who themselves are now engaged in charging each other with malfeasance.

"If such an attempt is made, the leaders will find they have a bitter fight on their hands."

A similar position was taken by Chairman May, of the House military affairs commitee, which originated the TVA legislaiton in the early days of the New Deal.

DIRECTOR SUGGESTED

Meanwhile, after heated debate in the Senate, substitution of a one-man director for the triple directorate now directing affairs of the TVA was proposed, as leaders soft-pedaled further action pending the President's White House conference on the issue tomorrow.

Out of the President's conference with Chairman Arthur E. Morgan and his bitter adversaries on the board—Harcourt Morgan annd David E. Lilienthal—is expected to come a proposal for solving the conflict which has stopped TVA dead in its tracks.

Blaine Aide Dies in Fire

Maine Woman, 74, Also "Dry" Worker

JEFFERSON, Me., March 10 (AP)—Mary P. Ames, who served nearly a half century ago as secretary to James G. Blaine, statesman, and Neal Dow, noted Prohibitionist, died early today in a fire which destroyed her old home here.

The 74-year-old woman had lived alone. She never married.

The blaze, apparently starting in the kitchen, was discovered by the family of Gordon Curry, who gave the alarm. By the time volunteer firemen arrived the house was doomed. The body was recovered several hours later.

The Baptist church, next to the Ames homestead, was saved by a bucket brigade.

Miss Ames, one time Portland newspaper reporter, served as Blaine's secretary before he began his political career that eventually led him to the secretary of stateship under President Harrison in 1889 and to the Republican nomination for the presidency.

Miss Ames also was secretary for 12 years to Dow, "father" of the prohibition movement, and was believed to have been the first woman in Maine to operate a typewriter.

Failure of Church Union Put on South

Failure of a proposed unification of Methodist churches was blamed on the South by the Rev. John M. Arters, secretary of the general conference, the speaker at the semi-annual meeting of the New England Area Council of the Methodist Church.

Dr. Arters declared that certain elements in the South opposed complete union because of antagonisms dating back to Civil War days.

VAN WYCK MASON'S The CASTLE ISLAND CASE With CANDID CAMERA CLUES by HENRY CLAY GIPSON

What Has Happened:

In the guise of a prospective investor in a big South American business deal, MAJOR ROGER ALLENBY is visiting Freebooter's Hall on Plunder Island, the Bermuda home of BARNARD GRAFTON, a capitalist, whose secretary, JUDY FORTIER, has disappeared recently.

ALLENBY is secretly investigating that mystery unknown to any of those present excepting PATRICIA, JUDY'S sister, who recognized him through childhood memories. Early on the morning following ALLENBY'S arrival, PATRICIA is found dead at the foot of a nearby coral cliff.

The police are notified soon after MR. and MRS. GRAFTON learn of the tragedy. Others in the house have not yet arisen for breakfast. They include, beside the host and his stately wife: their debutante daughter, GAIL, and baby PETER WINSLOW (each by previous marriages); TERRY JAMES, Mrs. Grafton's youthful brother; Gail's chum, CORA SUE PENDLETON; and C. TOWNLEY WARD, young financier.

On the house staff are CREEPY, the native boatman; and PARKER, the colored butler. The GRAFTONS and ALLENBY go to the dock to meet the police boat.

CLIP FOR CLUES!

"THE CASTLE ISLAND CASE" presents the first fictional detective triumph for the candid camera. Important clues to the solution of the mysteries concerned in this novel are contained in certain of the text illustrations. It is suggested that the reader clip each of the instalments, or at least, the photographs illustrating the same. A careful study of the pictures should lead to the solution of the story's crime problems even before that astute detective, Major Roger Allenby, cleans up the case.

Now Continue:

CHAPTER 10

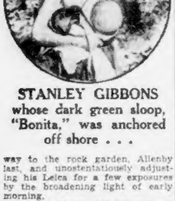
Out from the police boat climbed an alert looking young constable, neat in the gray and silver uniform of the Bermuda police force, and a stocky individual who proved to be the C. I. D. man assigned to the St. George's end of the Bermudas. Both Inspector Boyd and Constable Lunt listened attentively to Roger Allenby's account of what had transpired.

"I can't understand how it happened," Grafton kept repeating. "This in itself is awful, but after poor Judy's death! It—it's got me down."

"It happens that way sometimes," Inspector Boyd remarked. "Odd how often a family can go on for years with never a death; then all of a sudden two or three members of it will die all in a row."

He turned to Allenby. "Will you be good enough to lead us to the body, Major?"

Their feet crunching loud on the coral walk, all four men made their way to the rock garden, Allenby last, and unostentatiously adjusting his Leica for a few exposures by the broadening light of early morning.



STANLEY GIBBONS whose dark green sloop, "Bonita," was anchored off shore . . .

He was able to snap two or three pictures of the body and registered Grafton and the police in the grip of their first reactions.

Clip the Camera Clues

That Inspector Boyd knew his job, Allenby appreciated immediately. The C. I. D. man said little, made no effort to touch the corpse, but studied the ground with care. In concluding his survey he picked his way to the summit of that little cliff over which Patricia Fortier had fallen to her death.

"Accident all right," Grafton sighed. "See?"

And indeed the three other men could very clearly discern a scraped place made by the unfortunate girl in falling.

Somewhat lower a broken branch attested Patricia's frantic efforts to stay her fall. They all could see a broken-off cedar branch tip lying among a clump of larkspur.

"Careful!" Allenby warned when, under Constable Lunt's weight, the brink commenced to crumble and send a small shower of coral pebbles down into the old quarry's bottom.

AN ACCIDENT?

"Does look like an accident, pure and simple," Constable Lunt remarked, mopping his forehead. "That ground crumbles very easy. You can even see a sort of path where she knocked the dew off the bushes as she came up here." He peered over the edge. "Quite a drop."

"It is high," agreed the C. I. D. man and, closing his notebook, he turned to Grafton. "That's all for the moment, sir. Will you have a sheet fetched from the house? We'll cover the remains and wait for Dr. Gosling's verdict."

"How soon can he come over to the island?" Allenby queried casually.

"As soon as I can reach him. You know the law here?"

"Why, no."

"I do," Grafton grimly interpolated as they regained the front hallway of Freebooter's Hall.

"A dead body must be buried before sundown of the day that person died; unless the death occurs after noon. Am I right, Constable?"

"Quite," returned the other man. "By the way, Mr. Grafton, was that your sailboat we saw anchored in Treasure Cove?"

An observer far less astute than Roger Allenby could not have escaped Grafton's wide-eyed astonishment. "Why, no. What's the name on it?"

"Couldn't make it out, but she's a dark green, one-design sloop: looked like Stanley Gibbons's rig."

"That's the Bonita all right," Grafton replied thoughtfully.

"Young Gibbons and my daughter went fishing yesterday afternoon—got becalmed. Gibbons probably spent the night aboard her."

Allenby's host slipped a telescope from a case lying on the calling card table. "Here, you can see him plainly through this glass."

"Why didn't he come ashore?" Allenby queried.

Grafton looked aside, considering with absurd interest a perfectly commonplace begonia.

"Well, you see he's a very sensitive fellow; probably doesn't want to wear out his welcome."

Inspector Boyd queried politely. "Will you send someone out, Mr. Grafton, or shall we ask him to come ashore?"

"Suppose you bring him in?" Grafton suggested. "I'm going to waken the rest of the guests and tell them the news and get it over with."

"I wouldn't rouse them yet," Inspector Boyd commanded rather than advised.

"he Coroner may be able to reach a decision before they get up. You see our procedure will necessarily be different if Dr. Gosling feels death wasn't—er—accidental."

INSPECTOR BOYD and CONSTABLE LUNT arriving in police boat . . .

WAS IT A CLUE?

The group broke up, Constable Lunt departing for the police boat, Grafton to his room, and Allenby and the C. I. D. man to the telephone.

Here the latter spoke briefly and to the point with the result that Dr. Gosling promised to reach Plunder Island as quickly as possible.

Replacing the receiver, Inspector Boyd glanced up, eyes narrowed in thought.

"Major—to my mind—there's only one thing out of the way about this business."

"Yes?"

"Yes. It's that little clump of feathers with the needle in them. Why is it there? What were they for? Otherwise, it seems like an open-and-shut case of accidental death—certainly all the evidence points that way."

"It does look very much like it," Allenby admitted. "The feathers bother me, too."

The dark young inspector looked up suddenly. "Bet I know what it was—it's the beginning of a hat or dress ornament of some kind. Any further observations, sir?"

"Yes, the poor girl must have been killed instantly."

"How could you tell that?"

"Her chest looks inflated—as if she'd drawn breath to scream, but had died before she could cry out. Another thing, she died somewhere between 4 and 4:30 a. m. She had not been lying there long when I found her."

"Why?"

"I raised her wrist and there was no trace of rigor mortis, although she had been lying on the cold rocks and was wet with dew."

Into Inspector Boyd's brown features crept a new interest. "Did you say you were a banker, Major?"

"Come outside," begged the gray-haired investigator in a lowered voice, "and I'll tell a few things about myself it's best you know.

THE MAJOR EXPLAINS

A few minutes later Boyd was gazing on his companion in astonished awe.

"Good lord, sir, you're not the Major Allenby who recovered the Loftus emeralds?"

"Guilty, your Honor," Allenby admitted, applying a match to his pipe.

The C. I. D.'s normally impassive expression brightened.

"Well, I'm certainly pleased and honored to have met you. By the bye, if there's anything I can do to help you in the matter of Judy Fortier, let me know."

"There is something, and it's most important, Inspector. Please treat me as if I were a retired banker—and nothing else. Makes it much easier for me to complete my investigation. Of course it's up to you whether you accept or disregard my—er—well, whatever hints I may let drop."

Recalling the necessity of a fresh roll for his Leica, Allenby sought the stairs. As he neared the top there came a scurry of feet and Peter, freshly scrubbed and pink-cheeked, dashed out to assume an Horatius-at-the-bridge stance.

"Hello, Uncle Roger," he greeted. "I've been fine, only Trumps got away. Have you seen Trumps?"

"Yes. He's all right."

"Oh-h, you've got your camera! Will you take another picture of me? Trumps said he wants one with him."

A pleasant let-down, this moment. Allenby nodded. "Why sure, Pete, I've got a couple of exposures left, so suppose we go down to the back garden. We can get some good ones there and Trumps won't see any cats to shag."

"That's a good idea," Peter agreed. "My Mummy will like it on account of she always likes pictures of me."

"I don't blame her a bit," Allenby declared. "Come along now and we'll find Trumps." Soon he had boy and dog arranged in a pose.

"I mustn't look at the camera?"

"No. Only at Trumps. Try to look interested—that's it, as if Trumps was an elephant stamp."

PETER'S GRIEF

This was a bad cut, for Peter's face fell instantly and grief entered his expression.

"I looked for my stamp again this morning b-but I couldn't find it. Guess it b-blew away somewhere."

"I wouldn't worry," Allenby hurriedly forestalled a flood of tears. "It will probably turn up. And look, here's a perfectly grand giraffe stamp. Just you look at that and we'll have a picture that'll take prizes in any show."

Twice he photographed his subject then lingered, inspecting the child's various toys and athletic equipment. He even ended by indulging in very spirited game of very informal badminton, and so succeeded in unstringing nerves keyed as tight as mandolin strings.

At last he said, "Well, you look for the elephant stamp and if you can't find it, I'll get you another. But now I've got to wash for breakfast."

"Oh, do you have to wash, too?" Peter asked.

"Yes," Allenby replied.

"Behind your ears?"

"I'm afraid so, Peter. That's one of the penalties of being a man."

• • •

The guests were still upstairs when Dr. Gosling arrived and after a careful summary gave a verdict of accidental death pending an autopsy.

Accordingly, Patricia Fortier's pallid, once pleasing body was placed in a canvas hammock and carried down to the police launch.

"The autopsy will be at 11 at the King Edward Memorial Hospital, Major," Inspector Boyd muttered. "Would you like to come?"

"Yes, I'd like to have a look at the body."

"Yes, sir. We'll be expecting you then," Boyd said. He paused. "What did you think of Gibbon's testimony?"

"LET'S SKIP IT"

"Seemed straight enough to me," Allenby replied. "After all, there's nothing very strange about a man's sleeping aboard his own boat."

"No. Especially when Constable Lunt described the oars in the dinghy as being only wet with dew."

Allenby smiled and said drily, "Of course, Gibbons couldn't have gone down the anchor chain and swum ashore? Well, let's skip it."

"Well," Inspector Boyd held out a square, bony hand, "Dr. Gosling's anxious to get back. See you later, eh?"

Tactfully, Barbara Grafton insisted that no mention of the tragedy be made until after breakfast, a bit of thoughtfulness which gave Allenby a heaven-sent chance to make an estimate of the dark young man known as Stanley Gibbons.

Clip the Camera Clues

Terry James first noticed Patricia's absence. "Where's Pat?"

"Reckon she's having a beauty nap," Cora Sue yawned, lighting a post-breakfast cigarette. "Why, what is it—?"

Grafton had arisen and was holding up both hands.

"What is this?" Ward demanded sharply. "A game or something?"

"No, ladies and gentlemen. It's my unhappy duty to tell you that a dreadful thing occurred here early this morning."

Like people in a wax group the members of the house party remained rigid, their eyes riveted on Grafton's face still unshaven. It caught the light on many tiny bristles.

"I'm dreadfully sorry to tell you that Patricia Fortier is dead! She fell from the top of the quarry garden and was killed."

Socialites Flock to Last of Musicales

IT SEEMS LIKE JUST a few weeks since we covered the 10th birthday party of the Boston Morning Musicales . . . which makes it difficult to realize that since that party another successful season of concerts has been chalked up . . . yet yesterday the 10th series came to an end with a glorious concert by Lawrence Tibbett, baritone of the Metropolitan Opera Company . . .

Music lovers who were fortunate enough to be invited by subscribers, came from far and wide to join the throng in the Statler Ballroom for the final concert . . . Mrs. John W. Myers, chairman of the musicales committee, arrived home from Palm Beach in time to greet her many friends . . .

Mrs. Eliot Spalding came over from New York for the occasion and Mr. Tibbett's guest, Mrs. Arthur Richards, hails from Honolulu . . . Another visitor from far away is Mrs. Geoffrey Travis Butler of Dysart, Tasmania, who was the guest of Marjorie Fish, field secretary of the Boston School of Occupational Therapy, the beneficiary of the concert series . . .

Mrs. Augustus Rantoul and Mrs. Joel Goldthwaite chatted enthusiastically about the concert as they made their way downstairs to luncheon . . . Mrs. Henry Endicott, wearing a black costume with bright blue and coral rosettes and a long trailing veil on her hat, was one of the many who warmly praised Mr. Tibbett's performance . . .

Novel Program Presented

A program of "living pictures of old masters" sounds a bit antique and stuffy. Yet, when done under the careful supervision of an artist, such a program can be entertaining and artistically pleasing, as demonstrated last evening.

Fresh sparkling colors and the third dimensional effect of the reproductions, on the program sponsored by the Lowthoope sponsored by the Lowthrope added life to the classic charm of the original paintings.

A number of prominent Boston socialites were selected by artist Charles Hopkinson to model for the tableaux, because of their likeness to the subjects for which they posed. Mrs. William Tudor Gardiner made a striking Lady Siddons in the famous Gainsborough portrait, Frances Williams posed as the dashing young sportsman in a painting by David entitled M. Serizìat and Agnes Osborne was unforgettably lovely in a reproduction of Copley's beautiful portrait of Lady Wentworth.

ACT AS MODELS

Others who took part were Mrs. S. Eliot Guild, who posed for the reproduction of Gainsborough's "Lady Rodney;" Mrs. Samuel Cabot, who impersonated Nelly O'Brien in a portrait by Reynolds; Alice Page Loring and her father, who posed together in a Renoir tableaux, and Mrs. Robert Choate, who interpreted a beautiful Vermeer entitled "The Pearl Necklace,'.

Others chosen to pose were Katherine Ward Lane, Nell Halsted, Miss Ellen W. Coolidge, who interpreted the famous portrait of Whistler's mother, John Parker, Mr. Whitehill and Mr. Sturgis.

Mrs. Henry Howe Richards of Groton was one of the energetic committee arranging the benefit which took place in John Hancock Hall. Flitting around, cheerfully attending to her various details, she looked very youthful and partyish in a black net gown with a fluttering cape and ribbon bands of turquoise and cherry red edging the neckline and hem. Her daughter, Nancy Richards, and daughter-in-law, Mrs. Hamilton Richards, had charge of a corps of post debutante ushers.

SOCIALITES ATTEND

Many of those interested in the event are garden and flower enthusiasts who play a prominent part in horticultural affairs of Boston society. Among them were Mr. and Mrs. Albert Cameron Burrage, Jr., Mrs. S. V. R. Crosby, who wore a royal blue lace gown trimmed with a wide cerise sash and cerise slippers, Mrs. E. Lawrence Oliver, and Mrs. James B. Ayer of Milton.

Mrs. Philip Stockton sat near the front with a group of friends. Near them were Mrs. Louis Frothingham, Mrs. J. Gardner Bradley, John Wells Farley and William Sumner Appleton. Mrs. Wallace Goodrich, who chose a lovely gown of balck satin with diamond clips and a pearl necklace, sat with Mr. and Mrs. Harold Coolidge, Jr., the latter topped her dubonnet and white printed silk gown with a fluffy white fox cape.

Still others present were Mrs. Nathaniel Simpkins, Jr., who attended with her sister, Miss Alice Thorndike, and their niece, Priscilla Thorndike. Mr. and Mrs. Frederick Ayer were accompanied by their daughter, Anne Ayer, and Mrs. Roger Cutler. The Misses Rosamond and Aimee Lamb were also present as were Dr. and Mrs. J. Dellinger Barney, Barbara Wendell Soule, Mrs. Roger Warner, Rachel Warner, Mrs. George Lee and Mr. and Mrs. I. Tucker Burr.

Triumph

Tibbett Excels As Musicales End Season

By RUTH MARSTERS

The last Boston Morning Musicale of the season was, from whatever angle fancy might lead you to think of it, a most satisfactory occasion.

There was, of course, coffee to efface the chilling effects of a March morning served in the foyer at 11:45. Pouring, members of the committee had every reason to congratulate themselves. For the tenth time they had accomplished the impossible. They had made morning music a fashionable "must" with results that swelled the coffers of a favorite enterprise, the Boston School of Occupational Therapy.

We haven't yet discovered just what a school of occupational therapy is about, but of this we are certain. In no other city in the world do people embrace morning music with a like assiduity for any cause whatsoever.

STARTS ON SCHEDULE

At 11 o'clock season subscribers had settled themselves within the closed doors of the ballroom (these things run on schedule) and Lawrence Tibbett came upon the platform svelt and suave in correct morning clothes to begin his program with Handel's "Where'er You Walk."

When Lawrence Tibbett begins a program the end is self-evident. Everyone can relax with the assurance that everything is going to go along just great. Which, of course, it did.

The Handel was accomplished in a leisurely fashion—Mr. Tibbett can do practically anything he likes so far as we are concerned, but we must admit the Handel was a bit on the leisurely side. Mendelssohn's "I Am a Roamer Bold" was endowed with a presto, however, that more than made up for lost time.

ALSO SINGS IN LEIDER

Of the progress of Strauss' "Morgen," and the two Brahms, "Verrath" and "O liebliche Wangen," it is perhaps sufficient fo point out that any lieder given the vehicle of Tibbett's vocal organs are automatically ensconsed in a kingly equipage indeed. We might point out further that the procedure of always slowing down before coming to a stop, while often salutory, is not always musical. But then we would have to admit of quibbling.

Stewart Wille, at the piano for Mr. Tibbett, proved, as was to be expected from the nature of his accompaniments, an agile fingered but uninteresting soloist. His two contributions in the latter capacity were a Siloti arrangement of the Bach Prelude from Cantata No. 35 and Chopin's Impromptu in F sharp major. Both the better for being forgotten.

Before the intermission intervened, Mr. Tibbett sang Masaenet's "Visione Fugitive" from "Herodiade" and, as an encore, the prologue to "Paliacci."

TIBBETT SCORES AGAIN

The last half of the program left nothing to be desired in the way of performance.

The poetic mood of Frank La Forge's The Sand," the humorous vein of Howard McKinney's "Bagpipe Man," were admirably set forth. And "Edward," a sort of ballad by Carl Lowew, was done as only Tibbett could do it. (We had been waiting for him to let himself go all along and "Edward" provided the dramatic medium without which much of Tibbett is left with nothing to do.)

As an encore to this group there was Old Mother Hubbard—after the style of Handel. (It really is amusing when Mr. Tibbett sings it. He has a delicious sense of humor.)

Everybody went to luncheon feeling fine. Mr. Tibbett had managed better than most singers do in the morning. But then, Mr. Tibbet has a way of managing better than most.

Second Catholic Congress Set For April

Mrs. Vincent Greene Heads Committee For Meetings

With morning coffee and doughnuts supplying them with nourishment for their ambitious plans, leaders of the League of Catholic Women gathered yesterday at their headquarters, 1 Arlington street to make arrangements for the second Catholic Congress.

Catholic interpretation of current questions will be offered at the conference which will be attended by women delegates from all parts of the diocese. The convention is slated for April 26 and 27 at St. Clement's church at Boylston and Ipswich streets.

ACT AS SERVERS

Mrs. William Derby, past president of the Guild of Infant Saviour and Mrs. Daniel Carmody, music chairman of the league, presided at the coffee urns.

Mrs. Vincent L. Greene, who was renamed Congress chairman, was accompanied to the early morning committee meeting by Mrs Charles Feehan, league president, and Mrs. Norbert J. Reilly of Belmont, co-chairman of the congress.

Glimpsed in the throng of enthusiastic workers were Alice Kerrigan, president of the B. C. alumnae, Mrs. Ursula O'Hare Burke, organizer of the Catholic Professional Women's Club and Mrs. Martin J. Caulfield, leader of Roxbury Notre Dame graduates.

DIRECTS PUBLICITY

Others attending the affair were Mrs. Edward McManus of Concord, publicity director of the league, Mrs. Mary Nyhan of North Quincy Catholic Club, and Mrs. Mary A. Knight, member of the Dorchester Catholic Guild.

A REPORTER AT THE PAPAL COURT

by THOMAS B. MORGAN

Boston Cardinal Too Late to Cast Vote

Brilliant pageantry, formal dignity and an informal view into life in the papal court are blended in this gripping narrative by Thomas B. Morgan. Starting with the last days of Pope Benedict XV, the solemn drama of the Vatican's rites on the passing of one pontiff and election of his successor has been related. This story will continue each day in the Boston Evening American and Sunday Advertiser. Today Mr. Morgan tells of the great victory of William Cardinal O'Connell of Boston.

CHAPTER 5

The world was to know only through ceremonial procedure. The first cardinal-deacon was authorized by the new Pope to make the announcement from the central balcony of St. Peter's.

Crowds had assembled every day in St. Peter's square during the conclave to know the result of the balloting.

Especially on Sunday was the crowd large as Romans through centuries had witnessed the proclaiming of new Popes and none desired to miss the ceremony this time.

From the projecting stovepipe the stream of smoke emerged twice every day, about noon and 5 o'clock in the evening, but it was always difficult to tell what the smoke signified. When Cardinal Laurenti received his two-thirds vote only the ballots were burned. It had signified election; but there was no Pope. It had confused the smoke signal altogether.

Even the stream of smoke which announced Cardinal Ratti's election was misleading because it seemed too much for the mere burning of ballots. But the crowd on Monday stayed. Every sign which came from the Vatican palaces was seized as indicating the election of a Pope, and there were enough signs. Some persons rushed into St. Peter's thinking the announcement would be made on the inside balcony.

I awaited news of the new Pope at the entrance to the courtyard of St. Damasus. According to previous arrangement, his name was to be communicated to Prince Chigi, who was to stand guard as Marshal of the Conclave. This was supposed to be half an hour earlier than the announcement from the balcony, but excitement was so high inside the conclave that the official designated to communicate with Prince Chigi forgot to bring the news. Papal aristocrats and diplomats waiting with me also were foiled.

CROWD HAILS RESULT

I descended the stairs to the Constantine Corridor where the prelates of the court of Benedict XV were standing. It was 11:30 o'clock when the papal cross appeared at the edge of the outside balcony. Then the cross-bearer could be seen and finally several masters of ceremony accompanying Cardinal Bisleti, dean of the cardinal-deacons. The great ceremonial book was opened and there the Cardinal began intoning:

"Annuntio vobis gaudium magnum. Habemus Pontificem! (I announce to your great joy We have a Pontiff!)"

Then he paused.

"The Most Reverend and Most Eminent Cardinal Ratti, Archbishop of Milan, has taken the name of Pius XI," he proclaimed.

The crowd broke out into volleys of the traditional Roman applause. I turned to Monsignor Migone, confessor to Benedict XV and asked:

"It's right—Achille Ratti?"

"Correct. Most correct. Run."

I was off to the telephone.

Previously I had studied the location of the few telephones available. Ordinarily it was necessary to run clear across St. Peter's square to get to a drugstore, cafe or restaurant. On the day the conclave opened I had discovered one lone telephone right in the Vatican palaces, but not included in the conclave—just outside the courtyard in the office of the master of the household. I guarded that secret, watched it. While balloting was proceeding, I used the drugstore telephone so as not to stir the curiosity of others. My secret was for election only.

WRONG NEWS FLASHED

I ran upstairs and seized that secluded telephone. I had hardly got off the flash when my own office was in an uproar. They too, had a Pope. I was asked if I were sure of the name of Achille Ratti. I was sure.

At that moment special editions of a Rome newspaper were appearing with the name of Cardinal Tacci. This was easy to mistake. A telephone conversation could confuse "Tacci" with "Ratti." But it was Ratti. The newspaper had jumped to "Tacci" because it learned from a druggist that medicine had been sent into the conclave for him.

On the slim deduction that he was overcome with the high honor and needed medicine, it published his election.

The crowd was now wild with excitement waiting for the first public benediction of Pius XI. The terrace over the Bernini colonnade at the side of the facade quickly filled with more diplomats as word reached the embassies and legations that there was a new Pope.

Members of the Roman aristocracy began pouring through the bronze doors to occupy places on the terrace. The crowd in the square made a rush for the inside of St. Peter's, because no Pope since 1870 had given his first public blessing from the outside of the basilica. Rumors were then heard that it would be given from the outside, so that hundreds now began rushing out. Conflicting rumors than turned the flow of people in again. There was confusion; no one wanted to miss anything.

Achille Cardinal Ratti, taking the name Pius XI, was soon attired in the historic robes of the Pope.

DONS PAPAL ROBES

But while the crowd, the aristocrats and diplomats had no clew of the when or how of anything, the formalities of investing the new Pope were proceeding calmly in the Sixtine Chapel. As soon as Achille Ratti had given his name as Pius XI, Monsignor Sincero drew up the act of election and, with the papal masters of ceremony, approached his throne to escort him to the dressing room on the right of the altar.

There he was divested of his cardinal's robes and there he put on the robes which were to signify his rank of office for the rest of his life. There were three sizes ready; the middle size fitted the Pope perfectly.

Pius XI was soon attired in white silk stockings, red silk slippers, the white cassock, the girdle and the red velvet cape bordered with ermine. The camauro was placed over the little zucchetto. One of the cardinals approached and placed upon him the stole. He was then led back into the Sistine Chapel. At his entrance, all genuflected until he occupied a new throne placed on the steps of the altar.

Now came the moment when he was to decide upon his first public blessing. He was approached by Monsignor Respighi and told that there was an immense crowd in St. Peter's square. He paused and then before the whole Sacred College announced:

"I proclaim before the members of the Sacred College that it is the wish of my heart to safeguard and defend all the rights of the church and all the prerogatives of the Holy See. Having admitted this, it is my desire that my first benediction should be extended, as a pledge of the peace desired by humanity, not only in Rome, not only in Italy, but to the whole church and the entire world. This benediction I shall give from the external balcony of St. Peter's."

At this decision, Monsignor Respighi ordered a tapestry with the papal coat of arms placed on the central outside balcony of the basilica. Ushers ran ahead, and as soon as the crowd saw them draping the priceless fabric on the balustrade there was a spontaneous outbreak of lusty and spirited "evvivas."

The first wave of acclaim was followed by many others as the vast multitude began to realize that in the same spot where much history had been made, history was again to be made that very day. Those who were on the inside of the basilica poured into the square.

Settling from their restlessness, but excited and happy in the thought of seeing their Pope, populace, diplomats and aristocrats awaited the first papal blessing from that balcony since 1870.

BOSTON CARDINAL ARRIVES

Out of the Sixtine Chapel Monsignor Respighi and the assistant ceremoniers escorted the Pontiff followed by the cardinals through the Sala Regia and above the loggia to the central balcony. The immense crowd by this time simmered with fervor. Cries of "Long Live the Pope" and "Hail Pius XI" came from all parts. It was exactly one hour since Cardinal Bisleti had announced the election.

The wait had tried the patience but had not exhausted the enthusiasm of the crowd. When the Pontiff appeared and got nearer to the tapestry, there was a volley, rapturous and explosive as when the home team scores.

Election Law Is Changed After Pius' Victory

"Evvivas" and handclapping reverberated through the columns and against the facade. Pius XI waited and waited. The applause subsided and he intoned the "Sit nomen Domini benedictus." He extended his arm. Two fingers were closed on the palm and two were open. He recited the formula and became the first Pope in 52 years to bless the world on that spot.

As these scenes of gaudium magnum were being enacted in St. Peter's square, a train was rushing from Naples to Rome bearing the Cardinal-Archbishop of Boston.

The President Wilson had docked that morning and, disembarking early, he was already on his way in the wagon-salon which the Italian government had provided for him. He was accompanied by Monsignor Richard Haberlin, his secretary, and James A. Mills, now a roving correspondent for the Associated Press, who met him at the steamer.

Mills had been sent from Paris to help me in the heavy work of the conclave and had offered to meet the New England prelate on his arrival. This was ideal for me. While I was occupied with the election, I felt relieved that Jim was covering the movements of the only American representative to arrive.

It was 1 o'clock when this train pulled into the Rome station. Wearing his black cassock bordered with red, Cardinal O'Connell descended from the train and found a Vatican prelate, who had been sent to welcome him. He was smiling and happy, happy that the great race to "make the conclave" was over and that he had arrived before the election of the Pope.

Not a word had he heard as yet, about the great ceremony which had just occurred a half-hour previously in St. Peter's square.

The Vatican prelate welcomed him and then added these words:

"And I am happy to inform Your Eminence that this morning the conclave elected a Pope. Achille Ratti, Archbishop of Milan, has taken the name of Pius XI."

Cardinal O'Connell caught his breath. The smile was transformed into the gravity of vain hope. Fate had again betrayed him. His heart sank momentarily but he recovered his composure. He had raced four thousand miles to an unfulfilled aim. He slowly paced the platform. He called Mills to him.

"This is a great disappointment," he said sorrowfully. **"It has happened twice now. The last time it was almost as close as this time. Poor Cardinal Gibbons and myself—how we raced and then failed to arrive on time. We had traveled together but were late then as I am late now."**

His spirit was grieved but buoyant. It was grieved because he had so deeply desired to have a share in the election of the Pope. It was buoyant because he wished to face the new situation as a devoted servant of the Church. He paced the platform again. Photographers took his picture. The Vatican prelate asked him if he were ready to be admitted into the conclave, which, though it had elected the Pope, had not yet adjourned. He replied that he wished to enter the conclave.

He was shown into a waiting automobile and was driven straight to the Vatican. The streets and monuments were all familiar to him but he was downcast. The thought of the long 16-day trip frustrated on the very last day gave him a heavy heart. He sighed.

Another opportunity to elect a Pope might never come. He reflected. The group of cardinals headed by Merry del Val had needed him though he was most concerned about the failure to cast even one single ballot.

He thought that the conclave could have waited to allow him to vote during its final sessions.

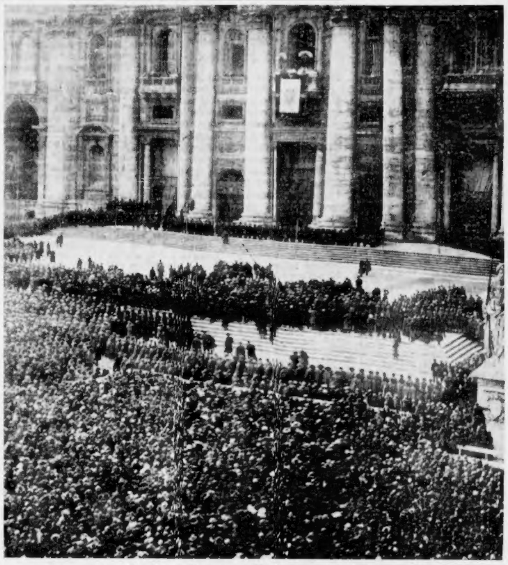
ENTERS THE VATICAN

When he arrived at the Vatican, the officials were ready to admit him. The conclave was scheduled to meet again that afternoon to invest the new Pope with the emblem of the Bishop of Rome, his oldest and most authoritative title. Cardinal O'Connell passed through the entrance especially unbarred and unlocked for him.

He was saluted by soldiers and prelates on both sides of the portals. He realized now that he had come to attend a ceremony which could only increase his disappointment as he would have preferred to join in the gaudium magnum on the same basis as his colleagues—after he had sat in conclave and watched the passing of the candidates from ballot to ballot until one of them had reached the papal throne.

New Pope

First Message Cheered by Throngs



Pope Pius XI imparts his first benediction as Pontiff from the balcony of St. Peter's. It was a history-making departure from precedent. His purpose, in his own words, was to extend his blessing "as a pledge of the peace desired by humanity, not only to Rome, not only to Italy, but to the whole church and the entire world."

"When I saw Cardinal Gasparri," related the American cardinal to me afterwards, **"I did not fail to express my regret that the conclave did not wait until America was represented. As Camerlengo, he replied that he simply followed the Apostolic Constitution and that the conclave had proceeded strictly according to precedent. I told him broad interpretation would have been far more expedient as well as representative."**

At 4 o'clock the conclave was considered as officially concluded. The doors were opened and the Vatican began its return to normal life. Cardinal O'Connell went to his hotel and found a great consolation in the fact that Achille Ratti was a new man and that he offered the signs of great promise for a successful pontificate.

"He is a good man," he confided to me. **"There were many good men. Merry del Val would have made a fine Pope. He is only 59. Then little Laurenti would have made an excellent choice. But let us thank God that He gave us Pius XI."**

WELCOMED BY POPE

The next day, Boston's archbishop was received in audience by the Pope. He was given a most cordial welcome. The amiable reception gave him a great opportunity to show the Holy Father the unfairness of holding the election without American representation.

He spoke very candidly to the Pontiff, who listened with deeply sympathetic interest. The Holy Father was profoundly impressed especially since he realized that Cardinal O'Connell was expressing the viewpoint of all the cardinals who had passed through or who in future would suffer the same disappointment.

"We feel so sorry for you that after making the long journey you could not be here in time for the election," said the Pope.

"We wished at least one representative of the American hierarchy. And, sorry as we are, we will so arrange things from now on that this through which you have passed shall not happen again. It shall not happen again. We will change the Apostolic Constitution."

Only a few days were to pass when America's highest ranking prelate was welcomed in audience by Pius XI a second time. This time it was to announce that he had decided upon the change he was going to make.

The interregnum before the inauguration of a conclave would be extended from 10 to 15 days. Besides, should further time be necessary for the cardinals from abroad the period could be extended to 18 days.

Cardinal O'Connell was pleased, told the Pope that it was a great recognition to America and thanked him.

He enjoyed an ecclesiastic's pride that he had been the means of forcing a change even in the Apostolic Constitution.

Fire Costs 32 Jobs

EAST BARRE, Vt., March 10 (AP)—Thirty-two men were thrown out of work today after a $30,000 fire destroyed the 26-year-old granite memorial shop of Silas G. Lloyd and Guy Newell.

The DAILY WASHINGTON MERRY-GO-ROUND

By DREW PEARSON and ROBERT S. ALLEN

WASHINGTON,—There is a grim story behind the mounting expenditures for relief which, this month will reach a total of $170,000,000. This sum goes to a total of 2,500,000 on the Federal relief rolls which means a 500,000 increase since February.

This $170,000,000 total is almost $100,000,000 more than the Works Progress Administration was spending last October, and graphically illustrates what has happened in the country since business went into the autumnal nosedive.

Every month since then, as the recession has deepened, demands for WPA aid have mounted. Here are the figures:

	WPA Expenditures	WPA Relief Rolls
November	$97,300,000	1,520,000
December	$114,500,000	1,629,000
January	$118,000,000	1,900,000
February	$135,000,000	2,009,000

EMERGENCY GRANT—The big step-up to $170,000,000 in March was made possible by the recent "emergency grant" of $250,000,000. This was an emergency grant in every sense of the word. Without it, relief rolls would have been held down to around $80,000,000 a month—or about one-half what they are in March.

Two factors to be kept in mind regarding relief during the next few months are:

1—The decline in employment has leveled off, but at the same time, few men already unemployed are finding new jobs. So with savings depleted, more are being added to the relief rolls.

2—In addition to WPA relief, which is supplied by the Federal government, states, cities and counties are bearing a heavy burden, namely about 1,900,000 men at a cost of $50,000,000 monthly.

To lighten this load, WPA has absorbed 500,000 of these local jobless during the last two months. But demand for aid is so great that this 500,000 hole in the local rolls now has been filled by a rush of 700,000 more jobless.

FOWL AND POLITICS—When you see Senator Jimmy Byrnes of South Carolina going to town for the President's reorganization bill, you don't have to rub your eyes to realize that politics still is a very wonderous thing.

Time was—only so recently—when the senator from South Carolina, once considered Roosevelt's messenger boy, was dead against him on many things. Among these was the reorganization bill, regarding which Jimmy is committee chairman. But now, lo and behold, he has come back into the fold!

Reason for this undoubtedly will be denied by all hands concerned, but take a look at PWA allotments. Some of the folks in South Carolina claim that there is no politics in PWA, but the fact is that when Senator Byrnes was the President's friend he got a fat and juicy WPA allotment of $42,000,000 for a power project on the Santee and Cooper rivers.

He got this despite the fact that it destroyed one of the greatest game preserves in the southeast and contributed largely to the resignation of the famous cartoonist, J. N. "Ding" Darling, as head of the Biological Survey. At that time Roosevelt thought more of Jimmy Byrnes than he did of wild fowl and animals.

Some time after this, however, it looked as if wild fowl and animals were one up on the Senator from South Carolina. For the Santee-Cooper project got squeezed out of PWA allotments, and word went out from the White House that the money would have to be voted by Congress.

This, strangely enough, coincided with the era when Jimmy Byrnes was opposing his old friend the President on a lot of things.

CHINESE DOPE — Although Roosevelt Administration sympathies are about 100 per cent with China and against Japan in the current conflict, this is no fault of the Chinese ambassador, suave, star-gazing Dr. C. T. Wang.

When it comes to doing business with ambassadors, the State Department rates Wang near the bottom of the list, puts Japanese Ambassador Saito near the top.

Some of the trouble in the Far East, it has now leaked out, resulted from either faulty or deliberately deceptive reports which Ambassador Wang sent his government giving the impression, if not the definite promise, that the United States was coming to the aid of China.

Ambassador Wang is so naive that recently he picked a representative who had a prison record to carry out a financial matter for him.

Note—The ambassador has got his government into a New York financial controversy which may be aired with considerable reverberations shortly.

ENOUGH TAXES TO BUILD 3 NEW SCHOOLS A YEAR

ONE way to measure the value of a business to the community is to look at the size of its tax bill. The local taxes we pay, at present rates, are big enough to build three $750,000 schoolhouses a year—with money left over.

But taxes are only one contribution for the privilege of doing business in this community. We give steady employment to nearly 4,000 men and women. Our payroll in Massachusetts last year was over $7,500,000.

Even more important from a public viewpoint are the products that we make. New England Coke provides warmth and comfort for 165,000 families. We make gas for 300,000 customers of the Boston Consolidated and Old Colony Gas Companies. Tar, benzol and pig iron are among our other products.

To make sure these products and services reach you without interruption we operate coal mines in West Virginia and maintain a large fleet of colliers. By directing each step "from the ground up" we are able to secure steadier work for employees and provide an unfailing supply of the fuels you need.

Mrs. Ryan Under Cross Quiz in Death Trial

Admits Husband Kind To Their Children 'When Sober'

By DOROTHY KILGALLEN
International News Service Special Correspondent

NEW YORK, March 10—With the most important part of Patricia Ryan's story still untold—an exact description of approaches made to her by the mate she slew—the 20-year-old widow was cross-examined by the state today in an effort to soften the picture Patricia has painted of Michael Ryan as a drunken brute.

Assistant District Attorney Martin Frank drew from Mrs. Ryan the admission that—"when he was sober"—Michael was a good husband, who used part of his patrolman's salary to buy pets and toys for the couple's two small children.

Mrs. Ryan already has told, under direct examination, how she killed her husband with his service pistol in their Bronx home last October because "he attempted to force his advances on me."

TELLS OF "ADVANCES"

But when her counsel urged that she tell the jury of the nature of these "advances," she would only shake her head and moan:

"I can't—oh, I can't tell it."

She shot and killed Ryan—she admitted that, but she could not or would not do more than hint at what had been advanced in the pre-trial discussions of the case as the real reason why she killed the man she claims she loved and still loves.

"I got into bed and he grabbed me," she related of that night when Ryan was slain. "I struggled out of the bed. I begged him to st p.

"I told him I would kill myself because I couldn't stand the disgrace he was bringing me. He said to go ahead. He said I wasn't any use to him anyway."

THREATENS SUICIDE

Then she described how Ryan, like a crazed man, leaped from chair to chair in the bedroom and jumped into the bed.

"He got me on the floor and twitsed my arm and dragged me into bed. Again he attempted to force his advances on me.

"He made a motion to spring up at me as I stood at the foo, of the bed. Something snapped—that's all I remember. I do not remember getting the revolver. I do not remember firing it."

But she remembered later sitting on the coach and someone telling her to look at her husband. She remembers that because the body was on the floor, and the eyes open in death seemed to be looking at her.

'Red' Youth Defies U. S. Senate Quiz

WASHINGTON, March 10 (AP)—Carl Ross, secretary of the Young Communists League, Inc., refused today to tell a Senate committee whether he would bear arms against Soviet Russia in case of war.

Senator Lee (D) Oklahoma, asked the 24-year-old New York youth if he would "bear arms under the flag of the United States against the Red flag of the Soviet Union."

Ross replied the question was "preposterous," and added that Young Communists "deal with realities."

The witness, who said he represented 15,000 youths from 16 to 30 years of age, favored enactment of the American youth act, which would set aside $500,000,000 to finance education.

When Senators Lee and Lunden (FL.) of Minnesota pressed Ross for a "yes" or "no" answer to the question of whether he would bear arms, the youth asserted the query could not be answered.

"You come here asking to testify, you get your bread in this country, and while masking under patriotic names you go about trying to overthrow this government," Lee commented sarcastically.

Ross flushed, but declined a direct answer.

Later he expressed a willingness to bear arms against any "Fascist group." He said he had taken "the pledge of allegiance to the American flag," but insisted that did not mean fighting a war "for tory capitalists."

Levine Kidnaping 3-Week Mystery

NEW ROCHELLE, N. Y., March 10 (AP)—The disappearance of 12-year-old Peter Levine entered on its third week today with police continuing their "hands off" policy. Murray Levine, New York lawyer and father of the boy, remained at home in the hope that kidnapers would seek him out to collect the $30,000 ranson he has announced he would pay.

CHICAGO, March 10—You see a sign in Chicago that says "Cook with Electricity," and you say to yourself, well, that is the finishing touch to the fabulous empire of old Sam Insull, all right.

Old Sam used to be the boss of both the electric and gas companies of Chicago, and you remember that he advertised "light with electricity," and "cook with gas." Presumably his theory was to prevent a conflict of business interests between the two companies, and get the cash customers coming and going.

With the fall of the Insull Empire, the gas and electric companies got split out, and each now follows the spoor of the cash customer without reference to the other, hence the appeal of the electric company to housewives and others to do with electricity that cooking which Old Sam said should be done with gas.

You reflect that as far as you are concerned, it is six of one and a half dozen of the other. In New York, the cooking end of your establishment cooks with gas, and down in Dade County, it cooks with electricity, and you recall that in either case you get a short answer when your remarks are designed to be helpful to the cooking.

LIVING IN LONDON

Thinking of Old Sam Insull, you wonder if he cares now what folks cook with, and it is your conjecture that he does not. Probably he does not care a cuss if they cook with coal or wood, as long as he gets some of the cooking.

The last you heard of Sam Insull he was living in a small apartment in London, and his wife had a small apartment in Paris, and all Sam asked of the world was to be let alone.

He did not want publicity of any kind, and when a London newspaper gave him a splash, he went around and saw the editor and requested him to lay off, and the editor laid off. Sam gets a pension of around $20,000 from his old Chicago companies, and he and his wife cut that up and probably live right comfortably on it.

There was supposed to be a rift between them at one time but Sam's troubles brought them together again in Chicago, and they are said to still be quite friendly, only Mrs. Insull does not like England and Sam does, which is not surprising when you consider that it was out of England that he came as a poor young man to found here in Chicago one of the greatest financial empires in history.

GREAT DREAMS FAIL

At its peak it ran into hundreds of millions of dollars in terms of money, and you remember that its downfall was one of the most disastrous happenings of the kind that ever took place in this country. Old Sam skipped to Greece, and the tale of his wanderings and dodging was first page news in the public prints for quite a spell.

Then he came back to Chicago and twice stood trial. He was acquitted both times, and you recall that you were around here doing some stuff on the case before the first trial and that while a lot of Chicagoans were pretty hot at Sam, others were saying that he was not such a bad old codger, at that, and that he was a victim of circumstances over which he had no control.

Sam Insull had great dreams for Chicago and the Middle West, no doubt of that, and he made some of them come true, but you reflect that in the years to come he will be remembered, not for the things he did, or tried to do, but only for his tremendous bust. You reflect, too, that it is never the winners you give a fellow that he remembers. It is only the losers. That is the way it was with Sam.

GRANTED PENSION

He gets his pension because of his length of service with the companies that are paying it, and some Chicagoans still begrudge him the dough with great bitterness, though in general Old Sam and all his works are gradually fading from Chicago memory. However, you muse as you sit at a window in the office of the Herald-Examiner peering at a tall structure across the way that there stands something that must necessarily serve as a reminder of him for years to come.

It is the forty-two-story building that Sam put up to house grand opera in Chicago, and he had a pretty good idea about it, too. He intended that the revenue from the rental of the offices and stores in the building should support the opera, which runs at a deficit in Chicago, though that deficit now, you are told, is not as great as it used to be.

Old Sam had an apartment of great splendor in the building, and entertained there only the biggest bigoes of the social, financial and artistic world, though at the finish when they were cleaning up the odds and ends of his affairs the folks who tramped through the apartment, pawing his belongings with appraising fingers, were mainly the same Chicago housewives that Sam used to advise to "light with electricity" and "cook with gas."

Deer Abound, Plan To Take 'Em Alive

BRATTLEBORO, Vt., March 10 (AP)—Windham county has so many deer that the State game and fish department prepared today to trap them alive and ship them to northern Vermont counties less plentifully supplied.

In one apple orchard badly damaged by foraging deer a stockade and box trap were being constructed.

10 End Bermuda Cruise Here as Liner Docks

Lady Rodney Is Back From 19-Day Trip, Goes to Halifax

Returning from a 19-day cruise to Kingston, Nassau and Bermuda, the Canadian National Steamship Company liner Lady Rodney docked at Commonwealth pier today. Under command of Captain Herbert S. Hilton, she carried 70 passengers, 53 of whom disembarked here.

Among those leaving the ship at Boston were Mrs. Harold P. Austin and her dauhter, Josephine, and Oswald Loftman of Boston, Charlotte Hallowell off West Medford, Mr. and Mrs. Thomas Keene of Brookline, Mr. and Mrs. George Harkness of Dorchester, Margaret and John McKay of Athol and Edward Mitchell of Quincy.

The Lady Rodney sailed for Halifax shortly after noon with the remaining passengers.

The Lighthouse Bureau today placed a lantern with a fixed white light to mark the site of the wreck of a Boston Sand and Gravel Company scow, which sank near the Southeast bank of Scituate Harbor channel during a storm last week. Army engineers, meanwhile, made plans to raise the wreckage.

Her sides and decks damaged after a 17-day battle with terrific North Atlantic gales, the American freighter, Azalea City, was tied up at the pier of the Simpson Dry Dock in East Boston today. The vessel, towed into port earlier in the week, was surveyed preparatory to taking her into dry dock for repairs.

Robinson Film Tops Met's Bill

"Little Caesar" Robinson, in top hat, white tie and tails, takes over the Metropolitan screen today when his latest starring production, Warner Brothers' "A Slight Case of Murder," opens a week's engagement.

Partnered with this bullet-proof starrer is "Romance In the Dark," featuring John Boles, Gladys Swarthout and John Barrymore. This is a Paramount picture with four singable numbers, "Tonight We Love," "Bewitched," "By the Night" and "Blue Dawn."

"A Slight Case of Murder" is a film farce frankly kidding gangsters and racketeering. In it, Edward G. Robinson is no menacing, gun-toting, sinister underworld character. He's a fellow who was a beer-baron in dry days and now, since repeal, has been trying to get along as a legitimate brewer. But he's a dry at heart; he's never tasted his own brew.

His mob, which used to run rum, hi-jack rivals' loads and force Eddie's beer upon the speakeasy proprietors, are now salesmen without guns required to dress nattily.

Eddie loses all of his money outside of a half-million, and a rival outfit tries to rid him of that. And right there is when the shooting comes in, but the would-be looters shoot each other—just "a slight case of murder."

'Snow White' Hit Moves to RKO Boston

Following a brief period of double features, stage shows will be resumed at the RKO Boston today with the theater offering Walt Disney's "Snow White and the Seven Dwarfs," direct from its record-breaking four-week engagement at Keith Memorial, and six big-time vaudeville acts headlined by Sibyl Bowan, Ziegfeld and Earl Carroll comedienne, on the stage.

Featured comedienne of the Ziegfeld Follies and Earl Carrol's "Sketch Book," Sibyl Bowan is internationally celebrated for her characterizations and impressions of celebrities.

Monroe and Grant, second headliners, are perennial variety favorites with their comedy trampoline offering called, "Go Ahead Charlie."

Other acts appearing on the bill are Ray Sax, the musical dancing trickster; Freida Sullivan, young and talented entertainer; Henry Dick, whirlwind rhythm dancer, and the Sinclair Six, novelty tap dancing sextette.

ROMANCE LIKE THIS COULD BE YOURS!

Jessie (played by Joan Crawford) was no different than a million other girls who dream of love and luxury.

She longed to get away from her tenement home—and when Eddie (played by Alan Curtis, new M-G-M star find) asked her to marry him, how could she refuse—even though it only meant a 3-room apartment?

But what should she do when she meets the rich Mr. Hennessy (played by Spencer Tracy, excitingly teamed with Joan for the first time) who falls madly in love with her?

"I'll get free of this time-clock some day soon! I want ease and luxury!"
"Come with me, Jessie. I'll take you away from the tenements! I love you!"
Fiercely, Jessie grasped at romance — with Eddie, who lived dangerously
"Why don't you let me take care of you? I'm wealthy—and I adore you!"

Judge O'Brien's Death Widely Mourned

Justice of Probate Dies Following Operation

Judicial and political circles today mourned the death of Judge Edward B. O'Brien of the Essex county probate court, who succumbed to the after effects of an abdominal operation in Salem Hospital last night. He was 67 years old.

One of the best known probate judges of the state, Judge O'Brien was noted for his disposition of [illegible] marital cases and many of his decisions were widely quoted.

A solemn high mass of requiem will be offered Saturday in the Star of the Sea church, Marblehead. Burial arrangements are being made by the dead jurist's brother, William F. O'Brien of Marblehead.

DAUGHTER AT BEDSIDE

Judge O'Brien's daughter Anne, a student at Trinity College in Washington, D. C., arrived home a few [illegible] before her father died.

News of his colleague's death was given Judge Harry R. Dow when he arrived at the Salem [illegible] house this morning. Judge [illegible] heard one case and then adjourned [illegible] until Monday because of the death.

The passing of Judge O'Brien has created a peculiar situation in Salem Probate Court, inasmuch as Judge Dow has sent his resignation effective at the end of March to Governor Hurley, leaving the court with two vacancies.

Judge O'Brien had presided in Salem probate court for five years and before that served as an associate justice in [illegible] district court [illegible] years. He lived on [illegible] street, Marblehead.

He was a [illegible] and [illegible] University Law School.

HELD TOWN OFFICE

He was a selectman of Marblehead [illegible] and [illegible], and three times attended Democratic national conventions as a Massachusetts delegate. He was a past exalted ruler of the Salem Lodge of Elks, a past president of the Marblehead Chamber of Commerce, a member of the Council of [illegible] and a past high chief ranger of the Massachusetts Catholic Order of Foresters. [illegible]

Surviving Judge O'Brien are his widow, Mrs. [illegible] O'Brien, and two daughters, Anne and Mrs. [illegible], wife of Essex County Assistant District Attorney James R. [illegible] of Nahant.

COMMENTS QUOTED

His most recent famous case was the "wife swapping" trial in Salem court. Some of the comments of Judge O'Brien now widely quoted are:

"Couples who don't disagree sometimes are hardly worth while."

"A slap in the face doesn't mean anything unless it is followed by something serious."

"Petty arguments happen in every home."

"Some women make mountains out of their husband's absence from home, but we'd all be found guilty if our absence were left to the imagination of some women."

LENDALL PITTS

Funeral services [illegible] were being arranged today for Lendall Pitts, well known artist of [illegible] France and Harvard graduate, who died in Phillips House of Massachusetts General Hospital here.

Born in Detroit in [illegible], Pitts attended St. Paul's School in Concord, N. H., and graduated from Harvard in 1897. He was an expert on color etchings and spent most of his life abroad studying art and paintings. He served with the Red Cross during the World War.

He is survived by his widow, the former Elizabeth McCord.

WALTER G. BARTON

Services were being planned today for Walter G. Barton, 58, president of the Back Bay Electrotyping Company, who died at his North avenue, Stoneham, home yesterday, three weeks after he suffered injuries in an auto accident. He is survived by his widow, his mother, two sons and two sisters.

DR. CHARLES CUTTING

News of the death of Dr. Charles Cutting, Newton physician for many years and formerly connected with the Boston Mutual Life Insurance Company, was received here from Los Angeles today. He was medical referee on the Pacific coast for many eastern insurance companies.

3-Year Search for Thompson Ended

The [illegible] search for [illegible] Zack Thompson, 31, [illegible] kept [illegible] with $10,000 in [illegible] checks today was at an end at [illegible].

J. Edgar Hoover of the federal bureau of investigation announced Thompson was held on charges of impersonating a government officer to defraud and unlawful transportation of a stolen automobile.

With the arrest Hoover disclosed that Thompson is under indictment in [illegible] states and that he allegedly used [illegible] different aliases in an unending stream of bad checks.

Thompson, who is married and lives in Branford, Ct., operated in New England in September and October, 1937, police said, cashing 18 checks in Massachusetts and Rhode Island.

Judge's Death Leaves Woman of 74 in Jail

The sudden death of Judge Edward B. O'Brien of Salem Probate Court has created an unusual situation in the case of Miss Mary McCarriston, 74-year-old Lynn woman now serving her ninth month of a contempt of court sentence.

Miss McCarriston was committed to Salem Jail last June for failure to comply with an order by Judge O'Brien that she account for a $12,875 estate left in her care by the late Mrs. Mary Davis, with whom she had lived.

Several fruitless attempts were made subsequently to have Judge O'Brien release her on the ground that she had believed the money had been left to her and that none of it remained.

Another motion was pending in Judge O'Brien's court when he died last night following an operation in Salem Hospital.

Today her attorney, Alphonsus C. McCarthy, said he will attempt to have the new petition heard by the other probate court judge, Harry R. Dow.

If this move is unsuccessful, the attorney will seek a writ of habeas corpus for her release pending hearing on petition for a new trial.

Boston Grocer Denies Sisters Of Zog 'Royal'

Claims Bishop Visit Is to 'Pull Chestnuts Out of Fire'

They may be the sisters of King Zog, but they're NOT royal princesses, and that's that, [illegible] Teko declared today.

Mr. Teko is a grocer [illegible] a center of [illegible] St. George's Albanian Orthodox Church. Mr. Teko is a former treasurer of the church. Mr. Teko is a [illegible] follower of the exiled Albanian bishop, Fan Noli.

But Mr. Teko [illegible] refused to become excited over the expected visit of the Princesses Maxhide, [illegible] and [illegible], who are coming here to try to make up with the Albanian people.

"I am an American citizen," said Mr. Teko. "I do not salute any other flag.

"I do not think Bishop Noli wants to see the Zog sisters.

"This Zog—he is not a 'royal' king. He is a soldier who made himself king. His sisters, they are very attractive. I have seen their pictures. But Bishop Noli, he is wise man. He is not doing anything. King Zog wants Bishop Noli to come back to pull the chestnuts out of the fire for him. I do not think King Zog's sisters will persuade him."

Mannequins, Here's Chance to Win Fame

GIRL About TOWN

By MARJORIE McBRIDE

Jane Satterthwaite is a Boston lecturer, specializing in personality. She doesn't take in as much ground as Dale Carnegie and some of the others, but she has some very interesting ideas on women who work and the qualities that cause them to succeed . . . or fail.

Marjorie McBride

By working women, she refers to business and professional women and artists as well as to girls in business offices. Too many girls, she thinks, are afraid of constructive criticism. It makes them wince and hate the person who gives it, instead of being thankful. Personal dislikes ruin the career of many a working girl. There's the feminine tendency to hate a successful rival instead of studying her methods.

Like men, she finds that a good many women get into a certain vocation without any thought beyond attending to immediate needs, which is human enough. Once in, however, she thinks a woman should set herself an objective, and strive toward it.

A girl with an inferiority complex can do her career as much harm as a young lady who is so superior she mistakes a pitiful little talent for genius.

Self-pity is another factor that hurts constantly. Mrs. Satterthwaite says [illegible] for the woman who [illegible] every time there [illegible] she doesn't [illegible] anywhere.

THIS Is LIFE

By ROBERT E. ROGERS

I had an opportunity the other afternoon to sit in on part of a conference of the Child Study Association of America Chapter 124, which held an all day meeting at the Brunswick. Four simultaneous morning sessions dealt respectively with the young child, headed by Mrs. T. Grafton Abbott; the child through Junior High School, headed by Dr. Eleanor T. Glueck of Harvard's School of Education; the adolescent through secondary school, headed by Dean Jesse B. Davis of B. U.; and youth through college age, headed by Mr. Herbert Sn[illegible], vocational guidance director of the Y. M. C. A. Then there was a luncheon after which I tried to sum up in my amateur non-expert way. The Institute chairman was Mrs. Louis Friederman.

Robert E. Rogers

The topic for the day was "Preparing for Adult Life—Guidance." That is to say the experts and mothers and teachers present were handling the latest stage of the American theory of education, which depends primarily on education as a means of bringing the environment to bear on the individual. The home and the public school having measurably failed, I take it, recourse is being had to other auxiliary agencies.

Health habits, happiness, education, ethics, social adjustment, leisure, vocation and marriage, these were some of the matters the speakers said in which expert guidance can help to supplement the inadequacies of the school and the home. (This, after, by the way, is my guess, not necessarily that of the other speakers.) From the luncheon resume the most interesting talk seemed to have been that by Rabbi Beryl Cohon of Temple Israel, which sounded not merely constructive but provocative as such talks should be.

Manners Heads Important List

I confess that I seemed in a majority of one when I remarked that of all the subjects for guidance discussed that which seemed to me least important or at least capable of fruitful results, was vocational guidance, the almost insurmountable difficulty of trying to help a youngster decide what he wants to do and how to arrive at his goal. But from the remarks of the ladies present I gathered that many of them considered this problem more important than any other. Perhaps the fact that the last six years have driven this problem home to us with unusual force may have much to do with it.

The subjects which seemed to me most suitable for guidance work from the standpoint of children's or youths happiness and success were, in order: Manners, Speech, the Three R's, the Ornaments of Living such as Music, Art, Literature and that sort of thing, Ethics (not religion, for one out of a hundred has any talent for religion or ethics), [illegible] relationships etc. and finally guidance in stick-to-itiveness, sprawl, as we New Englanders call it, gumption, or in other words energy, application, discipline and the like.

Many Women Hold Own Strong Views

One lady informed me that the Puritan was obviously coming out in me too strongly. To her the idea of law, order, duty and restraint, obedience, discipline did not seem to be proper subjects for guidance. Health and happiness, playtime and courtship seemed more popular.

I suspect, however, that the most useful and hopeful idea about such a conference was that the experts were only there to provoke discussion and arouse personal reactions in a large number of laywomen. It was the conference that mattered, the large number of mothers and heads of families (I say "heads" advisedly) who were there to hold on to the best advice and suggestion they could get about the best way of bringing up their children from childhood up to the critical age already looking forward to the responsibilities and opportunities their youngsters might have to face.

They knew for the most part that they were not doing the best job they could. They were inclined not to take what the experts said entirely at their face value. They wanted to weigh them and consider them in the light of their own particular needs and the needs of their children. That is what makes the twentieth century attitude toward these matters now profitable and effective.

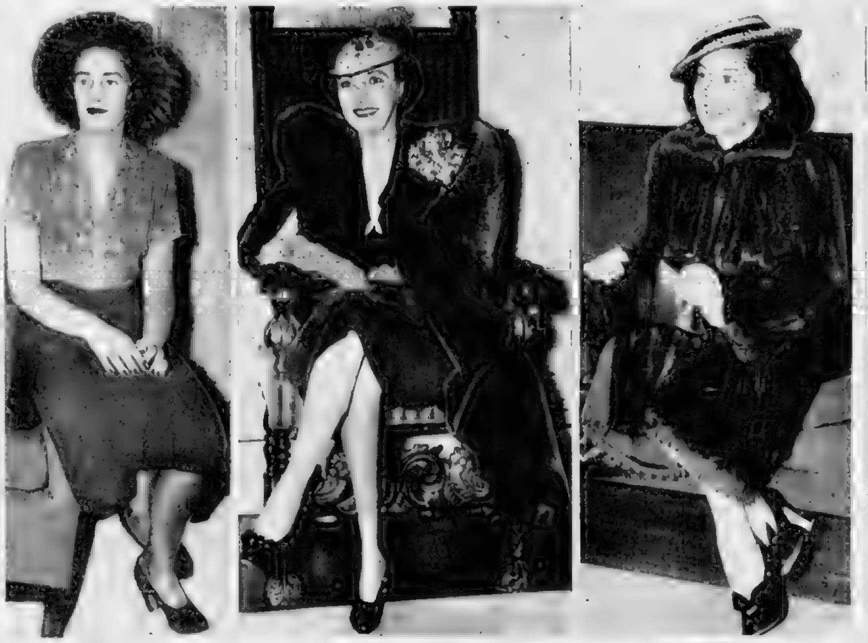
Beauty, Charm, Dress Cause Stir in Cushman Club's Contest



PATRICIA PHELAN — ESTHER DOROTHY — MRS. WESTON ADAMS

Candidates in the three divisions of contests that have been conducted at the Thursday morning lectures at the Charlotte Cushman Club. Today marked the third of the five gatherings at the end of which there will be selected Boston's "Most Charming Deb," Boston's "Smartest Dressed Business Woman," and Boston's "Best Dressed Society Matron." Miss Patricia Phelan, of Brookline is in the "Deb" battle. The business women group includes Miss Esther Dorothy, Mrs. Weston Adams of Beacon street is being considered in the best dressed matron group.

Too Many Wives Nets Dorchester Man 2 Years

The marital [illegible] court today when Judge Richard M. Walsh found him guilty of polygamy and sentenced him to two years imprisonment in the House of Correction.

Levine appealed, and was held in $2000 bail.

It was started when Clara Saffi, 34, [illegible] street, Roxbury, complained to Special Officer Harold Johnson of Mattapan station that Levine left her a year ago after 16 years of what she said she had been led to believe was married life.

"But he told me the ceremony we went through in St. Paul in 1922 was a fake," she said.

During their 16 years together she declared she had two children.

Officer Johnson investigated. He told the court today that he found that in October, 1937, Levine obtained a divorce decree nisi in Suffolk Probate Court—not from the Saffi woman, but from a Mrs. Levine living in Chicago.

Nineteen days later, without waiting for the six months' period of the decree nisi to expire, Johnson said he found, Levine married a Mrs. Jennie Albertson, 39, in Nashua, N. H.

It was for this marriage that Levine was arrested, charged with polygamy, and arraigned in court today.

All the children are living, and the newcomer will be named Thomas Vincent Macri.

Macri, employed by the Boston Elevated as a track cleaner, was resigned to an all-girl family when Thomas Vincent arrived and he has had little sympathy with Eddie Cantor's plaint that six girls had come to his family with no boy.

Link Fall River Gun to Killing

FALL RIVER, March 10 (AP)—A man accused of being an accessory after the fact of the murder of Louis Larochelle, 53-year-old liquor salesman, testified today that one of three men on trial for the slaying visited his home the night of the crime and "borrowed a sawed-off shotgun."

John Molinski, 27, said Gene Burns, 21, told him he wanted the gun to go hunting in Vermont with his brother-in-law. The others on trial with Burns are Stephen Tarsa, 21, and Tadius Makara, 21. Larochelle was shot to death during a liquor store holdup.

The morning after the shooting Molinski said his father found the gun under carpets on their piazza, and he tried to burn the weapon in a stove. Molinski's sister Helen testified that late on the night of the slaying she heard a noise on the piazza and saw Burns and Makara on the porch. They told her she said they would go away just as soon as police who were across the street left.

City May Spurn Big Slum Fund

City Councillor Robert G. Wilson of Dorchester announced today that he would introduce a resolution in the city council next Monday declining with thanks the Federal government's tender of $[illegible] for slum clearance in Boston.

This, Wilson declared, will be in line with Mayor Tobin's announced objection as to any housing project that will cost the city money.

Besides, Wilson said, the projected slum clearance program would result in unfair competition with Boston real estate owners.

Referring to Washington dispatches which state the $[illegible] for slum clearance has been earmarked for Boston, Wilson asserted:

"This would not be a gift, but merely a loan.

"To begin with, the city would have to put up 10 per cent of the initial cost of the project. Then we would have to put up 10 per cent of the initial cost of the project. Then we would have to pay off the balance of the loan over a 60-year period. Also the city would have to pay one-sixth of the operating costs of the completed project.

"Net results would be higher rents than the people, for whose benefit presumably the project is designed, could afford to pay. The rents would have to be materially higher than at Old Harbor, which is an entirely diffirent sort of undertaking."

CHAPTER 58

ON TH[illegible] same wet morning, Jase Cryder, whose wife was [illegible] cousin, woke to find his barnyard awash. Nine little pigs were drowned. Cousin Sally's little chicks were a soggy dead, yellow mass. Jase [illegible] Cousin Sally [illegible] hollered.

[illegible] so tired of the noise [illegible] a mile [illegible] to where the [illegible] their [illegible] hard [illegible] a new [illegible] swore all day [illegible] It was a [illegible] water, because [illegible] let them [illegible] made him [illegible] Ferris.

[illegible]

And [illegible]

[illegible] Jase [illegible] was [illegible] Colonel, a man might as well be killed fightin as drowned out. You was in the war—we figured we'd like nights well for you to lead us. But come hell or high water, Colonel, we goin tomorrer night. We kind o' countin on you, Colonel—you know about war. But we sure goin.

We [illegible] A hundred or more scared [illegible] Some had [illegible] A little before [illegible] the Colonel tired from [illegible]

The Colonel [illegible] "Halt!" he [illegible] "Get you some rest."

THE ONLY HOPE

[illegible] Parsons [illegible] the grass. "They are done," said the Colonel [illegible] "Can't march."

"Let's rest ten minutes," Tolliver Parsons said. "Then—"

"It'll be light then. The dark's our only hope."

"By God, I'd as soon fight as get what we're getting!"

Old Enoch Howitt slipped up afoot.

"They got 'em a sort o' breastwork about a mile up yonneh," Enoch reported "Fence-wiah, cut-down trees an' such, where the road goes th'oo the gap. Sharpshooters on the hills, both sides." He spat. 'Kind o' mess we used to fix up fo' Sherman's patrols, time we was coverin' Gen'l Joe Johnston."

The Colonel glanced back at the dark mass of [illegible] men.

[illegible] Parsons said. **"We've come this far—we've got to go on."**

The Colonel shrugged. He waved his arm . . . "Fo-o-ward!"

A DANGEROUS MOVE

A few got to their feet. Somebody said "Tell you what, boys! **It's goin' to take a mighty rapid miner to catch me goin' down this hill!"**

Somebody laughed, and another whined, **"What they tell me, them miners got these new-fangled telly-phones. I hear tell they can hear mighty near a mile!"** A few more got up. Several sat down again.

Under his breath the Colonel spoke to Tolliver Parsons. **"Thing's hopeless. Couldn't take a position like that if we had a hundred fresh men to their ten. But if you—All right, than!"**

He swung in his saddle. **"Come on, men—goin' to get 'em!"** More softly—"Come on, Howitt! You an' me, we've lived about long enough, anyhow!"

The reluctant, sluggish movement was [illegible] a movement at [illegible] And before [illegible] got started a muddy figure [illegible] the road.

"Kind of uninvited," said Jared. **"Guess you can use us, though, Colonel Ferris,"** he begged earnestly, **"no sense to it! Planned that barricade myself. Go with you if you're a-mind to but it'll be slaughter. Those telephone lines—half the crowd within 20 miles are waiting there right now!"**

JARED'S DEMAND

"Know it. 'F you want to come—come! 'F you don't get out o' my way."

"Not," said Jared grimly, **"till you listen to sense. Colonel, I've got [illegible] men here—landholders, who'll fight! If you'll make a demonstration here—draw off the guards, keep 'em busy in front; we'll sneak in behind and bring 'em out."**

And then, among the muddy quietly eager men, the colonel caught sight of the young flood-engineer from Marysville. He knew him. He had good connections. "State you' plan, sir," he said.

Some ten of them lay and sweated on a ledge above devastation. With the mine-guards largely drawn off by the excitement below, it had been fairly easy to get this far. Below was a raw gulch, cut by the scythes of water from the monitors. From beyond, out of sight, came a steady thump and roar.

"If noise was evidence," remarked the young flood-engineer. **"If you had evidence you can't convict up here. Got to get 'em down to the valley."**

The hitch was a twisted back [illegible] which wound down the gulch [illegible] on the pipe a black [illegible] holding a rifle. Jared swore.

"If he can sit on that pipe, it's evidence! You try sitting on a pipe with no water running through it in this sun, and see how long you'll sit! Burn a hole right through your britches!"

"And you try that as evidence," [illegible] **"and see how far you get! If we try to move down along the bluff, he'll see us. And one shot's the signal—there won't be any hydraulicking time we get there.**

If we rush him, somebody'll get killed. I'll chance it—but they'd hear the shot anyhow. Then all you've got up in these courts is accidental death."

Chang Lee came up [illegible] behind Jared and the [illegible] man.

CHANG LEE HELPS

Jared had said to Chang Lee [illegible] were [illegible] owed.

Jared knew nothing about Man[illegible] To him a Chinese was a Chinese. And Chang Lee knew nothing about Americans of the pioneer stock; to him a white man was a rather uneducated animal of dubious integrity and [illegible] age.

[illegible] he liked Jared, and Jared [illegible] Chang Lee.

"I can [illegible]

"You can not. I will take the man's rifle from him," he [illegible] **I will hurt him—not too badly. But he will not give warning. I know the way to do this."** He grinned and showed long [illegible] hands. **"Then, when I raise my arm—so—you come."**

Before Jared could argue he was gone.

They watched Chang drop into the gulch two hundred yards above where they lay, three hundred above the watcher. He ambled down along the black pipe. The watcher, sitting on the pipe, waved his rifle and a thin yell came up to the bluff. But he didn't bother to get up.

THE SHOWDOWN

Chang Lee came on [illegible] back figures. The guard [illegible] backward and [illegible] Chang Lee waved his arm. They came over like a waterfall. They started at the [illegible] guard [illegible]

[illegible] They came down [illegible] Monitors [illegible] Ten men [illegible] and the Lord was [illegible] the mine superintendent.

The foreman, being slow witted, [illegible] a gun and Jared [illegible] out of his hand.

They brought them out and around to where the ranchers were still making a demonstration. They roped them together. Jared, for some reason, found himself a hero. He tried to explain about Chang Lee. Nobody wanted to listen. And Chang Lee had disappeared.

Jared didn't feel like a hero. He felt even less like one as he helped herd the prisoners in the jail at Marysville.

This was war and it had to be done.

But these were good men doing their work, and a jail was a nasty place.

"D[illegible]" she repeated. "Why [illegible] the bay three miles away and [illegible] out with the [illegible] nice st[illegible] attached to his neck."

"But my father—" I protested weakly, although every instinct in me applauded her [illegible]

"Look here," she said with an admonishing forefinger. "[illegible] know that if your faith were here he would understand about Katie? Of course our kitchen chimpanzee had no business meddling with those papers—I'd like to lay a good hickory switch over her back with a ger—but you and I know as well as does the chief that she didn't mean any more harm than Scottie would if he'd pawed them over searching for a stray flea. If [illegible] Allen [illegible] you'd better turn him over to me. I'll kill him or cure him."

READY FOR ANYTHING

I rose to my feet with decision, refreshed of spirit, and ready for any difficulty, as I always am after I [illegible] the wonder weight [illegible] my side of any controversy.

"Where are you going?" she asked.

"To Miss Whitlock," I returned, "to arrange that balcony scene."

"Are you sure you're equal to it?" she asked solicitously.

"Yes, you blessed woman, thanks to you. I'm ready for anything," I returned.

"Allen would tremble in his well fitting shoes if he heard your tone," she returned. "But you'd better leave his discipline to me. He's a temperamental cuss, Allen, and if he should get peeved at you he might be unpleasant about Katie—as, of course, under the circumstances of her meddling he has a [illegible] to be. So remember, darling, emulate both the serpent and the dove in your dealings with him."

"I hope by 'serpent' you mean cobra," I said with a laugh as I went to the door.

"Well, thank heaven your risibles are in working order," Lillian returned. "I thought when you came in here you never would smile again."

NURSE ARRIVES

"I never intended to," I retorted, and went out of the room upon the word and down the corridor to Miss Whitlock's room.

She threw open the door at my knock and I saw that she was in full nurse's regalia, patently ready for action.

"I suppose you've come to arrange the details for taking Mr. Spencer out on the balcony," she said.

"Yes. What do you want to do first?" I countered.

"I'd better get him into the clothing he naturally would wear as a convalescent upon his first appearance out of doors," she said. "Where is he?"

"I'll send for him," I said, and hurrying out, sped down the back stairs to the kitchen, where I found Katie washing dishes.

"Katie," I began breathlessly, "will you—" then stopped abruptly as Lillian's admonition came to my mind. I had meant to send Katie with a message to Allen Drake—a request to come to his room to see Miss Whitlock. But I saw clearly that such a mission for Katie would be full of risks.

Mr. Drake might resent my sending her instead of coming myself for him, and in his resentment he might say something which would bring home to my temperamental household helper a hint of the suspicions Mr. Drake entertained toward her.

"[illegible]" Katie was [illegible] Mrs. [illegible] she [illegible] with a face full of concern.

Solve Problem Of What To Serve

By MARTHA LEE

What can I serve during Lent to take the place of meat? What can I serve at the luncheon that will be new and different, yet easily prepared?

These questions have a familiar sound. Who has not voiced them at one time or another in a despairing tone—for the problem of what to serve can become a perplexing one, and particularly so during Lent.

Eggs are the old standby for occasions such as these. Rich in proteins, minerals and vitamins, they hold a place of honor among foods. And when they are dressed up with cheese, mushrooms and a creamy sauce they make a dish fit for a king.

In Stuffed Eggs Mornay we have [illegible] a combination. Here's the recipe:

STUFFED EGGS MORNAY

- 8 hard-cooked eggs
- 4 teaspoons vinegar
- ¼ cup melted butter
- Salt and pepper to taste
- 8 large mushrooms
- 4 tablespoons butter

[illegible] eggs [illegible] in half lengthwise [illegible] and mash or puree. Add [illegible] melted butter and seasonings [illegible] until thickened and stuff into whites. Press two halves together. Clean mushrooms and [illegible] until brown and [illegible] cover and cook about [illegible] longer. Serve [illegible] and serve with [illegible] made as follows:

- 2 tablespoons butter
- Stems of mushrooms
- 1 tablespoon flour
- 1 cup milk
- ¼ cup grated Parmesan cheese.

[illegible] add [illegible] until [illegible] and [illegible] cook until [illegible] Parmesan cheese. Serves [illegible]

[illegible] a salad [illegible] meals.

Here are [illegible] combinations [illegible] as a tempting [illegible] main meal [illegible] a luncheon [illegible] supper. The [illegible] of each ingredient.

COCONUT CARROT SALAD

- 2 cups raw carrots chopped fine
- 1 cup shredded coconut
- ½ cup nut meats
- 2 tablespoons chopped nuts
- 1 cup pineapple tidbits
- 2 tablespoons glycerine
- Mayonnaise

Mix carrots, pineapple (well drained) and [illegible] Marinate with [illegible] Add coconut and enough mayonnaise to moisten. Place on crisp lettuce leaves and serve with more mayonnaise [illegible] which sprinkle the chopped nuts. [illegible] plays an important part in bringing out the [illegible] of each ingredient used in the salad.

CABBAGE SURPRISE

- 2½ cups cabbage shredded fine
- ½ cup diced pineapple
- 1½ cups diced red apples (not peeled)
- 1 cup seedless raisins
- 2 tablespoons glycerine
- ½ cup French dressing

Mix apple, raisins and pineapple together and add glycerine, blending thoroughly. Over this pour the ½ cup French dressing and combine all this with cabbage. Toss with fork until well mixed. Drain and serve on crisp lettuce.

CELERY AND FRUIT IMPERIAL

- 1 cup diced pineapple
- 2 cups diced celery hearts
- 3 cups diced apples (peeled)
- 1 cup broken walnut meats
- 2 tablespoons glycerine
- 1 cup mayonnaise

Have all ingredients well chilled. Add glycerine to apples after they are diced. Combine with nuts and pineapple. Add celery and mix all with ½ cup of the mayonnaise. Serve on crisp lettuce and top with remainder of dressing.

SALMON SALAD PIQUANT

- 1 tablespoon gelatine
- ¼ cup cold water
- 1 cup salmon
- ½ cup celery
- ½ green pepper, finely chopped
- 2 tablespoons olives, chopped
- Glycerine
- ¼ cup mayonnaise
- ½ teaspoon salt
- ¼ teaspoon paprika
- 1 tablespoon mild vinegar
- Few grains cayenne.

Drain salmon and rub pieces with glycerine. Pour cold water in bowl and sprinkle gelatine on top. Soak for five minutes. Dissolve over hot water. Remove skin from salmon and flake. Add salad dressing, fish, celery, pepper, olives, salt, vinegar, paprika and cayenne to cooled gelatine. Wipe out molds with glycerine and turn in salad. Chill. Remove to nests of lettuce and garnish with slices cut from stuffed olive, diamond shaped pieces cut from green pepper, celery tips and watercress.

St. Patrick's Sandwich Is Tasty

Martha Lee Suggests 'Hats' With Green Cottage Cheese

Sandwiches neatly formed in the shape of hats and covered with green-tinted cottage cheese formed a surprise St. Patrick's Day menu offered by Martha Lee, cooking expert, at the St. Patrick's Church cooking school in Cambridge last night.

Members of the Ladies' Auxiliary, Division 2, Ancient Order of Hibernians, sponsored the cooking school, held in Longfellow school hall, in cooperation with the Boston Evening American Sunday Advertiser.

The colorful sandwiches were an unannounced [illegible] the elaborate menu of dishes demonstrated by Miss Lee and her assistant, Mary Richardson.

ICED COTTAGE CHEESE

Round slices of bread with filling of tuna fish salad and tomato, covered with green hued iced cottage cheese and garnished with green formed the "hats" appropriate to a March 17 tea or supper.

The Boston American home economist suggested a Saturday night supper of baked shoulder, Dutch oven baked beans, cubed loaf tossed green bowl salad with French dressing, gingerbread shortcake or cranberry sherbert, and tea or coffee.

For a "quick trick" meal she showed how to prepare baked tuna fish with vegetables, oven cooked beets, lettuce salad with mustard mayonnaise, cottage pudding with lemon sauce and tea or coffee.

"WIMPY BRANBURGER"

Also demonstrated was a grilled dinner consisting of branburgers, broiled tomatoes, potatoes and bananas, molded cranberry salad, coffee chiffon pie and tea or coffee.

The branbergers were made by adding ground round steak to a mixture of egg, salt, pepper, milk and all-bran, forming into cakes wrapped with slices of bacon and broiling 20 minutes.

Mrs. Margaret C. Reardon was chairman of the committee in charge of the school. Other members were Alice McCarthy, Katherine Flanagan, Edythe Durkee, Christie Sullivan, Mary Burke, Margaret Brennan, Mary Hayes, Nellie Callahan and Ida Sullivan.

Listen, World!
Does the Foreigner Get Fair Deal?.

By ELSIE ROBINSON

DOES the foreigner get a fair deal in America?

Seventeen-year-old LAURA BUJNAROWSKI of DETROIT believes he doesn't. And millions of aliens—first peering carefully to see that the Relief Lady isn't around—will bitterly confirm the following letter. In fact, their bitterness has mounted until it has become a national theme song.

Here's your chance, as an American taxpayer, to see what your unnaturalized neighbor thinks of you and your Yankee ways.

"Dear Miss Robinson:

"Do you know how America seems to the poor European worker? America! The land of freedom and opportunity! America, where everyone is happy all the time . . . where there is always work and good pay and abundance for all!

"So the thousands come flocking, with this dream in their hearts—withered old people, haggard children, huddling into the steerage—flocking to the land of promise!

"Then, at last, the boat nears the shore. "AMERICA!" someone cries. They lean over the rail, tears in their eyes. The men crane their necks to see the place where they are going to become rich . . .

"So they land—and the trouble at once begins. They are questioned, shoved about, shouted at by officers. They are frightened, these Old World people. They cannot understand. It is a cold, merciless land. But they bravely endure it—and still they hope.

"But their hopes do not last long. Is this America? It can not be! The days are broken and dark. They are forced to live in cheap and dirty flats—in tall, close buildings where they get no sun. The food is terrible. They must work all the time . . . work and work endlessly through life . . .

"There is the life story of millions. Yet they courageously kept on. And eventually they made America what it is today. IF IT WASN'T FOR THE FOREIGNERS I WONDER WHERE WE WOULD BE TODAY.

"Laura Bujnarowski, 17 years,
"Detroit, Mich."

That's a sincere letter, child—and I'm touched by the loyalty and pity which inspired it. Yet it's also a muddled letter, unfair, untrue and ungrateful . . . AND EXPRESSING THE MOST DANGEROUS ATTITUDE AND ELEMENT IN AMERICA TODAY.

Before I proceed further, let me pay deep and honest tribute to those foreigners who DID help build America . . . who came to us with honest intention of becoming part of progressive American life . . . willingly bore their share of the burden . . . and gave us the priceless contribution of their dreams and culture and sturdy labor.

America has no finer citizens than these NATURALIZED foreigners—and it regards them with pride and gratitude. BUT—there is another side of the story, a far different side.

You wonder where America would be today without its millions of largely unnaturalized foreigners? We Americans also wonder? We'd certainly be in a far more prosperous condition.

For these other foreigners—"who craned their necks to see the place where they would become rich"—are anything but a pride and joy to the land they have battened upon. They came expecting to GET . . . but what did they expect to GIVE?

Millions of them have spent a lifetime here, sending a constant trickle of their gold "back home" without becoming citizens in fact or in spirit. They brought un-American filth, un-American vices, attitudes and habits and complacent ignorance.

AND FOR YEARS OUR NATIONAL TREASURY HAS BEEN DRAINED IN A FRANTIC EFFORT TO CLEAN AND CURB, HOUSE, FEED AND EDUCATE GREEDY ALIEN MOBS WHO SNEER AND DESPISE EVERYTHING THE UNITED STATES OF AMERICA STANDS FOR . . . AND WHO USE THIS NATION SIMPLY AS A CONVENIENCE.

You say the foreigner dreams of America as a place "where there is work and good pay and abundance for all."

America would be that kind of a place if it wasn't supporting on its relief rolls millions of people who contribute nothing, not even their loyalty to the hand that feeds them.

You grumble at the treatment your people receive here. BUT WHAT SORT OF TREATMENT DO YOU THINK ANY AMERICAN WOULD RECEIVE WHO APPLIED TO ANY EUROPEAN NATION FOR RELIEF FOR HIMSELF AND HIS FAMILY?

HOW LONG WOULD HE RECEIVE FREE FOOD, FREE MEDICINE, FREE EDUCATION?

WHAT TREATMENT WOULD THESE UNNATURALIZED ALIENS THEMSELVES RECEIVE IF THEY RETURNED TO THEIR BELOVED HOMES?

Think it over before you join again in the traitorous CHORUS OF THE PARASITES, child.

WIDOW'S MOURNING

DEAR MRS. BEECKMAN:

I used to think one should wear [illegible] I do.

WIDOW.

A widow usually wears black for a year. But nowadays she usually doesn't wear the crepe veil except on the day of the funeral. But this question of how long to wear mourning has become such a personal one that one really must decide for oneself what is preferable.

However, we shouldn't do anything that will cause unfavorable comment or make us conspicuous [illegible]

And a widow does wear her wedding ring . . . at least until she decides to marry again.

AUSTEN LAKE

Distinguished Oddity; Thumbnail Sketch of An Old Coon-Hunter

LAST SUNDAY, ON THE DAY he turned a ripe old 38, a little group of the Red Sox camp followers gave Lefty Grove a birthday dinner. It pleased the gnarled veteran and, as the evening waxed, he became just one of the boys, telling ball stories in his dry crackle and anecdotes about his youth in the high hills of Lanaconing, Md. For during the four years Lefty has been with the Red Sox, I have never heard him speak other than two subjects—his home and the game.

AUSTEN LAKE

Lefty may be older than 38. Some insist he is past 40. Yet in the press conference Joe Cronin admitted that "Grove must be regarded as our No. 1 pitcher until proved otherwise."

There are always three phases in Lefty's training period:

(1) The first two weeks when he has sudden gusts of gaiety and plays rough pranks like grabbing somebody by the slack of their skin and leaving red welts;

(2) The next two weeks when he lapses into moody silences and seldom laughs his airedale's bark;

(3) The last days in the Southland when he sulks in a corner, gnawing unlit cigars and burning holes in the air with his eyes.

This is due to the gradual transition in his physical condition. For, as he grows finer in body, he becomes more acid in nature. When he begins to snarl and quibble, Lefty is nearing top condition.

* * *

Driving, Fishing Grove's Only Luxuries

HE ALWAYS FOLLOWS [illegible] park [illegible] early and taking a [illegible] of [illegible] the little [illegible] games before [illegible] [illegible] and the outfield [illegible] and simmering under his green rubber shirt.

Once for five minutes each day he [illegible] up the heat and blows his fire ball at Moe Berg or Gene Desautels.

That is his final act before going into the locker shack and soaking in his own dew till the rivulets of perspiration run no longer.

The rest of his day is sitting or fishing, taking his expensive casting kit off to the Ringling Isles and standing on the bridge while whipping his leader far into the gulf waters and [illegible] out sea-bass large as [illegible].

Among his simple tastes he has two luxuries, his glittering motor car and his guns and fish rods which are the best money can buy. For Lefty has never lost a dollar in the stock market, never gambles or speculates. And when he retires, perhaps in another two years, he will have the income on an insurance trust worth $150,000.

To understand him, one has to know the background of his hill home in Western Maryland, where he always holes up between seasons. For he has a sincere devotion to his little crest on the Cumberlands, where his neighbors are typical mountain folk and everybody is cousin to his neighbor.

Lefty could hustle to Florida each winter if he wished and, like most other ball players, spend his leisure in sunny ease. But he has the mountain man's nostalgia for his home hills and an innate distrust for the social supercilities of tourist colonies.

Each day in training, for example, he rises at 6:30 and wanders the deserted streets or moons around the lobby. He calls this "coon hunter's" insomnia—perhaps the result of generations of early rising in his family.

When at home, he says, he rises with the moon, whistles his beagles to heel, hooks his gun in the crook of an arm and is off through the juniper groves for quail and wild turkey. He has a vegetable garden behind his frame house, which overlooks a steep valley, where a river winds like a silver ribbon, curving to appear again and again as a silken thread. He likes to putter there before sun up.

Is this strange?

Lefty has been exposed for a [illegible] crystal of major league hotels, the bustle of city life, the worship of large crowds and the glamour of [illegible] a National personage. He has money and fame.

Other farm boys having risen to riches and recognition in the major leagues have been quick and [illegible].

But not Lefty.

He has remained as untouched [illegible] and as suspicious of strangers as any of his [illegible] through the Maryland fastnesses and [illegible].

Picks His Teeth With His Tongue

I VISITED GROVE'S HOME several years ago, trekking up a finicular railway which grooved the cliffs and looked down on deep chasms.

The hills tumbled away to the horizon in a lavender haze. The shaft heads of coal mines poked above high mounds of black refuse.

At the top of a mountain there was a ramshackle town of Civil War vintage, where the houses leaned against the slope like weary hill climbers who had stopped to rest and stayed, forgetful of the little distance to the top.

Lefty picked me up at the station and drove me in his glittering motor around the angular streets where wind-weathered, unpainted houses lined the rutted road. We entered his home through the kitchen door where Mrs. Grove was plucking a hen. Lefty, in old whipcord pants, stained hunting jacket and high-laced boots, had hailed his stove-flushed helpmeet with "Hi-yuh Maw." And Maw had smiled frankly, drying her hands on her apron and shaking hands man-fashion.

There had been fried cakes, prune pie, roast of veal and slabs of corn bread for lunch, and Lefty had bent down to slup coffee from a thick crock, steering the spoon away from his eye and talking cheerfully through his food.

He was happier than I have ever seen him since. And after dinner he had teetered on his chair legs, probing his teeth with his tongue, gossiping baseball eagerly and puffing a black briar pipe.

He was cordial and contented, quite at contrast with the bleak tides which sometime sweep him in Boston.

This Spring he looks fit, lean and strong. His pitching stuff looks as good as it has been for several seasons and he thinks he should have at least two more years of top flight twirling.

It is nice to know that among the drab, business types of the Red Sox, he will again be a spot of vivid color and help us to brighten our essays by wavering between two poles of emotion—solitary sulking and violent hilarity.

Like old wine, he grows more savory with the years.

Casey Predicts Fast Win Over Samari

Steve (Crusher) Casey, new world's heavyweight wrestling champion, will make his first title defense [illegible] night against Seelie Samara, sensational colored heavyweight, at Boston Garden.

Since Casey toppled Louis Thesz, St. Louis youngster, from the throne at the Garden on last February [illegible] a test of one [illegible].

"I talked to Steve on the telephone," Jack Albright, his manager, said today. "He tells me he is in splendid condition and will knock off the colored fellow in a hurry.

"He will not workout today. Instead, I will hustle him to the home of his aunt, where he will remain in seclusion until time to go to the Garden tomorrow night."

Steve is more excited over this match than any he has had in this country including his title melee with Thesz. This, because he had drawn a [illegible] and was practically forced into the battle.

He declares he will make the colored fellow pay dearly for [illegible] he has [illegible] recent weeks.

* * *

Samara [illegible] workout at Jerry Buckley's gymnasium down in Friend street. He will be back there today, but his work will be light, as Jim McDonald, his manager, figures he is in splendid condition and doesn't want to risk last minute injury.

Samara was told to cut loose on [illegible] and that is just what he did. He bounced [illegible] around the ring like a [illegible] in a tropical hurricane and the [illegible] was [illegible].

After [illegible] Manager McDonald schooled Samara on holds to use on Casey and also drilled him on a defense to use against the champion.

Samara appears extremely confident he will beat Casey tomorrow night and win a clear claim to the world title, which he has been claiming many weeks.

Radcliffe Girls Enter Bowling Tournament

Radcliffe College in Cambridge [illegible] Evening American [illegible] third annual [illegible] bowling tourney picture with the receipt today of the entries of two of its student rollers.

During the course of the 13-day competition at Jack Stafford's Huntington Club (from March 26 through April 9) Misses Bennett and Badger of Radcliffe College will compete in both the singles and as a women's doubles team.

Their entries are first in from any New England college. However, they will have much fine [illegible] company before the entry lists close.

An announcement of prime importance is made today, that a guaranteed top prize of $100 will be presented the men's singles winner of the "open" division.

This, however, does not mean that the top prize is limited to such an amount. It does mean that regardless of the number of entries in this division, the "open" champion will receive $100, at least.

[illegible] as all "open" entry fees are returnable in cash prizes and that the winner of each separate "open" competition will get the big cut, it is possible that the [illegible] will get far more.

If there should be the very [illegible] number of [illegible] men's singles bowlers in this class there would be $500 to be split up [illegible]. More entries means more prize money returnable.

The entry lists continue to mount, and so do the prize lists.

Haymarket Hardware Company of 5 Washington street, Boston, today comes to bat with one dozen (12) fine electric coffe percolators which will make as many women contestants happy over their morning brew.

Haymarket Hardware was generous a year ago, and their new donation is a welcome addition to the ever growing awards.

Osty Believes Arm is O. K. | *Green Shines As Raconteur*

By BILL GRIMES

Bill Grimes

SARASOTA, Fla., March 10—Although he has not attempted to bear down, Fritz Ostermueller, who has been bothered with a sore arm for a year, believes the operation he underwent in January removed his trouble.

On the day the Red Sox broke camp here a year ago, Ostermueller was stricken with an acute pain in his pitching arm.

For a week or ten days previous he had felt a click in his elbow. He believed it was a muscle or tendon and thought it would soon disappear.

On the afternoon of the last day he attempted to take a full overhand windup, but his arm locked.

Even then he did not realize his trouble was of a serious nature.

During the season Ostermueller was not much more than a liability to the Red Sox. He was in 26 ball games but pitched only 37 innings, or about 3 full games. His record for the season was three wins against seven losses.

On a trip to Washington, Ostermueller went to a Dr. Larkin and had X-rays taken. The plates were sent to Dr. Edward J. O'Brien, the Red Sox physician. They failed to show any cause for the ailment.

At the end of the season Ostermueller went down to St. Louis from his home in Quincy, Ill., and had more X-rays taken. In the Mound City Fritz's arm was X-rayed from all angles, and finally one plate showed a bony growth about half the size of a thumb nail.

"Pepper" Martin of the St. Louis Cards had undergone identically the same operation as was recommended for Ostermueller. "Pepper" returned to the Cards' lineup three weeks after he had been under the knife.

Playing Pro Ball 14 Years

UNLIKE THE INCISION made on Johnny Babich's arm when the Bee hurler developed trouble in his elbow, Ostermueller has a scar of less than three inches.

Without severing a ligament, nerve or muscle, Ostermueller's elbow was opened and the bone growth removed. He carries it around as a souvenir, and it resembles a small piece of coral.

Before reporting to camp Ostermueller gave his arm a few tests. He dumped and leveled off 18 cartloads of cinders while making a driveway to his garage and 56 more while erecting a roadside vegetable stand.

After the first day's work on the driveway, Fritz admitted his arm was practically dead, but gradually the strength began to return and since then he has not suffered the slightest pain.

Ostermueller has been playing professional baseball for 14 years. Therefore, Manager Joe Cronin told him to arrange his own schedule for getting his arm into condition.

Since reporting Ostermueller has not attempted to cut loose. He warms up easily every day with Gene Desautels after he has had a diathermy treatment. In the afternoon he returns to the clubhouse for arm treatments from Win Green and another session on the machine.

• • •

Fritz Is No Bluffer

UNLIKE MOST PITCHERS who undergo arm operations, Ostermueller has not attempted to change his delivery in order to avoid straining or injuring his salary whip.

His delivery is exactly the same as it was before he came up with the trouble. There is absolutely no sign of a hitch or a kink in his arm, which seems to be very loose and even whippy.

"I don't know when I'll give my arm a real test," he told me today, while taking a diathermy treatment, "but you can believe me that I intend to find out before we break camp.

"I'm not going to attempt to kid myself or Joe Cronin by babying the arm. It will be given the old acid test just as soon as I feel that the muscles are strong enough to do their work. There's no use worrying, and that's one thing I'm not doing. I guess it's the 'left hand' in me. You know, we 'crooked arms' are a peculiar crowd."

As usual, Phil Troy, the dapper little road secretary, has the dogs [illegible] . . . Johnny Marcum reported here with a heavy cold [illegible] broke out in a sweat when Johnny Orlando charged him eight bucks for a rubber shirt. Orlando's prices can scare more than colds . . . Ed Nelson, Bear Hill, is at Payne Field every day to watch the Sox practice. Then he's off for the Bobby Jones Golf Club. Note to John Corcoran, M. G. A. state handicapper, "I'll report any improvement in Nelson's game" . . . Another golfer in town is A. J. "Duke" [illegible], Woodland. "Duke" is priming himself for the New England Senior Golfers' Association championship . . . Lindsey Deal, who was brought up from Little Rock, where he hit for .340, but wound up with a broken leg, is a graduate of Lenoir Rhyne College. He looks the part of a ball player and is coming along nicely under the treatments he is receiving from Win Green.

Frank Glynn, like Win Green, left the Bruins to come down here for a week's visit with his brother, Major Eddie Glynn, who has retired from the army. Frank has been busy day and night since he hit town. He goes fishing early in the morning, returning in time to watch the Red Sox work out and then back he goes on the Gulf to see if he can snare a king fish. Frank did not slight the Bees, for he went over to Bradenton and watched Casey Stengel's charges strut their stuff . . .

Freddie Stack, the Cambridge boy, is making a very favorable impression with everyone . . . He is the bat boy at Fenway Park and was sent down here to help Johnny Orlando. Freddie is a very quiet, serious kid and is doing a fine job. Unless you went looking for him, you'd never know he was with the club . . . Wes Palmer, Red Sox rooter from Rochester, N. H., is another favorite with the players . . . Mike [illegible] drops over from Bradenton every few days . . . George Dickey, who was sent to the Coast League by the Red Sox, came over from St. Pete, where he was visiting with his brother Bill, the Yankee catcher. George thought his checker game had improved to such an extent as to warrant a challenge to Tom Daly. But "Dalo" flattened him . . . Received a very curt message from Mary Lynch of the Red Sox office staff . . . It was an oversight, Veronica, and I'll guarantee it will not happen again. It seems that the girls were not mentioned as among those who saw the Red Sox off from the South Station in the blizzard . . . Frank "Mike" Higgins met Ben Chapman on his way to camp, and "Chappie" told him he has never felt so well as this spring . . . "Chappie" has had his tonsils removed, and the shoulder and arm pains which handicapped him every winter have disappeared. Chapman has been officiating in basketball games for Southern Conference teams this winter and is in great shape . . .

Win Green is the best raconteur in the entire crowd. After dinner, the boys gather around to listen to his experiences in hockey, in the navy, in Roxbury and as a musician. He puts on a better show than Keith's. Seats, within hearing distance of the "Old Master" are at a premium. If his audiences continue to increase, the picture houses will get after him, for the boys are passing up the "movies" to listen to "Win Green of Roxbury." He has been getting laughs out of certain players who have not smiled in years. He's so good that even A. Schacht is afraid to break in with any of his stories.

For three days "Greenie" was down. He didn't receive any word of the outcome of the Bruins-Chicago game in the Windy City. The first word was a card from Bobby Bauer from St. Louis stating that the Rossmen had not only lost the game but also Roy Goldsworthy. For a time, it looked as if "Greenie" might pack his bag and start home. Then came the bad news from Detroit. But the Ranger defeat saved the day.

INTRODUCING

Rookies With 1938 Philadelphia A's

OUTFIELDER HERBERT PALL BARNA, recalled from Albany where he batted .328 in 73 games. Barna, a Hungarian, starred in baseball, football and basketball at University of West Virginia, being an athlete who stood six feet two in his stockings, weighing 215 pounds. He reported to the Athletics upon graduation, last June, went to bat once with the bases loaded and two out and promptly struck out. Left that night for Albany. Upon being recalled, he batted .389 in fourteen games, two of his fourteen hits being home runs. Left hand hitter.

INFIELDER IRVING HENRY BARTLING, purchased from Henderson, East Texas League. Attended Michigan State College where he was a member of the Sigma Nu frat. Turned pro in '36 as a first baseman but shifted to third base last year. Batted .284 in '37. Hits right handed. Is a six footer and only twenty-one years old.

PITCHER RALPH S. BUXTON, purchased from Oklahoma City where he won 13 and lost 9 in 1937. Buxton was born in Saskatchewan but now lives in Long Beach, Calif. Had trials with Los Angeles but joined Oklahoma City in '36. Is a right hander, who weighs 164 pounds.

FIRST BASEMAN CHARLES EUGENE HASSON, purchased from Williamsport. Broke into the American League with a home run in his first time at bat. Played first base brilliantly for the Athletics in 28 games, not making an error and taking part in 31 double plays, five of which he started and finished. He batted .306 in those 28 games, his hits including three home runs. Gene is a 191-pound left hand hitter and thrower, standing six feet one. Will be 23 in July.

PITCHER WILLIAM KALFASS, purchased from Trenton. This young man (he is only 22) is built rather high, being 6 03½, weighing 190 pounds. Started to pitch professionally when only 18 but, when he failed to make the grade, quit two years. He won six and lost nine for Trenton, won one and lost none for the Athletics.

INFIELDER DARIO LODIGIANI, purchased from Oakland. Is counted upon to play second base for the Athletics this year. Dario, who has been with Oakland for two seasons, batted .327 in 1937, driving in 84 runs and making 35 doubles, 14 triples and 18 home runs. Stockily built. Weighs 160 pounds, five feet eight. Broke into pro ball under Oscar Vitt, now manager of the Cleveland Indians. Dario says he pronounces his name, "Load-e-johnny."

THIRD BASEMAN DOYT TEODORE MORRIS, recalled from Albany. Morris, a 21-year-old North Carolinian, who played with the American Legion, Jr., League and also at Wake Forest, is the tallest third baseman in captivity. Stands six feet three and a half inches in his bare feet and weighs 195 pounds. Batted .268 in 71 games at Albany.

OUTFIELDER WILLIAM BECK NICHOLSON, recalled from Portsmouth, Va., where he batted .302 in 121 games and made 20 home runs and drove in 92 runs. Nicholson, who took a B. S. degree at Washington College, is 23 years of age, weighs 195 pounds and stands six feet. He received a brief trial with the Macks in 1936. Bats left, throws right.

PITCHER NELSON THOMAS POTTER, bought from Columbus, Ohio. A right-hand hurler, who bats left. Weighs 180, and lacks one inch of being a six-footer. Attended Mt. Morris college and turned pro in 1932. Took part in 44 games for Columbus, winning 11 and losing 11.

SECOND BASEMAN STANLEY KENNETH SPERRY, purchased from Oklahoma City. A left-hand hitter. Has been playing pro baseball for five years since he quit high school in Evansville, Wis., where he was born in February, 1914. Put in two seasons with Eau Claire, one at Elmira, one at Hazleton and one at Oklahoma City. Batted .356 in 111 games last year, scoring 99 runs. Stands five feet ten and weighs 165 pounds.

CATCHER HAROLD EDWARD WAGNER, recalled from Portsmouth, Va. Wagner is a Duke University athlete, who also played in the Coast League. He caught 28 games for Portsmouth in 1937, hitting .268. Tall and slender.

PITCHER GEORGE ANTHONY WOODEND, purchased from Williamsport. A six-footer, who weighs 170 pounds, Woodend has had only two weeks' professional experience. Started out as a catcher, but numerous injuries to his hands caused him to shift to pitching.

Dog Races Stay, Repeal Ruled Off Ballot

Commission Decision Aided by Admission of Opponent

Massachusetts will have dog racing as usual this year, the State Ballot Law Commission today ruling that the New England Anti-Gambling Association petition to repeal the dog racing law shall not go on the ballot.

The petition has not sufficient valid signatures, it was stated by Thomas [illegible], chairman of the commission, after he had obtained a ruling from James J. R[illegible], first assistant attorney general.

A short time before, at a hearing before the commission, Dr. Edwin W. Hadley, president of the Anti-Gambling Association, admitted that there were not 20,000 valid signatures on the petition.

More than [illegible] witnesses who had been [illegible] were [illegible] It was said that their signatures were forgeries [illegible] as a result of the admission.

STATEMENT ISSUED

At previous hearings [illegible] witnesses testified that signatures purporting to be theirs on the petition were not theirs.

After he had received an opinion from R[illegible], the Ballot Law Commission chairman issued a statement in which he said:

"The Ballot Law Commission has decided the petition, an act repealing the law authorizing the licensing of dog races on which the pari-mutuel system of betting shall be permitted, shall not go upon the ballot, because of insufficient signatures.

"In reaching this decision, the commission was aided by an investigation and admission by President Dr. Edwin W. Hadley.

"The commission wishes to state that they have found no reason to blame the Anti-Gambling Association, Inc., or the responsible officers, for the invalidity of the signatures."

3 SUITS TO DIE

At the start of today's hearing, Dr. Hadley had told the commission:

"I wish in behalf of my association to make a statement that there are not 20,000 valid signatures on the petition and that an investigation does not show that the reason for the bad signatures on the petition lies in the New England Anti-Gambling Association, Inc., or in its members or officers."

Attorney-General Paul A. Dever said three cases now pending in the Supreme Court will be thrown out automatically as a result of the decision.

One is a petition to restrain the secretary of state from putting the question on the ballot, another is one to force him to do so and the third is a petition to declare the repeal petition invalid because of fraudulent signatures.

Dewey Joins U.S. In Whitney Firm Probe

Continued from First Page

Kurtz and the Securities and Exchange Commission.

Meantime Attorney-General John J. Bennett, Jr., chose to ignore for the time being Whitney's offer, in a public acknowledgement of wrong-doing, to come forward and tell all. Instead, he had his assistant, McCall, first build a skeleton of facts through witnesses. Highlights in their testimony today were:

Whitney gave his receipt on January 26, for $798,376.26 of securities delivered to him personally from the firm; a large part coming from customers' accounts.

If Whitney and his fellow-partners didn't have a "corner" in Distilled Liquors Corp., market price of which ran down from a $15 average paid by them to today's $3.87, they left only "a very reduced number of shares" for the trading public.

An auditor for the New York Yacht Club, of which Whitney was treasurer, hasn't been able, in two months, to get Whitney to let him count $125,000 of the club's securities which Whitney took without notice to the club.

PROBE STOCK TRADES

McCall's hearing today began with the testimony of Martin J. Keena, assistant secretary of the New York Curb Exchange, on which the Distilled stock is traded, who was called on subpoena. He testified there were 200,000 shares of the stock authorized and 148,750 shares outstanding.

"If I were to tell you a certain group owned 139,000 shares of this stock would you characterize that as a corner?" McCall asked.

"Not necessarily," Keena replied, "but the floating supply would be considerably reduced."

"But there would only be 9750 shares available for public transaction, and you don't think that a corner?" McCall asked.

"I say it's a very reduced number of shares," the curb official replied.

"It doesn't seem to me that you would need much more to have a complete corner," McCall said, to which the witness made no reply and was excused.

The common stock of this corporation—of which Whitney and another partner, F. K. Rodewald, are directors—has figured prominently in the Whitney investigation because of the controlling interest held by the broker and his partners. This stock, according to previous testimony, was purchased by the partners at between $9 and $42, or at an average price of $15 a share. It is currently selling around $3.87.

ACCOUNTANT TESTIFIES

The curb official was succeeded on the witness stand at the public hearing—which is being held in the attorney general's office—by Percy R. Herington, partner in the accounting firm of Jasper & Herington, who has charge of the audits of the accounts of the New York Yacht Club, of which Richard Whitney was treasurer.

It was brought out at yesterday's hearing that Whitney had caused to be delivered to him securities with a market value of around $125,000 belonging to the yacht club, without notice to the club.

Herington said he had been engaged for several weeks in trying to audit the accounts of the yacht club for the year ended December 31, 1937.

He was shown a list of securities—those which Robert J. Rosenthan, cashier of the brokerage firm, testified yesterday he had turned over to Whitney out of the yacht club's account—and identified them as property of the club.

"I have been endeavoring since the middle of January," Herington said, "to get an appointment with Whitney to count those securities. I have tried to see him at his office and have called his secretary numerous times but never was I able to see him."

The distilled liquors concern manufactures applejack brandy, cider and vinegar and has plants at Mt. Kisco and Lyons, New York, and Flemington, N. J.

ROSENTHAL RECALLED

Robert J. Rosenthal, cashier for Whitney & Co., was recalled to the stand after testifying yesterday. He identified several papers on Whitney's stationery, among which was a receipt signed by Whitney for stock he (Rosenthal) had turned over to Whitney to be placed in the Richard Whitney control account.

Yesterday Rosenthal testified that he couldn't recollect having received a receipt from Whitney for the stock. The stock was that of the Mary Stephen Baird account, in which the customer had an equity of approximately $130,000 and a debit balance of about $10,000. This stock was turned over to Whitney despite the fact it was supposedly segregated to protect the balance, the witness said.

BULLETIN

NEW YORK, March 10 (INS)—Robert J. Rosenthal, cashier for the bankrupt and suspended brokerage firm of Richard Whitney & Co., today admitted he already has testified concerning the firm's collapse before a New York County grand jury.

Trading Pace Slow From Opening

NEW YORK, March 10—Early rallying gestures in today's stock market failed to attract any large number of buyers and most leaders subsequently pared or cancelled initial gains running to a point or so.

Dealings were slow from the start and the ticker tape continued to move sluggishly near the fourth hour.

WALL STREET DEPRESSED

Wall Street was still depressed by the Whitney brokerage house collapse but it was believed no important selling was inspired by this development. The fear was expressed, though, that one result might be the tightening of the securities and exchange commission grip on securities firms.

Rails took a turn for the better in the morning as the somewhat disappointing freight rate decision was partly offset by hopes the forthcoming White House conference on transportation problems might bring help for shaky carriers.

Bonds and commodities shifted over a trendless route. The fall of the Chautemps cabinet in France and another break of the franc to a new 12-year low in terms of the dollar, tended to accentuate wariness in the financial sector. The French monetary unit eventually received support and moved up from its bottom level.

TIMELY TOPICS

Market followers found a grain of comfort in the survey of the Engineering News-Record which reported construction awards this week touched a new high mark since the final June week last year. The total was placed at 94 per cent above the preceding week and 96 per cent over the comparable 1937 period. Private building contracts jumped 230 per cent ahead of last week and were 170 per cent better than in the same week a year ago.

Clouding the picture was the Dun & Bradstreet figures disclosing bank clearings for the week ended yesterday recorded the 17th consecutive drop from the previous year's levels. The decline for 22 principal cities amounted to 20.2 per cent.

The French franc, at the beginning of foreign currency transactions, was off .02¾ of a cent at 3.15½ cents. Sterling was unchanged at $5.01¼.

Building Awards Highest Since June

NEW YORK, March 10 (AP)—Engineering construction awards for the week ended Tuesday were highest since the final week last June, and show a 94 per cent increase above last week and 96 per cent above the corresponding week a year ago, Engineering News-Record reported today. Private construction shows a 230 per cent increase compared with last week, 170 per cent compared to the week a year ago.

Commercial building volume, at its six-year peak, was primarily responsible for the gains over the preceding and 1937 weeks. Five large New York projects totaled more than $39,000,000.

Tells How Labor Tax Evils Create Boomerangs

By MERRYLE STANLEY RUKEYSER
International News Service Financial Writer.

NEW YORK, March 10—Changing conditions in the world of practical affairs create new selling themes. For example, the American railroads, with their admirable safety record for transportation of passengers, find a new selling theme in pointing to this record. The appeal would not have been there except for external developments, such as the accident rate on the highways and in the air.

EXCESSIVE TAXATION

Likewise, excessive taxation in most quarters has induced more lenient states, such as Nebraska, Nevada and Florida, to seek to profit from their tax status. Thus the principle of competition works among sovereignties as well as among men and corporations.

In still another field, labor troubles in some sections give more quiescent communities new talking points in their bid for industries. In the past, there has been some criticism of the tendency of lower wage districts in the South to bid away Northern industries.

But eventually the people of the South will recognize that the full potentials will not be attained until their economy is based on high living standards for workers. The trend there is already upward, despite the interruptions of depression periods and episodes of unsatisfactory prices for cotton.

Comes now the agricultural state of Nebraska to invite industries on the ground that here workers are industrious and not Bolshevistic.

The appeal here is not the low wage appeal, but rather the alleged political conservatism of workers in Nebraska.

Such selling efforts undoubtedly must be related to the labor excesses in Michigan, Ohio, Pennsylvania and elsewhere last year when the newer unions were aggressively on the march.

This type of appeal to employers would doubtless have been more timely a year ago.

EXECUTIVES NOT WORRIED

At present, business executives are not worried so much about unionism. They recognize that depression inevitably clips the wings of aggressive and militant organizers.

Nevertheless, the business leaders of Nebraska through the efforts of associated industries of Nebraska, to ballyhoo the statewide resources in men and things, emphasize that "Nebraska labor likes to work!"

The nature of the effort to compete with communities where unions have been less than lovely to management is revealed in the subjoined statement of the Nebraska interests:

"Nebraska's labor is a true partner to business—intelligent, alert, skilled and interested! The state's labor enjoys a good standard of living, is wisely and constructively led, is conservative and fair.

"Nebraska workers are inheritors of a proud pioneer tradition and marked by initiative, enterprise and self reliance. Living costs are moderate, rents reasonable and percentage of home ownership is high. Nebraska ranks second among the states in the literacy of its people, with many colleges and universities. The working man's wage is not confiscated by burdensome taxes. What he earns he may spend for himself and his family. To its high standards for labor Nebraska adds cheap power and fuel, fine transportation, a staple market, abundant raw materials, conservative tax policies."

"CONSERVATISM"

Our labor union friends will doubtless think that Nebraska is hitting below the belt in seeking to sell "conservatism."

Yet the important objective fact to remember is that excesses in tactics or in taxes in one community create opportunities for other places showing more forbearance.

That is the principle of competition at work.

It affects not only business enterprises, but there is competition also among commodities for the consumer's dollar and among geographical districts for investment of the savings of the people.

When conditions in one district tend to break down the enterpriser, other places see in the trend a new opportunity for them to grow.

AT&T Report Now Complete

Ready for Congress Next Week

WASHINGTON, March 10 (INS)—Chairman Frank R. McNinch of the Federal Communications Commission, which has just concluded a two-year study of the American Telephone and Telegraph Company, said today he "understood" the final report recommended the separation of the Western Electric Company from the A. T. and T.

Chairman McNinch, who conferred with President Roosevelt at the White House, said the report had been completed and would be submitted to Congress "sometime next week."

Tentative drafts of the voluminous document have been in the hands of members of the FCC for several days but, because of the pressure of other business, not all of them have been able to finish reading it.

The report, long awaited in business circles of the country, was two years in the making. It cost the federal government $1,730,000, and constitutes the most extensive federal investigation of a private corporation in history.

Beyond his statement regarding Western Electric, Chairman McNinch would say nothing of the report despite a barrage of questions after he emerged from his White House conference.

Next Rail Aid Step Pondered

Congress Seen Likely To Enact Helpful Legislation

By HUGH E. BRADSHAW

There is a great deal of conjecture in financial circles as to the next step that will be taken to aid American railroads. Some are of the opinion a wage cut will be sought by operators while others look to Washington legislative halls for relief.

We believe that current discussions of rail affairs overlook the very important hearings on the so-called long and short haul clause before the Senate committee on interstate commerce. And, strangely enough, it is not railroad management that brought the matter up. The National Industrial Traffic League made the proposal on behalf of the shippers in its organization. The Pettengill bill was introduced at the league's insistence and if passed will repeal the long and short haul clause. Expert testimony given to date is to the effect that both rail carriers and industry would benefit and shippers would still be fully protected in those essentials, for which the Interstate Commerce Act itself was designed, by remaining provisions.

• • •

Stripped of technical language, repeal of the disputed clause will mean that railroads will no longer be prevented from meeting competition at competitive points except at the price of reducing rates from, to and between intermediate points at which similar competition does not exist. Now competitive rates can only be made upon application, and after investigation by the commission. That means delay and railroad men say that if relief is granted it is at the expense of lost traffic and very often by the time it does materialize competitive transportation agencies have become so firmly entrenched it is difficult for rail carriers to recover the traffic.

• • •

FRENCH SITUATION

The markets and trade have enough worries at home to keep them in a state of unrest and now the French situation has taken a critical turn which adds to the uncertainty. Falling cabinets are no longer a surprise and can be tossed off in a matter of fact manner. But when page one headlines tell of riots denying the seriousness of the French political upheaval is folly. Facing the most critical emergency since the war, French statesmen are struggling to perfect measures which will save the franc, bolster the internal economic system and present a unified political front.

• • •

A new flight from the franc is plainly told by steadily falling exchange rates and London and New York will undoubtedly be chosen as the safest havens. Estimating the effect on these international markets is difficult at this time in view of their lackadaisical behavior and the spotty trade outlook. In view of such conditions we feel that fugitive francs will not be converted into stocks with the enthusiasm of one and two years ago.

• • •

NO BIG SELLING

One fact that cannot be denied in connection with recent markets is that bearish news does not bring out big selling. Rails have retreated to their bear market low but industrials still have a fair amount of leeway before they reach similar critical levels. If the latter can communicate some of their steadier influence to carriers, there will again be hope for at least a technical rally. However, we will do no buying until a clearer view of the future is possible. And by that we mean until corporate earning power in the first half of the year can be ascertained with a greater degree of confidence than is now possible.

New Rail Setup Roosevelt's Parley Topic

Will Receive Several Plans to Relieve Financial Stress

WASHINGTON, March 10 (INS)—Complete reorganization of the railroad industry will be the chief topic of discussion at President Roosevelt's railroad conference next week, it was indicated today.

The chief executive will receive several plans to relieve the financial stress of railroads and place them on a sound footing from RFC Chairman Jesse Jones and Senator Wheeler (D.) of Montana, chairman of the Senate Interstate Commerce Committee.

It was believed in informed quarters that legislation to help the railroads lift themselves by their bootstraps will not be forthcoming at this session but that the groundwork will be laid at the White House conference.

Railroad executives received the Interstate Commerce Commission decision permitting an increase in rates up to 10 per cent on some commodities with keen disappointment.

President Roosevelt has often expressed the opinion that many railroads were overcapitalized, that the duplication of facilities is wasteful as well as costly. On that score he sees eye-to-eye with Senator Wheeler whose committee has been investigating railroad finances for some time.

Proposes Broader Powers For ICC Over Rails

WASHINGTON, March 10 (AP)—Senator Wheeler (D.) of Montana proposed today that the Interstate Commerce Commission be given broad new powers over financial reorganization of the nation's ailing railroads.

Wheeler, chairman of the Senate's Railroad Finance Committee, embodied the proposal in legislation. He will discuss it at President Roosevelt's rail conference next week.

Declaring that many roads already reorganized once would have to "go through the wringer again," Wheeler said in an interview that unless the carriers eliminate much of their topheavy capital structure they can not hope to escape some form of public ownership.

Franc Breaks to New Low

NEW YORK, March 10 (INS)—For the third day in succession the French franc today established a new low, dropping 2⅛ points to 3.15¼ cents, the lowest since October 30, 1926. Their decline was accompanied by a slight decline in a few other currencies against the dollar as the pound and the Scandinavian currencies registered gains.

The further break in the French franc was due entirely to the resignation of Premier Chautemps' cabinet. The French official control refused to intervene to support the market until shortly after the resignation.

The pound gained ½ cent to $5.01¼, recovering part of yesterday's loss. The Scandinavian currencies were 1½ to 2½ points higher. But Dutch guilders lost 1 point to 55.89 cents. Swiss francs were ½ point lower at 23.20 cents, and Belgian belgas were off ½ point to 16.91 cents.

Bank Clearings Decline 20.2

NEW YORK, March 10 (AP)—Bank clearings for the week ended March 9 failed for the 17th consecutive week to equal the comparable 1937 level, Dun & Bradstreet reported today.

Turnover for 22 leading cities for the latest period amounted to $4,748,227,000, a decline of 20.2 per cent from $5,950,467,000 a year ago and a drop of $478,460,000 from the week preceding.

New York clearings fell to $2,982,188,000 from $3,815,767,000 in 1937, a decrease of 21.8 per cent. Turnover at outside centers of $1,766,039,000 registered a drop of 17.3 per cent from the comparable 1937 figure of $2,134,700,000.

Except for a gain at New Orleans of 22.5 per cent over a year ago, all other outside centers registered declines. The more prominent included Louisville 28.9 per cent, Boston 26, Pittsburgh 26, Buffalo 23.4, Detroit 22.3, Cincinnati 20.3, Cleveland 19.3, and Omaha 19.1 per cent.

Chicago clearings of $257,300,000 represented a loss of 18.4 per cent from $315,200 last year.

Exchange Amends Proxy Rules

NEW YORK, March 10 (INS)—The governing committee of the New York Stock Exchange today announced amendment of the proxy rules to clarify conditions under which member firms may vote proxies in stock not in the members' possession or control.

The rules were also clarified as to the power of the committee on securities to require members to transfer stock held by them in their own name or name of a nominee sufficiently in advance of a stockholders' meeting to facilitate independent solicitation of proxies.

Sees Some Comfort In ICC Rail Ruling

B. C. Forbes Not Alarmed; Says Half a Loaf Is Better Than None

By B. C. FORBES

I cannot take an alarmist view of the attitude or action of the Interstate Commerce Commission as revealed in his week's rate ruling.

Practically all commissioners recognize that our railroads need more generous treatment. They also indicate that further applications for better rates may be submitted.

The increases granted at this time might well have been substantial. But half a loaf is better than no bread.

Should motor transportation rates be raised, as is probable, the way should be paved for readjusting rail rates upwards in the not distant future.

It is significant that investors throughout the country accepted the I.C.C. decision calmly, as reflected by the absence of wholesale dumping of railway stocks or bonds on the New York Stock Exchange yesterday. This interpretation of the likely effect of the new ruling seems entirely sane.

TRAFFIC GAIN NEEDED

What the railroads need most of all, is a greatly increased volume of traffic. But, of course, they have no control over this.

As a matter of fact, railway managements have extremely little control over the great bulk of their expenses, any more than over the amounts they can charge for carrying either freight or passengers.

Take wages. The railway unions are perhaps the strongest in the whole country. They have succeeded, over the years, in bringing about repeated additions to their pay, until they are today among the best-paid class of workers in America. Incidentally, they are among the best-paid of America's wage earners, loyal, efficient, industrious, law-abiding, courteous.

This century our railroads have been more thoroughly under regulation than any other industry. The Interstate Commerce Commission, an entirely independent body, has laid down the law, to the most minute detail, to management. So have many state commissions. Rules and regulations have extended all the way from the size of train crews to the famous order that two trains approaching a railroad crossing are both to stop and neither one to move until one has passed the other!

In other words, railway operators have had no authority to fix the charges for their services and scant authority over major costs. Year after year the average revenue per ton-mile of freight and passenger mile has been forced down. Note these figures:

Year	Freight Ton-Mile (Cents)	Passenger-Mile (Cents)
1921	1.275	3.086
1930	1.063	2.717
1931	1.051	2.513
1932	1.046	2.219
1933	0.999	2.013
1934	0.978	1.918
1935	0.988	1.935
1936	0.974	1.838
1937	0.937	1.783

WORST ENEMIES

The worst enemies of railway prosperity have been tax leviers. Notwithstanding that there has been a decrease rather than an increase in recent years in America's total railway mileage, taxes have been going up alarmingly, especially in the last two years. For the five years 1932-36, inclusive, taxes have totaled the staggering sum of $1,321,044,411, whereas during the same period dividends have totaled less than half as much, $617,613,817. Here are detailed figures:

Year	Dividends	Taxes
1932	$ 92,354,322	$275,135,399
1933	95,725,783	249,623,190
1934	133,418,896	239,624,802
1935	126,282,306	236,944,985
1936	169,832,510	319,716,035
1937		325,689,094

Surely, it is not sound governmental policy to impose heavier and heavier taxation on an industry which admittedly is in a precarious condition—one-third of our railway mileage is operating under bankruptcy.

Especially illogical and vicious is the tax treatment inflicted upon railroads when it is considered that adequate, efficient rail transportation is absolutely essential to keeping the nation functioning, that without rail transportation starvation would quickly overtake the greater part of the population, and our whole civilization, as now constituted, would collapse.

Tax relief is as urgently needed as rate relief.

B.&O. Asks Loan Approval

WASHINGTON, March 10 (AP)—The Baltimore & Ohio Railroad asked the Interstate Commerce Commission authority today to use $2,233,000 of Reconstruction Finance Corporation funds for maintenance during March and April.

The RFC some time ago announced a $6,000,000 loan to the B. & O. for maintenance and materials during January and February and in addition agreed to meet $2,233,000 or equipment trust maturities.

The B. & O. met the trust maturities without RFC aid.

The RFC presumably has agreed to use of the $2,233,000 for maintenance, subject to ICC approval.

Use of funds for maintenance, the railroad said, will permit continuation of a maintenance employment schedule of approximately 3,000,000 man hours.

TVA Mess of Conflicting Purposes

Much Chance for Dishonesty, Says Haney

By LEWIS HANEY

(Professor of Economics, New York University

Special to the Boston Evening American.

NEW YORK, March 10—What does all this TVA controversy mean? What importance does it have to you and me as citizens, voters and taxpayers?

In the first place, it should forever kill any notion we may have had that "the government" is some great and beneficent power which skillfully watches over our best interests.

What we see is a personal squabble. Mr. Roosevelt appointed three persons, making Dr. Morgan chairman. Mr. David Lilienthal evidently is one who tends to be radical and insubordinate; but Mr. Roosevelt "strings them along," now making one think that he is on the top of the world, and now the other.

Why is the thing coming to a head so tardily? The headlines say: "President Is Stern." Why has he smiled so much before? Now he is going to make an investigation, and get the facts! What facts doesn't he already know? If there are any, where has he been?

My point is that when you scratch "the government," you find a man—some person much like yourself. And he doesn't know what is good for you as well as you do. Above all, he doesn't have any money to spend except what he takes away from us.

FACTS FOUND

The list of facts I find, without any window dressing, or stage "investigation" are as follows:

First, the TVA is a mess of conflicting political purposes. It is supposed to do at least seven things:

1—Nitrates for war munitions.

2—Phosphates for peace fertilizer.

3—Navigation.

4—Flood control.

5—Electric power.

6—Political power.

7—A "yard stick."

Which is predominant? That depends on what your politics are, and where you live, and whether you have any money or not.

But at least three things are sure: Navigation will amount to nothing, the yard stick notion under political bookkeeping is a fake, and all of us (through "the government") will lose a great deal of money.

How long are we folks in Boston, New York, Baltimore, Pittsburgh, Los Angeles and San Francisco going to pay the bills in the Tennessee valley?

Second, there is as much chance for dishonesty, greed, and privilege inside the government as outside.

Third, there is much less chance to regulate the enterprise effectively when it is run by "the government" than when it is under private management. In this case, Lilienthal is a presidential appointee, and the TVA is a new deal brain-storm child. It is proposed to turn the inquiry over to the Federal Hrade Commission, which is also appointed by Mr. Roosevelt. Political whitewash is all round, we see!

MANAGEMENT SCORED

Fourth, much of the trouble lies in lack of clear and definite purpose. The management doesn't know what it is there for.

Fifth, there is no test of efficiency. The thing is founded on government credit and taxes. All losses will be charged to flood control or something, and be paid out of taxes or currency debasement.

Sixth, it is clear that such government ventures lead to authoritarian or dictatorial government. And it is equally clear that democratic government should stay above business.

Can you imagine good old Senator Norris running a successful business?

Consol. Edison to Issue Bonds

NEW YORK, March 10 (INS)—Consolidated Edison Company of New York is planning to issue $60,000,000 of new debentures to refund an outstanding issue of 4½ per cent gold bonds of '51, Floyd L. Carlisle, chairman, revealed today. Last October, the company had filed an issue of $80,000,000 debentures, which, because of unfavorable market conditions, was reduced to $30,000,000.

The new debentures will carry an interest rate of not more than 3½ per cent. Its underwriting syndicate, it is understood, again will be headed by Morgan Stanley and Company. The issue will be sold in one or more series and would fall due between April 1, 1953 and 1963.

The Consolidated Edison refunding program begun in 1935 has so far resulted in issuance of 290 millions of securities, used to redeem 220 millions of funded debt and to pay for capital expenditures. Although aggregate debt was increased, the financing effected a reduction in fixed charges and extended the maturity of a large part of the debt. Total funded debt aggregates $298,210,000.

Member Banks

NEW YORK, March 10 (INS)—The statistical survey of the Federal Reserve Bank of New York showed today that member banks in the Second Federal Reserve district in 1937 had larger gross income from loans than from investments, for the first time in the past three years.

HERE ARE THE RULES

"NAME THE MOVIE STARS" consists of 49 pictures containing the scrambled names of movie players. This game is open to all bona fide residents of New England—except employees of the Boston American and Boston Sunday Advertiser and members of their families.

A picture containing the scrambled name of a movie player will be published every week-day in the Boston Evening American until 49 have appeared. Rearrange the letters in each picture so that they spell the name of a movie player. Use every letter in the picture. Write or print the name on the line allotted, or on a piece of paper. DO NOT SEND IN SEPARATE PICTURES! Save your answers until you have a complete set of 49!

Send your completed solutions by FIRST CLASS MAIL to "Movie Stars," Boston American, P. O. Box 866, 5 Winthrop Square, Boston, Massachusetts. A letter with your name and address must accompany your entry. This letter must also include not more than 50 words on who is your favorite movie star and why. Letters will be considered only in the cases of ties in naming these stars. All entries must be in the Boston American office by midnight, 10 days after the last picture No. 49 has appeared.

Entries will be judged by a committee chosen by the Boston American. All entrants agree that the judges' decisions must be final. Prizes will be paid to the persons sending in the nearest correctly solved and complete sets of unscrambld names. Neither elaborateness nor handwriting will be considered in making the award. In the event of a tie between or among two or more entrants for any of the prizes, the prize or prizes next in order will be combined in a lump sum and then evenly distributed among those tying.

NO ENTRY FEES! NO "PLAY-OFF" SERIES!

NATIONAL USED CAR EXCHANGE WEEK

DRIVE A BETTER CAR

Once in a blue moon, price situations occur which make it bad business NOT to buy. THIS is one of those times. The used car situation here is unusual. Automobile dealers are taking unusual steps to solve it. National Used Car Exchange week is not "just another sale." Values are exceptional. Prices are way below those of several months ago. Consider only your own interests—and you'll KNOW you CAN'T PASS UP THIS CHANCE to get a BETTER CAR WITH MODERN FEATURES AT A ROCK-BOTTOM PRICE.

THURSDAY, MARCH 10, 1938

+ + *Let no man espise thy youth; but be thou an example to them that believe in loe, faith and purity.*—I Timothy IV., 12. + +

The text for today is suggested byhe Rev. Charles F. Westman, St. John's Church, Franklin. The next text will be suggted by the Rev. Dr. Raymond Calkins, First Church, Cambridge.

The Editor Says:

"True religious liberty is found only in democracy."—*William Randolph Hearst.*

AN IMPRESSIVE temple of religion, "offering all the living religions of today the opportunity to demonstrate their contributions to contemporary life," will greet visitors to New York's World Fair of 1939.

In this temple all churches and religions will be EQUAL.

They will not be required to conform to any dictate of man or state.

Their only conformance will be to the principles they teach, and the FAITH they exemplify.

What more COMPLETE FREEDOM of religion could there be, and WHERE CAN IT BE FOUND other than in American democracy?

Certainly the suppression and OPPRESSION of religion under other forms of government give the substance of ineradicable FACT to Mr. Hearst's assertion that "true religious liberty is found only in democracy."

IT MUST FOLLOW, then, that Mr. Hearst is also right in his belief that the CONTINUED freedom of religion depends on the PRESERVATION of democracy.

In his remarkable editorial calling on all churches to UNITE IN BROTHERHOOD "to keep the nation democratic and the churches free," Mr. Hearst said:

> **"To maintain religious liberty in democratic nations, and to re-establish respect for religion and tolerance for all religious worship throughout the world, is so great an objective that all churches should unite to accomplish it."**

How can any form of liberty survive if those who are the beneficiaries of liberty will not DEFEND it?

Surely the churches, which contribute valuably to American life because democracy GIVES THEM FREEDOM to do so, have the obligation which Mr. Hearst emphasizes to LEAD THE DEFENSE of democracy.

BUYING CREATES JOBS

"Heads of the nation's steel industry regard National Used Car Exchange Week as a period for the creation of new jobs."—*Boston Evening American.*

The perpetual circle that we call business begins and ends at the point called "buying."

Whether it is Mrs. Brown who buys a mutton chop or whether a manufacturer buys the year's output of a nation's mines, they both set in motion a never-ending process that we know as prosperity.

This is nowhere so evident as in the automobile industry. There is hardly a contrivance made by man that so well sums up and contains in itself all the products of technical civilization. Wool, porcelain, steel, rubber, glass, paint; engineering and the arts, are all embodied in the automobile.

The modern automobile is built to run an equivalent of at least three times around the earth. There is economical and dependable transportation in cars that have not covered this mileage.

This week has been set aside to emphasize this fact, to call attention to the value in good used cars sold by responsible dealers.

The consumer who buys such a car does himself well in terms of comfort, efficiency, pleasure and economy.

He also helps to stimulate and encourage a great industry upon whose welfare and prosperity depends an important proportion of the well-being of business as a whole.

Everyone is the gainer, and none the loser, when a good used car is bought.

BLACK LIST APPEARS

"You are on a black list. You voted against the bill which created this department, and other Senators who voted against the bill are also on the black list."—*Reputed declaration of Government official to Senator King of Utah.*

Two outstanding Democratic members of the Senate, King, of Utah, and Bailey, of North Carolina, say they have been victims of bureaucratic reprisals and blacklisting for adverse votes on Administration measures.

Both resent the amazing ARROGANCE of officials who "usurp a power that is not theirs."

Both WARN CONGRESS that such usurpation is only a sample of what is to come if Congress cedes its powers to the Executive Department as the pending administrative reorganization bill proposes.

Not only will the subjection of Congress to bureaucratic authority and arrogance be complete under this measure.

But there will be SUBJECTION OF THE PEOPLE as well.

As Senator Bailey declares, the Department of Welfare contemplated by the bill WITH TWO AND A HALF BILLIONS A YEAR TO SPEND and THREE TO FOUR MILLION PEOPLE ON ITS ROLLS will mean "that the last chance to have a free election in America WILL BE GONE."

The blacklisting of Senators and Congressmen for their honest and conscientous votes on vital public measures is a shocking perversion of free government.

The BLACKLISTING OF THE PEOPLE by arrogant bureaucratic authority would be the END of free government.

Intercepted

Many a wage earner asks himself sadly: "Why doesn't my money buy more things for my family?"

Here is part of the answer—

TAXATION—direct and indirect, local, State and national—extracts a fifth of the average family's income.

Thus, a big share of the wages which Industry passes to Labor is intercepted by the politicians who write the tax laws and spend the proceeds.

The Voice of New York

By *Louis Sobol*

NEWSPAPER offices have few superstitions, but there is one big hate. Of and against whistlers. I am a whistler-hater and the fellow across the hall using his pipes right now on a popular torch dirge is being hated by me in upper and lower case, one column wide. If I knew him well enough to be on speaking terms with him I should like to tell him the story of the late publisher, Lord Northcliffe, and the kid who whistled past his office one afternoon.

"**Hi, you, boy,**" stormed the publisher. "**Draw your pay; you're discharged.**"

"**Can't fire me,**" retorted the boy. "**I work for Green & Dixon, the brokers.**"

"**What do they pay you?**"

"**Twelve bob a week.**"

"**You start work for me tomorrow—20 bob a week.**"

The whistling boy reported promptly the next morning. The publisher smiled a benign smile. "**You work for me now, son, is that right?**"

"**Yes,**" said the boy.

"**Good,**" snapped Northcliffe. "**You're fired!**"

There is a gentleman in the employ of a railroad system with the soul of a poet and the divine touch of an inspired artist. Anonymously he labors with hands and heart guided by love of the beauty of the great outdoors and his creation is on exhibition, day and night, in the mezzanine overlooking the vast tabernacle we call Grand Central Station.

Currently it is a winter scene in the hardy upper reaches of the north country. Girls and boys on skis—a dog-sled about to take off—a snug cabin hinting of ineffable comfort within—a snow-bound village in the distant hills and, above all, a canopy of frost-dripping sky-blue letters spelling out the name, "New England."

The urge is to buy a ticket at once and train up to the inviting North until you recall the disheartening giggles of observers the one and only time you tried to take on a pair of skis. The vague yearnings churning in that restless breast of yours subside and there is comfort in the foreknowledge that shortly the same artist will substitute a new scene—the great outdoor lure of New England and its summer-calm lakes and verdant hills.

Brieflets: Mary Roberts Rinehart does most of her writing in long-hand on an ironing board...Octavius Roy Cohen submitted more than 300 stories to the Saturday Evening Post before it accepted the first of his famous Negro yarns...Jascha Heifetz rarely touches the fiddle when his friends assemble at his house—but with a little urging he will puff away at long symphonies on a harmonica...Producer Guthrie McClintic and his wife, Actress Katharine Cornell, have been seen together at an opening only once in two years...Novelist Carl Van Vechten insists he's too absorbed in his photographic forays and research to do any writing...In a letter, Eugene O'Neill writes: "**I shudder when I think what might have been my destiny if I hadn't fl nked in English.**"

During the California flood-turmoil, Paula Stone telephoned from New York to her father, Fred Stone, in Hollywood, anxious to know how the family had fared during the deluge. "**Fine,**" came back the excited answer. "**I'm able to do my neckspin again.** The veteran comedian-dancer was referring to one of his famous stunts which he was forced to abandon after his crackup in a plane ten years ago.

Occasionally my route to the office takes me through the squalid little Cherry Hill section. Once it was a vast orchard with prize fruits, but one by one buildings intruded and finally it became notorious as the hanging-out place of gay young cutthroats. One gang of them was named "**Daybreak Boys**" and a dozen of them were erased by the bullet and dagger in a single year.

Another happy group was the Border Gang and rivals were the Hook Gang and the Short Tails—all merry lads with a song on their lips, a leer in their eyes and murder in their hearts. Here there was a saloon naively labelled Slaughterhouse Point, at James and Water streets, where ten murders were committed within half that many months.

A common practice, I am told (or perhaps I have read it), was to attack an innocent passerby, shower him with ashes, drag him into a cellar, strip him; haul him back naked to the street and then grind heels into his face and stomach as a gentle reminder that he had met some of the "**boys.**"

The Marry-Go-Round

MIXED GRILL

To most girls, a new romance is as necessary every spring as a new hat or a new permanent.

What is the sweetest word in the English language? The expressive little word "WE"—as most brides and grooms and all lovers will agree.

Perjury becomes just second-nature to a woman after a few years of trying to run her household on a budget. If she isn't fooling herself about how much she's spending, she's trying to fool her husband about how much she's saving.

It may take ten minutes to coax a man out of bed in time to get to the office; but it's astonishing how promptly and alertly he springs up in order to keep a morning date at the golf club.

The symptoms of the spring fever and of the love fever are so much alike, in the average man, that he is in danger of skidding all the way to the altar before he discovers whether it is his heart or just his pulse which is causing the vertigo.

It may be only her imagination, but when a woman is struggling to drive a car through traffic, it seems to her that every man glares at her with that "woman's-place-is-in-the-home" expression.

When you see how many buttons, button-holes and patent fasteners it takes to hold a man's clothes together, and reflect that a woman's clothes are held on by a little faith and a couple of baby-ribbons, you sometimes wonder which is the "logical" sex?

Most husbands lead a regular life—if being regularly late for dinner, regularly rushed at breakfast, and regularly out on Saturday night is what you mean.

Human Side of the News

By *Edwin C. Hill*

IT IS perhaps necessary that the Dionne quintuplets should be scientifically and experimentally little guinea pigs for the psychologists, social scientists and progressive educators.

Fortunately, Dr. William E. Blatz, chief observer in this unique laboratory, maintains a tactful aloofness and lets the little girls search out their own personalities in their own way.

Dr. Blatz is director of the St. George's School for Child Study, of Toronto, which seems to be the official clocker for the little Dionnes in their personality workouts. A current dispatch sums up their observations to date.

The report is mainly what all parents know—the quins are as different from each other as you could well imagine from a blood relationship so close. There is a go-getter among them, there is a "social lion," a shy and meditative little girl, and they divide into conformists and one strong-headed non-conformist.

"Goodness knows she didn't get that from her parents!" Multitudes of parents have said that. John Watson, psychologist of Johns Hopkins University, thought he had the answer to the mysterious character and personality differences of children of the same family and the same environment.

It was due to some subtle, varying influences of their first few days. Catch them when they are a day old and give them exactly the same conditioning and environment from then on, and any two or more children in a family will be alike in mind, personality, taste and capacities. That was his view.

Dr. Watson's earlier books on this subject made a great stir, and he was the pioneer of the Behaviorist School of Psychology in this country. It based everything on environment and virtually nothing on heredity. Dr. Blatz, in the above report, said the studies of the Dionne girls were being made to throw new light on "the time-worn problem of whether heredity or environment is most important in the development of personality."

There is a larger but less happy laboratory than the Dionne nursery in which this "time-worn problem" is being tested—Soviet Russia.

The late Ivan Pavloff, Russian founder of the Behaviorist school, later advanced by Dr. Watson, was given a laboratory by the Bolsheviks, a sum of 500,000 rubles and told to study the problem of whether it would be possible to recondition an entire nation, in a pattern of fixed thinking and conduct.

Without waiting for his finding, they began what was undoubtedly the most sweeping and elaborate mental and emotional standardization of a huge populace ever attempted in human history. From earliest infancy, Soviet children were subjected to state conditioning and to a psychological and doctrinal barrage, in an unvaried environment.

It didn't work The returns aren't all in, but, to date, they show old Mother Nature still doing business at the same old stand.

To say "you can't change human nature" is just like kicking an old rubber boot around, and this venerable line has been offered as the justification for reaction and villainy. But can you? Aren't we pretty much like primitive man when we have at stake anything of real survival importance? The present state of the world would indicate that this is true.

I see one hopeful aspect in our planetary adventure. A hard-boiled state, like Russia and the other absolutist powers, can't make a society, as they are elaborately demonstrating. But a free society like ours can make a state.

March of Events

By *Benjamin DeCasseres*

THE greatest column writer who ever lived, in my opinion, never wrote for a newspaper. In fact, when Michel de Montaigne wrote in his "Essays" the raciest line of comment on things then current and historical, on human nature and on the wars that were fought at his doors, newspapers hardly existed—in fact, they didn't.

Today we have another great column writer—who has no column. Dr. Lin Yutang, of China and America, is the Chinese Montaigne. I have been loafing for weeks through his fascinating book of running comment and mirthful babble, "The Importance of Living."

His outlook is the same as the French writer's—sceptical, human and tolerant. In a word, the non-importance of being serious and the uselessness of hard work.

Here are some of Dr. Yutang's gems:

> **"Four thousand years of efficiency would ruin any nation."**
>
> **"If there are social philosophies which deny the happiness of the individual life as the final goal and aim of civilization, those philosophies are the product of a sick and unbalanced mind."**
>
> **"What Macaroni has done Mussolini has undone in the cause of understanding between Italy and the outside world."**

Yes, Mr. Kipling, the East and the West sometimes "meet." In Dr. Yutang's savory book, East and West swap chop suey for plates of Boston baked beans.

The truth of Boswell's remark that "patriotism is the last refuge of a scoundrel" is being illustrated over in Europe every day.

King Carol, of Rumania, in setting up a corporative state in his country said in his proclamation to the people:

> **"I have been moved by one idea only—the love of my people and the need to rescue the fatherland."**

This "love of my people" patter is the excuse of every attempt that has ever been made in historical memory to rob people of their liberties and reduce them to parasites and automatons.

It is, by the way, also the excuse of all New Dealers in this country for their attempted regimentation of our businesses and the confiscation of our earnings through taxation.

Plutarch, the world's first biographer of the great, who lived several thousand years ago, knew the Orientals, even then, pretty well when he said:

> **"The inhabitants of Asia all became slaves to one man because they could not pronounce the one syllable NO."**

This is, however, a common ailment even unto this day. "NO" has been the hardest word to utter, apparently, by millions of people — including Americans — before tastily baited new-fangled and crackpot "ideas."

But the time has come in our history when we are compelled, in order to survive, to say NO to all foreign alliances and all alien-bred isms and ologies.

Let us shout that word NO!

The Political Parade

By *George Rothwell Brown*

WASHINGTON, March 10.

THE battle to the death which has broken out in T. V. A. presents a clear-cut issue, which in the end well may determine whether, as the most powerful instrumentality of government in the United States, Congress or bureaucracy shall survive.

As conditions have developed in Washington it is clear that both cannot survive.

Two Senators have disclosed how bureaucracy, grown as reckless as it is arrogant, has sought to penalize members of the Congress for their votes as lawmakers.

T. V. A. has now challenged the right of Congress to investigate its own creatures.

If Congress falters, surrenders the investigating power to bureaucracy to investigate itself, it may well prove to be the case that a political revolution will be required in this country to restore the constitutional balance.

Congress has used the investigating power but little during the past few years.

It is said by those who have made inquiry into this matter, that not fewer than 100 resolutions of investigation, in the House of Representatives alone, have been bottled up in committee by the party in power.

This is one result of Congressional majorities so large as to be able to defy even minority opinion within their own ranks. In the Senate but two investigations of consequence have been held within the past five years, that by the Judiciary Committee, into the Supreme Court packing plan, and that by the Byrnes Committee into unemployment relief. Both have magnificently demonstrated their value to the nation.

If Congress now yields in the T. V. A. controversy, and authorizes an investigation by a body other than Senate or House, bureaucracy will have gained one of its greatest victories.

Students of constitutional government at both ends of the Capitol are not merely concerned with the challenge of bureaucracy to Congress.

They foresee the day when bureaucracy will dominate even the Presidency.

This is the reason why the struggle for supremacy, which has broken out in the Tennessee Valley Authority, has precipitated a major crisis in Washington.

And T. V. A. is only one child of Congress now grown big enough to think it can whip its old man!

A part of the great octopus of bureaucracy is hidden behind government holding companies incorporated in Delaware. Try to dig into the source of their power.

But here's a funny one. Uncle Sam is in the rum-making business in the Virgin Islands. The business is owned by a government stock company incorporated for $30. There are three shares of stock at $10 each.

On this capitalization the government's rum factory showed an annual profit of $6000, which is some profit for a $30 capital.

P. S.—But the government spent $2,500,000 in this great $30 business venture. All of which came out in Congress the other day. But nobody seems to care.
